Total	48,186.5	1,384.0	-14,369.6	35,200.9	560.8	1,509.1	37,270.8

Description of Operations Financed:

The mission of the United States Air Force is to fly, fight, and win...in air, space, and cyberspace. The Operation and Maintenance (O&M) appropriation finances the capabilities to prevail in today's fight, delivering unmatched combat capability for our nation while sustaining new or expanding capabilities and force structure to meet tomorrow's challenges.

O&M funds are used to operate, sustain, and maintain aircraft, space and related weapons systems; train and develop Airmen; operate advanced communications, command and control systems; purchase critical supplies, equipment and fuel; and operate both stateside and overseas installations. O&M resources directly support essential combat enablers such as: intelligence, weather, air traffic control, search and rescue, reconstitution, airfield, runway and base facility maintenance, and improvements to the working and living conditions for Air Force personnel.

The FY 2014 budget is strategy based and fiscally informed. The Air Force balanced and built this budget prioritizing resource allocation within a broad set of priorities: focus on full-spectrum readiness, align to the new strategy, re-baseline the civilian workforce, sustain our power projection platforms (our installations), and develop and care for our Airmen. The balanced approach across our twelve Air Force Core Functions supports the Joint/Coalition team in today's fight, shapes the Air Force of the future and aligns with the four Department of Defense principles:

Air Force Core Functions: Nuclear Deterrence Operations, Air Superiority, Space Superiority, Cyberspace Superiority, Global Precision Attack, Rapid Global Mobility, Special Operations, Global Integrated ISR, Command and Control, Personnel Recovery, Building Partnerships, and Agile Combat Support

Department of Defense Principles: Maintain the most dominant military in the world, force must be ready, eliminate waste and inefficiency, and do not break faith with men and women in uniform

Overall Assessment:

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
INTRODUCTORY STATEMENT (APPROPRIATION HIGHLIGHTS)

The Air Force's FY 2014 budget submission is built upon the foundation of the FY 2013 President's Budget submission. The Air Force's proposed force structure reductions met significant resistance from both the Congress and the Council of Governors. In response, the Air Force submitted a revised Total Force Proposal (TFP) to the original FY 2013 President's Budget submission. The FY 2013 National Defense Authorization Act accepted most of the revised proposals with two exceptions: retain an additional 32 intra-theater airlift aircraft above the Air Force revised plan and maintain the operational capability of the RQ-4 Block 30 Global Hawk unmanned aircraft system. The Air Force's FY 2014 budget takes these actions into account but does not address the final implementation of the Budget Control Act of 2011.

Within that strategic context, the Air Force's FY 2014 budget submission ensures the current and future readiness of the Air Force to execute the Defense Strategic Guidance in a constrained fiscal environment. The rebalance to the Asia-Pacific and our continued presence in the Middle East indicate the demand for Air Force capabilities will remain constant, or perhaps even rise over the next decade. Today's Air Force provides America an indispensable hedge against the challenges of a dangerous and uncertain future. Regardless of the future security environment, the Air Force must retain and maintain its unique ability to provide America with Global Vigilance, Global Reach and Global Power. The pillars of this effort include a consistent, equitable, and attainable flying hour program, prioritized full-spectrum training venues, focused weapon system sustainment, sustaining our power projection platforms (our Air Force installations) and developing and caring for our Airmen and their families.

The Air Force's flying hour program maintains a consistent and attainable level of readiness. As we rebuild to full-spectrum readiness, adding resources for more flying hours to support training must be matched with maintenance to ensure aircraft availability. In terms of average aircraft age, Air Force "iron" is older than it's ever been; Weapon System Sustainment (WSS) enables weapon system availability and flying hours, making it a key contributor to readiness. To support training and help emulate the modern threat environments our pilots may likely face, the Air Force increased funding to improve and sustain our air-to-air and air-to-ground training ranges to elevate flying training effectiveness for the joint force.

In an effort to improve sustainment of our power projection platforms, the Air Force centralized funding for large project life-cycle facilities sustainment. This centralization establishes an enterprise approach allowing for greater asset visibility and accountability for prioritizing and funding requirements. The Air Force also funded facilities sustainment at 80 percent of the modeled driven requirement.

Foundational to full-spectrum readiness, the Air Force continues to support our Airmen and their families. We improved the consistency of funding to our core "services" programs such as dining facilities, fitness centers, libraries, recreational facilities, child and youth centers, and Airman and family readiness centers. We scrubbed requirements, instituted standard levels of service, and then programmed funding into the baseline to relieve execution year demands.

In an uncertain world, the Nation will depend even more upon agile, flexible and ready Airmen operating in tomorrow's most contested domains of air, space and cyberspace. The Air Force's FY 2014 budget submission maximizes our air, space and cyber capabilities in a constrained fiscal environment. Supporting the Defense Strategic Guidance, this budget allocates resources for full-spectrum readiness to ensure the United States remains the world's greatest Air Force - powered by Airmen, fueled by innovation.

**DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
INTRODUCTORY STATEMENT (APPROPRIATION HIGHLIGHTS)**

<u>Budget Activity</u>	<u>FY 2012 Actual</u>	<u>Price Change</u>	<u>Program Change</u>	<u>FY 2013 Estimate</u>	<u>Price Change</u>	<u>Program Change</u>	<u>FY 2014 Estimate</u>
Operating Forces (BA-01)	27,017.5	764.7	-7,735.1	20,047.1	339.6	1,581.7	21,968.4

Operating Forces (BA-01) includes functions such as: Primary Combat Forces, the Air Force's front-line fighters, bombers, strike, and ISR assets (A-10, B-1, B-2, B-52, F-15, F-16, F-22, F-35, MQ-1, MQ-9, and MC-12 aircraft), representing the "tip of the global power projection spear." Primary Combat Weapons include resources supporting the Air Force's two legs of America's nuclear triad: Intercontinental Ballistic Missiles (ICBMs) and the bomber force. Additional capabilities include electronic warfare and manned destructive suppression assets to enhance the effectiveness of other operational weapons systems. Global Command, Control, Communication, Intelligence (C3I) and Early Warning includes resources that provide Strategic Offensive C3I, Strategic Defensive C3I and Air Force-wide communications. Air Force-Wide Communications programs support development of a survivable communications capability for worldwide Command and Control (C2) communications during pre-attack, trans-attack and post-attack periods. The Air Force Weather Program supports combat and specialized operations, management, readiness and sustainment of Air Force weather and space environmental capabilities and systems.

Budget Activity 01: Operating Forces - Major Program Changes:

The FY 2014 Operating Forces budget request of \$21,968.4 Million represents program growth of \$1,581.7 Million (+\$339.6 Million for pricing changes). The majority of the program increases are due to Weapons System Sustainment, the Flying Hour program, and a portion of Facilities Sustainment, Restoration and Modernization as well as Environmental Quality (pollution prevention and environmental conservation and compliance) requirements being realigned into this BA. Program decreases are mainly due to Civilian Pay. Detailed changes by Subactivity Group are provided in the OP-32.

**DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
INTRODUCTORY STATEMENT (APPROPRIATION HIGHLIGHTS)**

<u>Budget Activity</u>	<u>FY 2012 Actual</u>	<u>Price Change</u>	<u>Program Change</u>	<u>FY 2013 Estimate</u>	<u>Price Change</u>	<u>Program Change</u>	<u>FY 2014 Estimate</u>
Mobilization (BA-02)	8,685.4	401.9	-4,653.2	4,434.1	50.5	109.2	4,593.8

Mobilization (BA-02) includes Airlift Operations, Mobilization Preparedness, and related Base Operating Support and Facilities Sustainment. Global mobility is achieved through strategic and theater airlift in support of peacetime, contingency, and wartime operations in pursuit of national objectives. Rapid movement, establishment, and sustainment of combat forces anywhere in the world to deter and defeat aggression or to provide humanitarian/peacekeeping assistance are a major instrument of US national security policy. The President, the Secretary of Defense, the Joint Chiefs of Staff, the military Services and DoD agencies depend heavily on Air Force mobility operations for essential cargo and troop movement in support of missions worldwide.

Budget Activity 02: Mobilization - Major Program Changes:

The FY 2014 Mobilization budget request of \$4,593.8 Million represents program growth of \$109.2 Million (+\$50.5 Million for pricing changes). The majority of the program increases are due to funding the Airlift Readiness Account as well as increasing Weapons System Sustainment and Civilian Pay. Program decreases realign a portion of Facilities Sustainment, Restoration and Modernization as well as Environmental Quality (pollution prevention and environmental conservation and compliance) requirements into BA-01. Detailed changes by Subactivity Group are provided in the OP-32.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
INTRODUCTORY STATEMENT (APPROPRIATION HIGHLIGHTS)

<u>Budget Activity</u>	<u>FY 2012</u>	<u>Price</u>	<u>Program</u>	<u>FY 2013</u>	<u>Price</u>	<u>Program</u>	<u>FY 2014</u>
	<u>Actual</u>	<u>Change</u>	<u>Change</u>	<u>Estimate</u>	<u>Change</u>	<u>Change</u>	<u>Estimate</u>
Training and Recruiting (BA-03)	3,767.6	72.8	-94.5	3,745.9	53.5	-193.9	3,605.5

Training and Recruiting (BA-03) supports three broad mission areas: Accession Training, Basic Skills and Advanced Training, and Recruiting and Other Training and Education. Accession training produces the enlisted and officer personnel needed to meet Total Force requirements. Officer accessions receive formal introductory officer training through the United States Air Force Academy, Air Force Reserve Officer Training Corps, Officer Training School, and the Airmen Education and Commissioning Program. Basic Skills and Advanced Training includes specialized skill training, flight training, professional development education and training support. Specialized skill training provides training and education essential to operate, maintain, and manage complex Air Force weapon systems and the associated support structure. Flight training programs include flight screening, undergraduate pilot training, specialized undergraduate pilot training, specialized undergraduate and advanced navigator training, and pilot instructor training. Professional development education includes professional military education programs to enhance and develop critical leadership skills of commissioned officers, civilians, and noncommissioned officers. Other training covers civilian education and training, tuition assistance for Active Duty personnel, and the Junior Reserve Officer Training Corps.

