Description of Operations Financed:

The Operation and Maintenance (O&M) appropriation provides funds for operational support of the Air National Guard (ANG) along with ANG/Air Force blended wings and ANG/Air Force associate units. O&M finances the flying and maintenance of ANG mission related aircraft and supports military technicians providing day-to-day training and support of aircraft. Funding supports operation, maintenance, and repair of facilities including Real Property Support Agreements; State Security Agreements; facility sustainment; travel costs of all ANG personnel; supplies and equipment. Provides funding to support the day-to-day staffing needed to train, equip, and support an ANG force at a level of combat readiness that enables it to immediately assimilate into the active force and be capable of conducting independent operations in accordance with unit wartime taskings.

Overall Assessment:

Performance metrics used to determine the Air National Guard's ability to sustain OPTEMPO requirements are mission capable rates that are driven by funded levels in the flying hour program and depot maintenance program.

"In accordance with the President's Management Agenda, Budget and Performance Integration initiative, this program has been assessed using the Program Assessment Rating Tool (PART). Remarks regarding program performance and plans for performance improvement can be located at the Expectmore.gov website."

Realignment of funding from Air National Guard (ANG) Operations and Maintenance (O&M) to Active AF O&M. The CAM program simplifies sustainment execution and optimizes enterprise-level tradeoffs in a constrained funding environment. Centralizing the execution of flying operations funding will allow the Air Force to manage its assets from an enterprise perspective to support home station and forward deployed units, MAJCOMs, Commanders, and airmen at all echelons. This phase realigns Contractor Logistics Support, Sustaining Engineering, and Support Equipment funding. (FY 2007 Base \$327,437)

i) Aircraft Engine/Other Maintenance.....	\$ -8,309
FY 2008 sees a decrease in aircraft engines receiving maintenance. Major drivers are fewer engine repairs for the KC-135E due to planned retirement. However, historical data results in an increase in model driven requirements for the KC-135R engine repairs (+\$2.850M). In accordance with fiscal guidance, a contract realignment of government furnished material for the C-5 (-\$24.570M) and F-15/F-16 (-\$54.879M) to contractor furnished material for the C-5 (+\$16.446M) and F-15/F-16 (+\$49.915M). The F-16 organic engine repairs decrease (-\$5.699M) due to A and B model retirements. Actuary engine data reduces the Joint Surveillance Target Attack Radar System (JSTARS) engines repair requirement (-\$2.762M). Additional F-15 inventory increases the organic (+\$0.666M) and inter-service and contract (+\$0.530M) unprogrammed engine repairs. System Program Office (SPO) decreased storage level requirement (-\$2.606M). Force structure changes increase Other Major Equipment Items for inter-service/contract repairs (+\$7.485M) and organic repairs (+\$1.110M); Exchangeables for inter-service/con-

ii) Aircraft Airframe Maintenance..... \$ -2,487

FY2008 sees a decrease in aircraft maintenance due to change in force structure and Programmed Depot Maintenance (PDM) requirements. Force structure realignment for +12 F-15 organic PDMs (+\$43.490M), -12 C-130 organic PDMs (-\$27.379M), resulting in a decrease in contract field teams (-\$0.847M). Unprogrammed maintenance repairs increases due to the scheduled increase of the C-5A inventory (+\$8.315M). In accordance with fiscal guidance, there is a realignment of KC-135 PDMs from government furnished material contracts (-\$44.974M) to contractor furnished material contracts (+\$35.185M). Due to fiscal constraints, deferred 1 organic KC-135R (-\$6.785M). Removed requirement for C-5A contour box beam fitting and crown skins based on the premise that the workload is a modification and not maintenance. Decrease in contract unprogrammed depot level maintenance (-\$15.326M). Also, there is a HH-60 inter-service Joint Depot Level Maintenance (+\$2.319M) and other depot maintenance requirements across all weapon systems (+\$3.515M) for depot field teams. Description of Operations Financed:

Sustainment: Provides resources for maintenance and repair activities necessary to keep an inventory of facilities in good working order. Includes regularly scheduled maintenance and major repairs or replacement of facility components that are expected to occur periodically throughout the life cycle of facilities. Categories of facilities sustainment include preventive maintenance, minor repairs, and periodic (scheduled and predictable) replacement of major components including roofs, exterior and interior walls and finishes, stairways, doors, and air conditioning, heating, plumbing, electrical, and fire protection systems.

