*The Edge of Innovation*

# OFFICE OF THE ASSISTANT SECRETARY

Fellow Airmen,

Welcome to the 2022 American Society of Military Comptrollers Professional Development Institute and Air Force Service Day! It is both an exciting and challenging time to serve our nation as military comptrollers. We must continue to adapt, innovate, and use technology to our advantage as we press forward to support our warfighters.

As we have seen in recent months, we live in a dynamic world. We must be steady in our commitment to fiduciary excellence, while doing everything we can to support our men and women on the ground. Our keynote speakers, Colonel James Cunningham and Captain Vincent Colletti were heavily involved in the execution of Operation ALLIES REFUGE and ALLIES WELCOME from different vantage points. I hope hearing from them allows you to see how the work you do every day can quickly become imperative to achieving national security and operational goals. I hope it inspires you. Following the keynote speakers, we will recognize the top performers from fiscal year 2021. The accomplishments of today's award winners highlight the efforts of Airmen; individually, as teams, and as wingmen supporting the greater mission.

As I reflect on past Professional Development Institutes, I am reminded of how important it is to be together to build relationships, to grow as leaders, and to learn from one another. I encourage you to take full advantage of the opportunity this Defense-wide event provides by engaging and networking with your fellow Airmen, as well as with our Defense partners. Thank you for the work you do every day to deliver the Financial Management Mission and to support an integrated, lethal, and ready Department of Air Force.

**Kristyn E. Jones**

Assistant Secretary of the Air Force  
(Financial Management and Comptroller)