Budget Activity 03: Training and Recruiting - Major Program Changes:

The FY 2014 Training and Recruiting budget request of \$3,605.5 Million represents negative program growth of \$193.9 Million (+\$53.5 Million for pricing changes). The majority of the program decreases are due to Civilian Pay and realigning a portion of Facilities Sustainment, Restoration and Modernization as well as Environmental Quality (pollution prevention and environmental conservation and compliance) requirements into BA-01. Program increases are mainly due to the Flying Hour Program and Weapons System Sustainment. Detailed changes by Subactivity Group are provided in the OP-32.

Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
INTRODUCTORY STATEMENT (APPROPRIATION HIGHLIGHTS)

<u>Budget Activity</u>	<u>FY 2012</u> <u>Actual</u>	<u>Price</u> <u>Change</u>	<u>Program</u> <u>Change</u>	<u>FY 2013</u> <u>Estimate</u>	<u>Price</u> <u>Change</u>	<u>Program</u> <u>Change</u>	<u>FY 2014</u> <u>Estimate</u>
Administration and Servicewide Activities (BA-04)	8,716.1	144.5	-1,652.3	7,208.3	117.2	-222.3	7,103.2

Administration and Servicewide (BA-04) funds four broad mission areas, all integral to Air Force readiness: Logistics Operations, Servicewide Support, Security Programs, and Support to Other Nations. Logistics Operations includes cradle-to-grave acquisition and logistics support, including Readiness Spares Kits and pipeline supply requirements. It also includes inter- and intra-theater transport and handling of equipment and munitions. Servicewide Activities cut across the entire Air Force to ensure combat capabilities through communications, personnel and policy direction, and the Civil Air Patrol. Security Programs include the Air Force Office of Special Investigations and a range of classified activities. Finally, Support to Other Nations includes Air Force participation in the North Atlantic Treaty Organization, Supreme Headquarters Allied Powers Europe, and the US Central Command's role in the Cooperative Defense Initiatives.

Budget Activity 04: Administration and Servicewide Activities - Major Program Changes:

The FY 2014 Administration and Servicewide Activities budget request of \$7,103.2 Million represents negative program growth of \$222.3 Million (+\$117.2 Million for pricing changes). The majority of the program decreases are due to Civilian Pay and realigning a portion of Facilities Sustainment, Restoration and Modernization as well as Environmental Quality (pollution prevention and environmental conservation and compliance) requirements into BA-01. Program increases are mainly due to Weapon Systems Sustainment. Detailed changes by Subactivity Group are provided in the OP-32.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Air Operations
Subactivity Group: Primary Combat Forces

I. Description of Operations Financed:

Primary Combat Forces are comprised of three major subcategories: (1) fixed wing combat aircraft to include its front-line fighters, bombers, and strike assets; (2) nuclear assets to include Intercontinental Ballistic Missiles (ICBMs), the helicopters that support them and the bomber force's air launched missiles; and (3) conventional weapons that provide a strong capability to counter a wide range of threats to the United States. and its allies, as well as assure a viable deterrent posture.

Funds also pay for civilian personnel, support equipment and associated costs specifically identifiable and linked to: wing headquarters, fighter squadrons, bomber squadrons, missile squadrons, organizational avionics and consolidated aircraft and missile maintenance. The objective is to increase readiness and functional proficiency through flying and ground operations training with personnel, equipment and systems that would respond to any war, crisis, contingency or emergency.

II. Force Structure Summary:

Primary Combat Forces supports the operations of fixed wing active fighter, attack, and bomber squadrons worldwide (such as the A-10, B-1, B-2, B-52, F-15, F-16, F-22, and F-35 aircraft). Primary Combat Forces support Air Force nuclear assets to include the operation and maintenance activities of nine squadrons operating 450 Minuteman III ICBMs, 25 UH-1N Huey helicopters, the bomber force's Air Launched Cruise Missile (AGM-86B) and gravity bombs (B61 and B83). This program also supports conventional weapons such as the Conventional Air Launched Cruise Missile (CALCM: AGM-86C), Advanced Medium Range Air-to-Air Missile (AMRAAM: AIM-120), Tactical Air-to-Air Missile (AIM-9), Standoff Attack Weapon (AGM-130), Maverick Missile (AGM-65), Sensor Fused Weapon (SFW: CBU-97, 105, 115), Wind Corrected Munitions Dispenser (WCMD: CBU-103, 104, 105), Joint Direct Attack Munitions (JDAM: GBU-31, 32, 38B), Joint Air-to-Surface Standoff Missile (JASSM: AGM-158A), Hellfire Air-to-Ground Missile (AGM-114), and Small Diameter Bomb (SDM: GBM-39B).

