Budget Activity 01: Operating Forces - Major Program Changes:

Operating Forces program changes between FY 2008 and FY 2009 equal \$+158.5 million. Major program increases are attributed to resourcing the Air Force Reserve flying hour program based on the latest, approved factors (\$118.9 million); civilian pay required to fund approved full-time equivalent at higher levels (\$25.4 million); aircraft/engine maintenance at the depots (\$57.5 million); resources for the 932nd Airlift Wing (\$9.9 million); and weapon system and simulator contractor logistics support (\$ 11.1 million). Other FY 2009 increases support Air Force Total Force Integration (TFI) initiatives that created F-22, F-16, and A/OA-10 associate units (\$ 27.6 million); facilities restoration and modernization requirements (\$ 9.1 million); C-5 Formal Training Unit (FTU) requirements (\$5.9 million); utilities cost increases (\$5.2 million); and the Readiness Management Group transfer (\$ 1.3 million). Major program decreases include reduced aircraft/engine maintenance requirements (\$-78.9 million); and Base Realignment and Closure manpower realignments (\$-49.4 million). Other significant program reductions are caused by the non-BRAC programmatic change at Willow Grove NAS/JRB (\$-13.7 million); Air Force's decision to level base operation support non-pay programs for all major commands (\$-6.3 million); and civilian pay adjustment based on latest actual data (\$-2.2 million).

Increases are for Air Force Reserve advertising to meet manning and readiness requirements (\$ 2.6 million); and additional resources for Management Headquarters (\$.5 million). FY 2009 reductions completes the transfer of manpower and funding for the Readiness Management Group to the Mission Support subactivity group (\$-1.3 million); and civilian pay funding utilizing the latest actual data (\$-1.2 million).

i) FY 09 Flying Hour Program	\$ 118,871
The FY 2009 flying hour program supports the necessary hours to maintain basic combat flying skills, pilot production and development, and provides trained aircrews to support Joint Forces Combatant Commanders. The FY 2009 growth is required to resource the Air Force Reserve flying hour program utilizing factors validated by the Air Force Cost Analysis Improvement Group (AFCAIG) and the Spares Requirement Review Board (SRRB). Major changes are for the C-5 aircraft as the unit at Wright Patterson AFB, OH that completed its conversion from C-141s to eight C-5 aircraft in FY 2007 does not yet have all the requisite repair capability at the unit level requiring spare parts to be shipped to the depot for repair, and the correction of cost estimates for the KC-135 aircraft because of discrepancies in the factors historically used for this weapon system. FY 2008 Base, \$686,389.	
ii) Civilian Pay	\$ 24,667
In fiscal years 2007 and 2008, the Air Force did not fully fund approved civilian full-time equivalent levels as the focus was on aligning funds to modernize and recapitalize aircraft and equipment. This decision resulted in heavier workloads for the existing workforce and potential adverse actions required to adequately execute the civilian manpower program during the year of execution. Because of these challenges, the corporate Air Force decided to fund

the approved civilian full-time equivalents at a higher level for FY 2009, using the latest actual pay data and pay raise information. (FY 2008 Base, \$789,594)

- iii) Training, Test and Ferry Program.....\$ 18,660
 The Air Force Reserve training, test, and ferry flying program is underfunded in FY 08 and FY 09 because of higher fuel costs and late approval of rates that will be used to pay the Transportation Command for hours flown by C-5 and C-17 associate units. FY 08 is funded at 78.2% and FY 09 at 84.5% of total requirements. The progam growth in FY 09 reflects the difference in the level that each fiscal year is resourced. (FY 08 Base, \$187,631)
- iv) Weapon System and Simulator Contractor Logistics Support\$ 11,074
 Additional growth in FY 2009 for Air Force Reserve contractor logistics support (CLS) requirements required for six (6) separate weapon systems. These systems were only funded at 40% of the requirement prior to FY 2008. Increase also supports the growth in the number of Aircrew Training Devices and the higher cost of contractor logistics support for the C-5, C-17, C-130, F-16, and A-10 simulators. (FY 08 Base, 111,279)
- v) F-16 Associate Units - Total Force Integration\$ 10,564
 The Base Realignment and Closure Commission directed the divestiture of the Air Force Reserve's F-16 unit equipped mission at Hill AFB, Utah. The Air Force's Total Force Integration (TFI) Phase II initiative created an associate F-16 unit and used resources from the divested F-16 unit equipped operation to partially fund the new associate unit. The Total Force Integration plan also integrated the Air Force Reserve into the Aggressor mission at Nellis AFB, Nevada. The FY 2009 growth represents the full year impact of the civilian manpower added in FY 2008 for the F-16 associate and Aggressor missions. (FY 08 Base, \$54,280)
- vi) F-22 Associate Mission - Total Force Integration\$ 9,953
 Phase II of the Air Force's Total Force Integration (TFI) plan established an Air Force Reserve Associate F-22A unit with two (2) 18 PAA squadrons at Elmendorf AFB, Alaska beginning in FY 2008. Unit will associate with the active Air Force to increase combat capability by providing a more experienced workforce while generating a higher utilization rate and pilot ratio. Increase in FY 2009 is for the additional civilian manpower and flying hours required as this unit continues its growth to full operation by FY 2012. (FY 08 Base, \$ 10,988)
- vii) 932nd Airlift Wing\$ 9,943
 Annualization of funds added in FY 2008 for civilian manpower, flying hours, and contractor logistics support required for the Special Air Mission at the 932nd Airlift Wing at Scott AFB, Illinois. The unit's Special Air Mission tasking was established in FY 2004. Prior to FY 2008, the 932nd Airlift Wing has been operating by utilizing funding provided in Congressional marks. viii) A-10/OA-10 Squadrons - Total Force Integration.....\$ 7,039

