Mission Impact: The preceding schedule was developed to minimize the impact on Air Force mission capability while placing priority on closing eight bases and realigning six bases, as recommended by the 1991 Base Closure Commission and directed by the Defense Base Closure and Realignment Act of 1990, P.L. 101-510, as amended. It is the Air Force's objective to close eight bases and realign six bases at the earliest opportunity to take advantage of savings provided by reductions to Air Force end strength, reductions to base operating support costs, and anticipated proceeds from sale of real and personal property at the closure bases.

Environmental Considerations: By the end of FY 2001, ten BRAC 91 installations will have remedial actions installed in accordance with the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). These actions (which include: landfill closures, groundwater treatments, bioventing, air sparging, underground storage tank removals and free product removal) comply with the requirements of CERCLA 120(H)(3) which governs deed transfers of property, and protects human health and the environment. By FY 2000, it is anticipated that the two of the three National Priority List (Loring AFB, ME and Williams AFB, AZ) will have all remedies in place and operational and be positioned for de-listing. There are currently 41,555 acres to be transferred at BRAC 91 installations; 25,429 acres are now environmentally ready for transfer. Through long term leases and deed transfers, 35,548 acres are now in reuse. Eight installations (Bergstrom AFB, TX, Castle AFB, CA England AFB, LA, Eaker AFB, AR, Myrtle Beach AFB, SC, Richards-Gebaur ARS, MO, Rickenbaker ANGS, OH and Williams AFB, AZ) have greater than 90% of the available acres in reuse. Completion of the environmental actions are crucial for the reuse and economic development of the affected communities.

Other: Included in this submit are those requirements generated by the 1991 Base Closure Commission which changes the 1988 Base Closure Commission recommendations. Additionally, the defense base closure account, which funds the bases recommended for closure by the 1988 Commission, expired on September 30, 1995. Therefore, the defense base closure account of 1990 has been used to fund ongoing environmental restoration and property disposal actions for the BRAC 88 closures and realignments since that date. These costs are included in the 1990 account, and are separately identified in this portion of the budget submission.

The savings associated with these closure actions are for display purposes only and will accrue in other Air Force appropriations. The funding profiles associated with the schedule have been programmed to accomplish this objective.