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Air Operations
Subactivity Group: Primary Combat Forces

Normalized FY 2013 Current Estimate.....	\$ 2,973,141
6. Price Change	\$ 37,259
7. Transfers.....	\$ -6,621
a) Transfers In	\$ 0
b) Transfers Out	\$ -6,621
i) Air Combat Command E-Tool	\$ -6,621
<p style="margin-left: 40px;">Decrease reflects transfer to Logistics Operations (Subactivity Group 41A) in order to properly align E-Tool sustainment in logistics support activities that monitor the hardware and technical refresh utilized by aircraft maintenance units. Air Combat Command E-Tool program provides software and data system management for Air Force logistics processes such as accountability, spare and repair parts and asset tracking and storage. (FY 2013 Base: \$10,378)</p>	
8. Program Increases	\$ 326,290
a) Annualization of New FY 2013 Program.....	\$ 0
b) One-Time FY 2014 Costs	\$ 0
c) Program Growth in FY 2014	\$ 326,290
i) Flying Hour Program	\$ 309,114
<p style="margin-left: 40px;">The FY 2014 Flying Hour Program provides hours for: 1) Air Force aircrew production, 2) continuation of basic combat flying skills, 3) aircrew experiencing requirements, and 4) unit specific mission requirements. The FY 2014 Flying Hour Program reflects an update to consumption estimates ("cost per flying hour").</p> <p style="margin-left: 40px;">Beginning in FY 2011 and continuing through FY 2014 the Air Force Flying Hour Program is optimized for executing peacetime and Overseas Contingency Operations (OCO) flying hours. This was based on</p>	

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Air Operations
Subactivity Group: Primary Combat Forces

historical analysis of previous execution levels. The Air Force will continue to work on optimizing the Flying Hour Program to refine the balance between baseline and contingency funding.

The summation of these changes will allow the Air Force to deliver trained aircrews to meet its major combat operation commitments. The following is a detailed breakout of the program changes by aircraft: A-10C (-\$63,465, -8,241 hours); B-1B (\$115,289, 2,572 hours); B-2A (-\$29,270, 40 hours); B-52H (\$18,776, 21 hours); F-15C (-\$11,392, 51 hours); F-15D (-\$751, 0 hours); F-15E (\$188,717, 9,180 hours); F-16C (\$62,248, 9,708 hours); F-16D (-\$1,472, 0 hours); F-22A (\$5,790, -146 hours); F-35A (-\$51, -8 hours); UH-1N (-\$291, 26 hours); T-38A (\$24,986, 6,500 hours).

Note: Net adjustment in dollars may not always follow in the direction of the hour change due to the consumption updates for aircraft in FY 2014. (FY 2013 Base: \$2,261,840)

ii) Readiness Training \$ 8,855

The Air Force took a strategic look across the enterprise to target readiness requirements deemed most effective to provide full spectrum training to execute the defense strategy and avoid a hollow force. This increase funds the targeted readiness requirements. Requirements include funding Combat Air Forces enterprise exercises and readiness training and support for F-22 operations. (FY 2013 Base: \$31,037)

iii) Weapon System Sustainment \$ 6,283

Weapon System Sustainment is the enterprise level view of sustainment requirements in the Air Force. Within this Subactivity Group, Weapon System Sustainment includes the following program changes:

a. Sustaining Engineering: (\$ 2,780)

1) B-52: (\$ 14,321)

Increased funding for life cycle management systems engineering to determine potential systems degradation issues identified through Reliability & Maintainability Information System analysis and Weapon System Integrity Program that impact safety due to aging of avionics, power system and aircraft structure.

2) A-10: (\$ 10,001)

Increased funding for required tasks due to flight safety deficiencies identified in the Systems Critical Safety

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Air Operations
Subactivity Group: Primary Combat Forces

Item Program during operational use. Provides for support and maintenance of electronic warfare system reliability and sustainability while correcting reliability problems.

3) UH-1N: (\$ 2,797)

Increased funding for analysis and studies due to new Air Force requirement establishing organized and disciplined engineering and management process to ensure the integrity of mechanical systems and equipment is maintained throughout the system's operational service life.

4) F-16: (\$ 2,448)

Increased funding for Aircraft Structural Integrity Program studies that provide structural functions and engineering analysis of the weapon system and avionics intermediate shop and improves test station maintenance and repair.

5) F-15E: (\$ 1,005)

Increased funding for Landing Gear Integrity Program study due to component failures. Study will determine safe-life of undetected damage and component failures and prevent landing gear collapse incidents.

6) B-2: (\$ 326)

Increased funding for hardness maintenance and surveillance as a result of additional engineering analysis on program data.

7) B-1: (\$ -28,118)

Decreased funding for in-flight emergencies rapid response studies based on historical data and analysis.

b. Technical Orders: (\$ 3,502)

1) Support Equipment: (\$ 3,590)

Increased funding for higher requisition rates due to training of personnel and replacement of damaged technical orders and higher costs for technical order printing, packaging and postage.

2) Minuteman Squadrons: (\$1,856)

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Air Operations
Subactivity Group: Primary Combat Forces

Increased funding for intercontinental ballistic missile technical orders due to standardized language conversion and revision, and additional rewrites updating the Peacekeeper and Rocket System Launch Program.