The Air Force's Total Force Integration (TFI) plan directed the creation of Air Force Reserve A-10 and A/OA-10 associate units at Moody AFB, Georgia and Davis Monthan AFB, Arizona. These units will maximize combat capability and efficiencies due to a constrained fighter force, provide stability, continuity and an experienced instructor force, while reducing training costs. Increase in FY 2009 is for the additional civilian full time equivalents and flying hours required at these two locations. (FY 08 Base, \$ 62,958)

ix) C-5 Formal Training Unit (FTU).....\$ 5,891

The C-5 Formal Training Unit (FTU) transferred from the active Air Force to the Air Force Reserve beginning in FY 2007. This unit, located at Lackland AFB, Texas, is the Air Force's sole C-5 training school and also has a dual mission as an operational unit. Growth in FY 2009 represents the annualization of instructor and maintenance manpower positions added in FY 2008 that are required to satisfy student training load requirements. (FY 08 Base, \$ 24,574)

x) Aerospace Rescue and Recovery.....\$ 3,900

Increase provides the initial procurement of rescue equipment for three Guardian Angel pararescue squadrons activated by the Air Force Reserve that will support personnel recovery and homeland defense requirements. Increase will enhance the operational readiness of frequently deployed rescue forces in order to meet deployment taskings. (FY 2008 Base, \$ 45,911)

xi) Space Operations Squadrons\$ 1,628

Increase in FY 2009 is for the annualization of the additional civilian manpower added in FY 2008 for the upgrade of the 310th Space Group to a Space Wing. Satisfies the shortage of manpower required to support nine (9) unique Air Force Space Command missions, and the functional expertise in the organization that has hindered effective mission management. (FY 08 Base, \$ 8,594)

xii) Global Hawk Mission.....\$ 1,551

Full year impact of the conversion of Active Guard Reserve (AGR) positions to Air Reserve Technicians for the Global Hawk associate mission at Beale AFB, California. Establishes career progression opportunities within the Global Hawk career field for technician personnel, and provides the expertise and stability required for a mature weapon system and to maximize capability. c) Program Decreases in FY 2009	\$ -53,337
i) BRAC Manpower Realignments	\$ -39,919
FY 2009 impact of realigning manpower from Air Force Reserve units that were impacted by Base Realignment and Closure actions to fund higher priority Total Force Integration (TFI) initiatives. Also supports manpower requirements at Pope, Buckley, and Luke Air Force bases that were generated by BRAC decisions. (FY 08 Base, \$ 39,919)	
ii) Non-BRAC Programmatic Adjustment	\$ -8,702
Base Realignment and Closure (BRAC) of Willow Grove Naval Air Station/Joint Reserve Base inadvertently did not account for the Air Force Reserve mission at the base. FY 2009 decrease represents the full year impact of the transfer beginning in FY 2008 of manpower, aircraft, and flying hours to fund higher priority Air Force Reserve missions. (FY 08 Base, \$ 8,702)	
iii) C-5 Crew Ratio Standardization	\$ -2,407
FY 2009 adjustment related to the reduction of civilian full time equivalents at the Wright-Patterson AFB, Ohio C-5 unit due to the decrease and standardization of the crew ratio from 3.2 to 2.0. This change, begun in FY 2008, standardizes the C-5 crew ratio across the entire Air Force Reserve unit equipped fleet. (FY 08 Base, \$ 271,330)	
iv) F-16 Fighter Squadrons (Unit Equipped)	\$ -2,309
Annualization of civilian manpower transfer attributed to the Base Realignment and Closure Commission action that directed the divestiture of the Air Force Reserve F-16 unit equipped mission at Hill AFB, Utah. Personnel Summary Explanations

