

I'm Certified, What's Next? Continuous Education and Training (CETs)

What's a CET? A CET is a Continuing Education and Training credit signifying that you have completed FM or leadership related training. Once you've completed your initial FM Certification requirements, you must maintain your FM Certification by earning a specific quantity of CET hours every two years.

How Do You Track Your CETs? As you complete your CETs, you must use the FM LMS to record your training. Use the training located at <https://go.usa.gov/xsPb5> for step-by-step instructions on this process. For CETs, you are not required to upload documentation in the FM LMS, however, you should maintain a personal file with training documentation for 4 years for audit purposes.

Remember, you can only earn CET credit after getting your certification!