3) F-15E: (\$ 415)

Increased funding for technical order sustainment support tasks for class I and II integration, flight manuals, updates and library maintenance based on historical execution.

4) F-15: (\$ -1,257)

Funding decrease due to elimination of mission capability and readiness support tasks from technical orders.

5) B-2: (\$ -657)

Funding decrease due to non-modification related major technical order rewrites schedule.

6) F-22: (\$ -85)

Decreased funding for printing and distribution due to lower requirement for paper technical orders.

7) Air Intercept Missile (AIM)-9(X): (\$ -360)

Decreased funding for product lifestyle management data vault tasks due to lower manual update requirements. (FY 2013 Base: \$203,134)

iv) Civilian Pay Program..... \$ 1,038

Funding increase supports a net growth of 26 full-time equivalents in the following programs (FY2013 Base: \$93,314; 26 WY):

a.) Audit Readiness: Increase of \$5,595 Thousand and 75 full-time equivalents supports the training and sustainment requirements of the DoD Financial Management Certification Program, which aims to achieve full audit readiness by 2017.

b.) Support to F-35 Squadrons: Increase of \$3,628 Thousand and 38 full-time equivalents supports testing and operations support for F-35 squadrons at Eglin, Nellis and Edwards Air Force Bases.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Air Operations
Subactivity Group: Primary Combat Forces

c.) Support to F-22A Squadrons: Increase of \$2,129 Thousand and 27 full-time equivalents supports transition from contracted to organic logistics and maintenance support for F-22A squadrons.

d.) Ministry of Defense: Increase of \$2,621 Thousand and 43 full-time equivalents supports proper funding of foreign nationals at the United Kingdom (UK) Ministry of Defense. The foreign national payroll was previously reimbursed to the UK and this action aligns the foreign nationals as indirect hire civilians.

e.) Various Mission Realignment: Decrease realigns \$12,520 Thousand and 153 full-time equivalents to Subactivity Groups 11D and 11C to accurately portray mission execution. 115 full-time equivalents were transferred to Subactivity Group 11D, and 38 transferred to 11C.

f.) Manpower Freeze and Reductions: Decrease of \$415 Thousand and four full-time equivalents supports Air Force efforts to maintain civilian staffing at FY 2010 levels with limited exceptions. In addition, a comprehensive OSD-led review of areas where the Air Force could most prudently accept risk, while still being able to accomplish the mission, resulted in an additional 2.8% reduction of the civilian workforce.

v) A-10 Simulator..... \$ 1,000
 Increase funds additional simulator support for high fidelity four-ship pilot training to meet current training requirements for Active Duty and Reserve A-10 pilots. (FY 2013 Base: \$5,993)

9. Program Decreases.....	\$ -34,255
a) One-Time FY 2013 Costs	\$ 0
b) Annualization of FY 2013 Program Decreases.....	\$ 0
c) Program Decreases in FY 2014.....	\$ -34,255
i) Internal Realignment	\$ 0
Internal realignment of funding between OP-32 lines within this Subactivity Group to program funding	

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Air Operations
Subactivity Group: Primary Combat Forces

based on historical and projected execution trends.

- ii) F-35A Fielding Start-up Costs \$ -16,621
 Funding decreased due to normalization of operations after standing up the F-35A program at Edwards AFB, CA, Nellis AFB, NV, and Hill AFB, UT. (FY 2013 Base: \$36,216)

- iii) F-16 Active Associate Units..... \$ -9,589
 Funding decreased due to normalization of operations after initial standup of four F-16 Active Associate Units at Dannelly Field, Homestead Air Reserve Base, FL, Joint Reserve Base Carswell, TX, and Burlington Field, VT. (FY 2013 Base: \$46,890)

- iv) Management Support Contracts Reduction \$ -4,590
 In compliance with Executive Orders #13576, Defining an Efficient, Effective, and Accountable Government, and #13589, Promoting Efficient Spending, the Air Force reduced funding for management and service support contracts. The Air Force will focus remaining resources on those management and service support contracts that provide the greatest value to the Department in the most cost-effective way. (FY 2013 Base: \$82,479)

- v) Competitive Sourcing and Privatization \$ -3,455
 Funds decreased consistent with the government-wide moratorium on the use of funds for public-private competitions. Section 325 of the National Defense Authorization Act for Fiscal Year 2010 (P.L. 111-84), prohibits the Department of Defense from beginning or announcing any public-private competitions.

FY 2012 Actual Overseas Contingency Operations \$1,775,497

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Air Operations
Subactivity Group: Combat Enhancement Forces

I. Description of Operations Financed:

Combat Enhancement Forces include Electronic Warfare (EW) and manned destructive suppression assets employed to enhance the effectiveness of other operational weapons systems, civil and combat rescue and recovery, Air Force Special Operations, and combat communications.

Electronic Warfare programs include EC-130H (Compass Call) aircraft, mission planning systems, electronic combat support, shore-based electronic warfare squadrons, combat identification, information warfare flights, intelligence support to information operations and joint information operations support.