FY 2009 increases are primarily related to the establishment of the 932nd Airlift Wing, Total Force Integration (TFI) initiatives creating F-16, F-22, and A-10 associate units and the integration into the Aggressor mission, and manpower for the C-5 Formal Training Unit (FTU). Other increases support the Global Hawk associate mission and the upgrade of the 310th Space Group to a Space Wing.

i) Tactical Communications Squadrons	\$ 5,703
FY 2009 funding increase will provide for the completion of the remissioning of the Air Force Reserve's thirty (30) deployable communications units creating a standardized force module supporting total force requirements. The modules will provide basic go-to-war theater deployable communications packages to forward operating locations. Increase remissions twenty two (22) units and standardizes their independent, secure/unsecure data, voice, and radio packages, and purchases sustainment for existing packages at four (4) units. (FY 08 Base, \$ 6,337)	
ii) Civil Engineering Squadrons and Flights	\$ 4,460
Much of the Air Force civil engineering organization is in the midst of transformation, with changes the result of streamlining, downsizing, and increasing responsiveness in the Global War on Terror. Forces are being changed to a more expeditionary and contingency based focus, that requires a transition to Red Horse mission areas. Funding increase in FY 09 will address new equipment requirements for improved personnel protection and smaller, more easily transportable equipment for Air Force Reserve personnel. (FY 08 Base, \$ 12,229)	
iii) Readiness Management Group (AFRC)	\$ 3,989
Internal realignment, begun in FY 2008, of Individual Mobilization Augmentee (IMA) oversight from the Air Reserve Personnel Center (ARPC) to Hq Air Force Reserve Command (AFRC). Increase supports the additional full time equivalents and O&M support funding that was moved from Hq ARPC and the Base Support subactivity group to the newly established Readiness Management Group. iv) Medical Service Units.....	\$ 1,332
Funding increase associated with the add of thirty two (32) Air Reserve Technician manpower positions at Air Force Reserve medical service units based on the implementation of newly applied manpower standards. (FY 08 Base, \$ 14,172)	
v) Battlestaff Augmentation - Total Force Integration	\$ 1,097
The Air Force's Total Force Integration (TFI) Phase II initiative directed the creation of an Air Force Reserve War Fighting Headquarters (WFHQ) associating with the active Air Force. Associate unit will be established at Beale AFB, California and will augment Pacific Air Command's WFHQ. Increase is for the annualization of civilian manpower added in FY 2008 that will provide the full-time support for the operation of this new unit. (FY 08 Base, \$ 1,897)	
vi) Aeromedical Evacuation Squadrons	\$ 573
Full year impact of full-time civilian personnel added in FY 2008 to fill the requirement for a squadron aviation resource manager (SARM) at Air Force Reserve aeromedical evacuation squadrons who will document the flying qualification, training, and currency for all applicable crew members. (FY 08 Base, \$ 9,520)	
vii) Aerial Port Units	\$ 448
Increase in FY 2009 supporting the civilian full time equivalents associated with the restoration of eleven (11) manpower authorizations at those aerial port units with total manpower that exceeds 180 personnel. The change right sizes full-time manning at those locations to support traditional reserve training, and insures the capability and readiness of each unit to meet their wartime mission. (FY 08 Base, \$ 12,717)	
9. Program Decreases.....	\$ -3,125
a) One-Time FY 2008 Costs.....	\$ 0
b) Annualization of FY 2008 Program Decreases	\$ 0
c) Program Decreases in FY 2009	\$ -3,125
i) Civilian Pay	\$ -2,220
In fiscal years 2007 and 2008, the Air Force did not fully fund approved civilian full-time equivalent levels as the focus was on aligning funds to modernize and recapitalize aircraft and equipment. This decision resulted in heavier workloads for the existing workforce and potential adverse actions required to adequately execute the civilian manpower program during the year of execution. Because of these challenges, the corporate Air Force decided to fund

the approved civilian full-time equivalents at a higher level for FY 2009, using the latest actual pay data and pay raise information. (FY 2008 Base, \$72,395)