Restoration/modernization: Provides resources for improving facilities. Restoration includes repair and replacement work to restore facilities damaged by inadequate sustainment, excessive age, natural disaster, fire, accident, or other causes. Modernization includes alteration of facilities solely to implement new or higher standards, to accommodate new functions, or to replace building components that typically last longer than a normal service life, such as building foundations.

Demolition: Funding to support scheduled building demolition.

Realignment of funding from Air National Guard (ANG) Operations and Maintenance (O&M) to Active AF O&M. The CAM program simplifies sustainment execution and optimizes enterprise-level tradeoffs in a constrained funding environment. Centralizing the execution of flying operations funding will allow the Air Force to manage its assets from an enterprise perspective to support home station and forward deployed units, MAJCOMs, Commanders, and airmen at all echelons. This phase realigns Contractor Logistics Support, Sustaining Engineering, and Support Equipment funding. (FY 2007 Base \$913)

i) Real Property Support Agreements \$ 6,832

Program increase covers the cost of state employee salaries, maintenance supply increases, and additional firefighters provided under the Facilities Operations and Maintenance Agreements (FOMA). These support agreements provide for all base maintenance and fire department support for ANG bases located at 87 flying locations around the country. The agreements are with the states which provide state employees since ANG bases do not have federal personnel to perform these missions.

(FY 2007 Base \$154,779)

ii) Homeland Air Defense \$ 4,285

Support costs associated with Operaton Noble Eagle (ONE) not funding in FY 2007. Special program codes have been set up (for all AF) to track programmed funding for ONE operations and maintenance (O&M) support. (FY 2007 Base \$0)

iii) Information Technology \$ 3,837

The ANG base communications program was previously funded in subactivity group Mission Support Operations. The program was moved to Base Support. This action completes the move of remaining funds. Also includes realignment of funding within C4 System Support in line with actual execution, new element of expense codes, and funding for computer equipment. (FY 2007 Base \$74,771)

iv) Facility Communications \$ 3,000

Funds communication infrastructure for facilities undergoing upgrades/renovations. Ensures core facilities are complete with C4 infrastructure upon occupancy. (FY 2007 Base \$0)

v) Base Utilities \$ 2,866

Supports funding for the purchased utilities account and reflects substantial fact-of-life price increases, significantly above the 2.2% general inflation factor. This account is a fundamental must pay mission enabler that is required for operational capability. The sustained increases in utility commodity costs are evident across ANG installations: purchased electricity has increased 16.5% and natural gas has increased 31% a year to date. (FY 2007 Base \$39,628)

vi) Contract Environmental Services \$ 1,722

Provides increased funding for full support of environmental assessments and studies supporting compliance and conservation efforts along with pollution prevention. Prior year actuals were \$13M. Increase in funding aligns program closer to actual demand. (FY 2007 Base \$10,375)

vii) State Security Agreement \$ 1,686

Provides increased funding for state/contract security at ANG installations. Provides twenty-four armed security at installation entry points, base patrol, security response, and resource protection. Also provides antiterrorism/force protection of ANG installations, critical facilities, and personnel. Additional funding is required to meet annual increases in salaries and benefits, as well as increased training, equipment and uniform requirements.

viii) First 400 Feet \$ 1,500
Funds first 400 feet infrastructure requirements (internal wiring, cable upgrade, hubs, routers, etc.) to ensure reliability and compliance with the AF Combat Information Transfer System (CITS) standard for inter-and intra-service interoperability. All ANG flying wings and 200+ geographically separated units have core-one facilities that require first 400 feet cabling.
(FY 2007 Base \$0)

ix) Civil Engineering Services \$ 599
Provides funding to cover increased cost for civil engineering services such as refuse collection/disposal and custodial services.
(FY 2007 Base \$9,249)

9. Program Decreases..... \$ -2,083

a) One-Time FY 2007 Costs \$ -1,800

i) Warrior Skills & Convoy Training \$ -1,800
One-time FY 2007 Congressional funding increase.

b) Annualization of FY 2007 Program Decreases \$ 0

c) Program Decreases in FY 2008 \$ -283

i) Base Support Manpower Reset/Reprice \$ -283

Manpower realignments have been made to support Total Force Integration (TFI) initiatives; Base Realignment and Closure (BRAC); and ANG Reset. Reset of the Air National Guard will balance manpower to deliver essential capabilities for national security and ensure these capabilities remain in the National Guard of every state, while complying with BRAC. Base Support functions will see a net-reduction in manpower. Funding in Base Support has been adjusted for the realignment of manpower along with repricing the force to fund at a level in-line with actual requirement. (FY 2007 Base \$136,922)