Personnel Recovery (PR) funding includes active duty and Air Reserve Command support for sustainment and readiness of legacy HC-130P, HC-130N, HH-60Gs, and Guardian Angel (GA) units. In addition to funding operational PR units, funding also supports Civil Air Patrol operations, Aero-medical Evacuation units, National Security Preparedness programs, DoD Civil Search and Rescue, the Joint Personnel Recovery Agency and the Air Forces Medical War Reserve Material contracts.

Air Force Special Operations funding supports multiple ongoing special operations programs and forces in support of and to COCOMs worldwide, to include the training and equipping of special tactics personnel, sustainment of Special Operations Forces (SOF), MC-130 and AC-130 fleets and Vertical Lift capability (CV-22).

Combat Communications is comprised of Command and Control and Intelligence, Surveillance and Reconnaissance (ISR) programs. Funding supports Theater Air Control System (TACS) communications, Tactical Intelligence and Cryptologic activities, and the Air Force Modeling and Simulation program. Funding also supports the U-2, and unmanned aircraft systems such as the MQ-1 Predator, MQ-9 Reaper, RQ-4 Global Hawk, along with the Air Force Distributed Common Ground System (DCGS). Air Force DCGS tasks, processes, exploits and distributes all the ISR collected by the various ISR platforms. TACS provides the Air Component Commander and the Joint Force Air Component Commander the capability to plan and conduct theater air operation, including joint United States operations and combined operations with allied forces.

Components of the TACS include the Air and Space Operations Center, Airborne Warning and Control System, Joint Surveillance Target Attack Radar System, Control and Reporting Center, Air Support Operations Center, and the Wing Operations Center, and related command, control, communications and computers (C4) capabilities. Intelligence and Cryptologic activities include near real-time intelligence broadcasts worldwide through the Integrated Broadcast Service (IBS); an intelligence infrastructure to task, collect, process, exploit and disseminate intelligence products through the Air Force DCGS; Electronic Warfare Integrated Reprogramming to update radar warning receivers based on threat changes; tactical electronic warfare equipment for multiple platforms; and tactical datalink support. The Air Force Modeling and Simulation program provides valuable training tools for the warfighter and includes Distributed Mission Training and Operations, Wargaming and Simulation Centers, and the Air Force Agency for Modeling and Simulation.

II. Force Structure Summary:

Supports all Air Force fixed-wing and rotary-wing squadrons, pararescue operations, rescue coordination centers, special operations units, command and control units, and intelligence organizations.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Air Operations
Subactivity Group: Combat Enhancement Forces

Normalized FY 2013 Current Estimate.....	\$ 1,611,032
6. Price Change	\$ 25,505
7. Transfers.....	\$ 18,141
a) Transfers In	\$ 18,141
i) Offensive Cyber Operations	\$ 9,444
Increase reflects transfer from Other Combat Operations Support Program (Subactivity 12C) and Servicewide Communications (Subactivity 42B) in order to consolidate offensive cyber operations, research and development, and training to enhance program fidelity. (FY 2013 Base: \$19,690)	
ii) Defensive Cyber Operations	\$ 8,697
Increase reflects transfer from Servicewide Communications (Subactivity 42B) in order to consolidate defensive cyber research and development to provide greater programmatic insight to Air Force Defensive Operations. (FY 2013 Base: \$12,287)	
8. Program Increases	\$ 271,492
a) Annualization of New FY 2013 Program.....	\$ 0
b) One-Time FY 2014 Costs	\$ 0
c) Program Growth in FY 2014	\$ 271,492
i) Flying Hour Program	\$ 111,051
The FY 2014 Flying Hour Program provides hours for: 1) Air Force aircrew production, 2) continuation of basic combat flying skills, 3) aircrew experiencing requirements, and 4) unit specific mission requirements. The FY 2014 Flying Hour Program reflects an update to consumption estimates ("cost per flying hour").	
Beginning in FY 2011 and continuing through FY 2014 the Air Force Flying Hour Program is optimized for	

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Air Operations
Subactivity Group: Combat Enhancement Forces

executing peacetime and Overseas Contingency Operations (OCO) flying hours. This was based on historical analysis of previous execution levels. The Air Force will continue to work on optimizing the Flying Hour Program to refine the balance between baseline and contingency funding.

The summation of these changes will allow the Air Force to deliver trained aircrews to meet its major combat operations commitments. The following is a detailed breakout of the program changes by aircraft: MC-12W (\$2,641, 100 hours); EC-130H (\$765, 10 hours); HC-130J (\$11,436, 3,958 hours); HC-130P (\$10,811, -385 hours); RC-135U (\$97, 16 hours); RC-135V (\$2,402, 10 hours); RC-135W (\$3,706, 10 hours); TC-135W (\$1,124, 157 hours); E-3B (\$23,991, 222 hours); E-3C (\$12,038, 21 hours); HH-60G (\$42,861, 3,599 hours); T-38A (-\$821, 90 hours).