- ii) Non-BRAC Programmatic Adjustment\$ -331
Base Realignment and Closure (BRAC) of Willow Grove Naval Air Station/Joint Reserve Base inadvertently did not account for the Air Force Reserve mission at the base. FY 2009 decrease represents the full year impact of the transfer beginning in FY 2008 of manpower and funding to higher priority Air Force Reserve missions. (FY 08 Base, \$ 331)
 - iii) BRAC Manpower Realignments\$ -329
FY 2009 impact of realigning manpower from Air Force Reserve units that were impacted by Base Realignment and Closure actions to funding higher priority Total Force Integration (TFI) initiatives. Also supports manpower requirements at Pope, Buckley, and Luke Air Force bases that were caused by BRAC actions. (FY 08 Base, \$ 329)
 - iv) Aerial Port Units\$ -245
Annualization of the transfer of civilian manpower at two (2) Air Force Reserve aerial port squadrons. These squadrons are general support units (GSU) that do not reside on a current DoD installation which results in costly infrastructure and force protection issues. (FY 08 Base, \$ 12,717)

Other maintenance increases support contour box beam and pork chop fittings on the C-5 (\$+22,096), continuation of the Service Life Extension Plan (SLEP) on the A-10 (\$+12,746), and inspections for corrosion of the mid interval/center wing on C-130 aircraft (\$+5,605) (FY 08 Base, \$ 168,640)

	Decrease in aircraft maintenance requirements in FY 2009 is based on three (3) less C-5 (\$-53,226) aircraft being scheduled for Programmed Depot Maintenance. Other FY 2009 reductions are attributed to fewer engines programmed for repair for the C-5 (\$-17,340), KC-135 (\$-4,620), B-52 (\$-2,880), and C-130 (\$-840) aircraft. (FY 08 Base, \$ 212,130)

Budget Activity: Operating Forces
Activity Group: Air Operations
Detail by Subactivity Group: Facilities Sustainment, Restoration and Modernization

I. Description of Operations Financed:

This activity group provides for costs in support of facilities sustainment, restoration and modernization, and demolition for the Air Force Reserve. Sustainment provides funding for maintenance and repair activities necessary to keep an inventory of facilities in good working order. Included are regularly scheduled adjustments and inspections, preventive maintenance tasks, and emergency response and service calls for minor repairs. Also included are major repairs or replacement of facility components that are expected to occur periodically throughout life cycles of facilities. This work includes regular roof replacement, refinishing of wall surfaces, repairing and replacement of heating and cooling systems, replacing tile and carpeting, and similar types of work. Restoration includes repair and replacement work to restore facilities damaged by lack of sustainment, excessive age, natural disaster, fire, accident, or other causes. Modernization includes alterations to facilities solely to implement new or higher standards, to accommodate new functions, or to replace building components that typically last more than 50 years. This program element provides the funding necessary to restore and modernize the Air Force Reserve facilities and infrastructure to meet mission requirements while maintaining a high standard of quality of life. Funding is provided for the demolition of buildings, pavements, utility systems, and other supporting infrastructure. Included are environmental costs directly attributable to demolition/disposal, but excludes restoration costs.

I. Description of Operations Financed:

Provides qualified people (active duty, reserve and civilian), equipment, materiel and facilities supporting ten (10) reserve installations. Operation and Maintenance funding includes civilian personnel funding for U.S Wage Board and U.S. General Schedule costs, TDY funds, vehicle operating costs, printing and reproduction costs, equipment maintenance, continuing education support, installation contractor support costs, reimbursable services, civilian contractor costs, Supply Management Business Area (SMBA) equipment and supply expenses, and information processing equipment. Real property services (RPS) fund items such as the engineering operations and services to accomplish municipal activities (utilities and utility plant operations, fire protection and crash rescue, explosive ordnance disposal, disaster snow removal, grounds services, custodial services, refuse collection/disposal, tank cleaning/inspection, elevator inspection, rents, leases, airport joint use agreements, etc). Also provides Environmental Compliance funding to ensure Air Force Reserve activities comply with applicable Federal, State, and Local environmental regulations and standards. Environmental Conservation ensures protection of natural and cultural resources. Pollution prevention eliminates or reduces the impact on health and the local environment.