Note: Net adjustment in dollars may not always follow in the direction of the hour change due to the consumption updates for aircraft in FY 2014. (FY 2013 Base: \$352,448)

ii) Readiness Training \$ 60,228

The Air Force took a strategic look across the enterprise to target readiness requirements deemed most effective to provide full spectrum training to execute the defense strategy and avoid a hollow force. This increase funds requirements to include Combat Air Forces enterprise exercises, readiness training, Guardian Angel Unit, and Cyber Reconnaissance operations. (FY 2013 Base: \$25,211)

iii) Civilian Pay Program \$ 57,256

Funding increase supports the net growth of 667 full-time equivalents in the following programs (FY2013 Base: \$204,704; 667 WY):

a.) Various Mission Realignments: Increase realigns \$38,743 Thousand and 496 full-time equivalents from Subactivity Groups 11A, 12A, 13C and 21D to accurately portray mission execution for Air Force Space Command Cyber Warfare and Air Operations Center support functions. 38 full-time equivalents were transferred from Subactivity Group 11A, 59 from 12A, 349 from 13C and 50 from 21D.

b.) Air Force Network Defense: Increase of \$17,590 Thousand and 161 full-time equivalents supports network monitoring, defense and administrator operations.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Air Operations
Subactivity Group: Combat Enhancement Forces

c.) MQ-9 Reaper: Increase of \$711 Thousand and six full-time equivalents supports MQ-9 Reaper squadrons.

d.) Ministry of Defense: Increase of \$212 Thousand and four full-time equivalents supports proper funding of foreign nationals at the United Kingdom (UK) Ministry of Defense. The foreign national payroll was previously reimbursed to the UK and this action aligns the foreign nationals as indirect hire civilians.

iv) Global Hawk Block 30 \$ 22,240
 Funds added to support the FY 2013 National Defense Authorization Act requirement to maintain operational capability of the Global Hawk Block 30. (FY 2013 Base: \$22,843)

v) U-2 Extension \$ 11,922
 Increase reflects funding for ground fuel, general support supplies, equipment, and maintenance of equipment due to extension of U-2 program. (FY 2013 Base: \$39,395)

vi) 5th Generation Blue and White Data \$ 6,493
 Increase reflects funding for equipment maintenance contract support to enable analysis of blue and white national intelligence data needed for combat effectiveness of 5th generation aircraft. (FY 2013 Base: \$5,044)

vii) Air Operations Center (AOC) Formal Training Unit Operations \$ 2,302
 Increase reflects funding for supplies and materials that support testing, development of distributed operations tactics, curriculum, and courseware for the AOC formal training unit, which supports the transition to AOC distributed operations. (FY 2013 Base: \$25,627)

9. Program Decreases \$ -51,075

a) One-Time FY 2013 Costs \$ 0

b) Annualization of FY 2013 Program Decreases \$ 0

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Air Operations
Subactivity Group: Combat Enhancement Forces

c) Program Decreases in FY 2014.....	\$ -51,075
i) Internal Realignment	\$ 0
Internal realignment of funding between OP-32 lines within this Subactivity Group to program funding based on historical and projected execution trends.	
ii) Wide Area Airborne Surveillance (WAAS)	\$ -15,041
Decrease eliminates support funding for services due to drawdown of WAAS. (FY 2013 Base: \$15,041)	
iii) Dynamic Time Critical Warfighter Capability (DTCWC)	\$ -8,241
Decrease eliminates funding for the DTCWC within the Distributed Common Ground System program due to duplication in existing systems. (FY 2013 Base: \$40,129)	
iv) Deployable C3 System Reduction.....	\$ -7,247
Decrease supports an efficient transition to centrally managed deployable communication systems that extend network data and voice services to expeditionary and battlefield forces. (FY 2013 Base: \$0)	
v) Management Support Contracts Reduction	\$ -6,029
In compliance with Executive Orders #13576, Defining an Efficient, Effective, and Accountable Government, and #13589, Promoting Efficient Spending, the Air Force reduced funding for management and service support contracts. The Air Force will focus remaining resources on those management and service support contracts that provide the greatest value to the Department in the most cost-effective way. (FY 2013 Base: \$535,209)	
vi) Unmanned Aerial Vehicle Battlelab.....	\$ -3,787
Decrease eliminates funding for the Unmanned Aerial Vehicle Battlelab due to the stand-down of the Joint Unmanned Aircraft Systems Center of Excellence. (FY 2013 Base: \$3,787)	
vii) Weapon System Sustainment	\$ -3,775
Weapon System Sustainment is the enterprise level view of sustainment requirements in the Air Force. Within this Subactivity Group, Weapon System Sustainment includes the following program changes:	

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Air Operations
Subactivity Group: Combat Enhancement Forces

a. Sustaining Engineering: (-\$6,186)

1) E-3: (\$2,985)

Increased funding for systems supportability analysis for diminishing manufacturing sources and material shortages due to the aging platform.

2) Integrated Broadcast Service: (-\$9,171)

Decreased funding for engineering support costs as one-time start up costs were incurred in FY 2013. Provides for worldwide threat warning and simultaneous dissemination of intelligence, surveillance, and reconnaissance derived combat information.

b. Technical Orders: (\$2,411)

1) Special Operations Support: (\$2,224)

Funding increase for AC-130U technical order service due to Interactive Electronic Technical Manual sustainment fielding and support.