i) Utilities Cost Increase	\$ 5,240
Utility costs have increased by an average of 12 percent per year from FY 2002 to FY 2007. The corporate Air Force provided resources required to cover a portion of fact of life utility cost increases to avoid a must pay bill during the year of execution. The growth in FY 2009 enables the Air Force Reserve to fund 90 percent of the projected utilities requirements. (FY 2008 Base, \$ 19,786)	
ii) Base Communications	\$ 3,401
Funds annual license renewals for Air Force Reserve Command software which allows for the continued operation within the copyright laws for the various applications that are used. (FY 08 Base, \$ 50,653))	
iii) Utilities Transfer and Privatization.....	\$ 1,293
The additional transfer in FY 2009 of funds that were centrally managed by the active Air Force to the Major Commands facility operation utility accounts to buy down utility shortfalls rather than wait and realign the resources during the year of execution. Funding also increases to partially cover the shortfall in contracts for twenty (20) privatized utility systems where studies have been performed. (FY 08 Base, \$ 19,786)	
iv) Civilian Pay	\$ 735
In fiscal years 2007 and 2008, the Air Force did not fully fund approved civilian full-time equivalent levels as the focus was on aligning funds to modernize and recapitalize aircraft and equipment. This decision resulted in heavier

workloads for the existing workforce and potential adverse actions required to adequately execute the civilian manpower program during the year of execution. Because of these challenges, the corporate Air Force decided to fully fund the approved civilian full-time equivalents for FY 2009, using the latest actual pay data and pay raise information. (FY 2008 Base, \$124,100)

a) One-Time FY 2008 Costs.....	\$ 0
b) Annualization of FY 2008 Program Decreases	\$ 0
c) Program Decreases in FY 2009	\$ -23,046
i) BRAC Manpower Realignments	\$ -8,793
	FY 2009 impact of realigning manpower from Air Force Reserve units that were impacted by Base Realignment and Closure actions to fund higher priority Total Force Integration (TFI) initiatives. Also supports manpower requirements at Pope, Buckley, and Luke Air Force bases that were caused by BRAC actions. (FY 08 Base, \$ 8,793)
ii) Base Operation Support.....	\$ -6,313
	The reduction in FY 2009 reflects the impact of the Air Force's decision to level base operation support non-pay programs for all the major commands. The net result of this effort is all commands will be funded at 68% of base operation support requirements in FY 2009. Civilian pay and A-76 studies were exempted from the methodology used to calculate the adjustment required to level all commands at 68%. (FY 2008 Base, \$113,972)
iii) Non-BRAC Programmatic Adjustment	\$ -3,138
	Base Realignment and Closure (BRAC) of Willow Grove Naval Air Station/Joint Reserve Base inadvertently did not account for the Air Force Reserve mission at the base. FY 2009 decrease represents the full year impact of the transfer beginning in FY 2008 of manpower and funding to higher priority Air Force Reserve missions. (FY 08 Base, \$ 3,138)
iv) Readiness Management Group (AFRC)	\$ -2,674
	FY 2009 impact of the realignment of the Readiness Management Group (RMG) from the Air Reserve Personnel Center (ARPC) to Hq Air Force Reserve Command that was begun in FY 2008. Transfers the additional civilian full-time equivalents and O&M support funding from the Base Support subactivity group to the newly established Readiness Management Group in the Mission Support subactivity group. This plan employs current technology to streamline financial management processes and increases capability. (FY 08 Base, 2,128)

Personnel Summary Explanations

Civilian full-time equivalent reduction in FY 2009 is associated with Base Realignment and Closure actions at Air Force Reserve bases, the non-BRAC programmatic adjustment at Willow Grove Naval Air Station/Joint Reserve Base, and the financial management transformation of services and implementation of the Air Force Financial Services Center (AFFSC) and Center for Expertise (COE).

In fiscal years 2007 and 2008, the Air Force did not fully fund approved civilian full-time equivalent levels as the focus was on aligning funds to modernize and recapitalize aircraft and equipment. This decision resulted in heavier workloads for the existing workforce and potential adverse actions required to adequately execute the civilian manpower program during the year of execution. Because of these challenges, the corporate Air Force decided to fund the approved civilian full-time equivalents at a higher level for FY 2009, using the latest actual pay data and pay raise information. i) Civilian Pay	\$ 321
In fiscal years 2007 and 2008, the Air Force did not fully fund approved civilian full-time equivalent levels as the focus was on aligning funds to modernize and recapitalize aircraft and equipment. This decision resulted in heavier workloads for the existing workforce and potential adverse actions required to adequately execute the civilian manpower program during the year of execution. Because of these challenges, the corporate Air Force decided to fund the approved civilian full-time equivalents at a higher level for FY 2009, using the latest actual pay date and pay raise information.