2) HC-130: (\$ 1,213)

Increased funding for Interactive Electronic Technical Manual technical order support.

3) HH-60: (\$-1,026)

Decreased funding for distribution of technical orders due to lower requests for printing.

viii) Functional Application Information Technology (IT) Efficiency..... \$ -3,722

In compliance with the Budget Control Act of 2011, the Air Force continues to achieve efficiencies by taking a centralized review of proliferated applications across the Air Force enterprise. Reduction freezes development to synchronize new work with centralized infrastructure approach, reducing embedded IT cost within program lines. Also eliminates duplicate business and mission IT applications and establishes policies and procedures in business and mission systems to achieve efficiencies.

ix) Executive Order Travel Reduction \$ -3,233

In compliance with the Executive Orders on Promoting Efficient Spending to support Agency Operations

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Air Operations
Subactivity Group: Combat Enhancement Forces

dated 9 November 2011 and 11 May 2012, the Air Force will reduce travel expenses by utilizing more video and phone teleconferencing. The Air Force will also carefully analyze the necessity for conferences and schools held off site in an effort to reduce the overall dependency on travel funding. (FY 2013 Base: \$66,579)

FY 2014 Budget Request.....\$ 1,875,095

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Air Operations
Subactivity Group: Air Operations Training

I. Description of Operations Financed:

Air Operations Training consists of fighter lead-in training, combat mission and advanced tactical training for aircrew, and missile launch training for ballistic missile crews. Funding supports the operation and maintenance of training and aggressor squadron aircraft; training range activities, facilities and equipment; combat simulation training; dissimilar air combat training; ground training munitions and training deployments and exercises.

II. Force Structure Summary:

Supports operation of combat training squadrons as well as graduate-level flight instruction. Supports 22 air-to-ground ranges, including Major Range and Test Facility Base ranges, two electronic scoring sites, United States operations at a multi-national electronic warfare range, air-to-air training operations and combat training exercises.

5. Less: Emergency Supplemental Funding	\$ 0
a) Less: War Related and Disaster Supplemental Appropriation	\$ 0
b) Less: X-Year Carryover (Supplemental)	\$ 0

**DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Air Operations
Subactivity Group: Air Operations Training**

Normalized FY 2013 Current Estimate	\$ 1,472,806
6. Price Change	\$ 21,902
7. Transfers.....	\$ 8,098
a) Transfers In	\$ 8,098
i) T-38 Realignment.....	\$ 8,098
<p style="margin-left: 40px;">Increase reflects transfer from Subactivity Group 11M. Realignment will properly align the T-38 maintenance contract to ensure programming matches execution.</p>	
8. Program Increases	\$ 145,264
a) Annualization of New FY 2013 Program.....	\$ 0
b) One-Time FY 2014 Costs	\$ 0
c) Program Growth in FY 2014	\$ 145,264
i) Test and Training Range Operations	\$ 75,251
<p style="margin-left: 40px;">Increase reflects the Air Force's strategy to target readiness requirements deemed most effective to provide full spectrum training to execute the defense strategy and avoid a hollow force. Funding provided is to improve and sustain air-to-air and air-to-ground training ranges, elevating flying training effectiveness for the joint fight and improving readiness. (FY 2013 Base: \$79,094)</p>	
ii) Distributed Mission Operations (DMO).....	\$ 55,801
<p style="margin-left: 40px;">Increase funds follow-on DMO and Integration Network and F-15E Mission Training Center (MTC) service contracts. Prevents warfighter readiness training gap at multiple worldwide DMO locations and F-15E MTC sites when current contracts expire. Increase also supports fielding of new DMO network to provide connectivity to MTCs, including six Air Force owned F-16 MTCs, replacing the current contractor owned</p>

 Operation and Maintenance, Air Force
 Budget Activity: Operating Forces
 Activity Group: Air Operations
 Subactivity Group: Air Operations Training**

centers in accordance with the DMO roadmap. (FY 2013 Base: \$217,352)

iii) Civilian Pay Program \$ 9,681

Funding increase supports the net growth of 117 full-time equivalents in the following programs (FY2013 Base: \$89,551; 117 WY):

a.) Various Mission Realignment: Increase realigns \$9,760 Thousand and 115 full-time equivalents from Subactivity Group 11A to accurately portray mission execution for Air Combat Command Air Operations Center support functions.

b.) Support to F-35 Squadrons: Increase of \$208 Thousand and two full-time equivalents supports testing and operations support for F-35 squadrons at Eglin, Nellis and Edwards Air Force Bases.

c.) Ministry of Defense: Decrease of \$287 Thousand and five full-time equivalents supports proper funding of foreign nationals at the United Kingdom (UK) Ministry of Defense. The foreign national payroll was previously reimbursed to the UK and this action aligns the foreign nationals as indirect hire civilians.

iv) Flying Hour Program \$ 4,531

The FY 2014 Flying Hour Program provides hours for: 1) Air Force aircrew production, 2) continuation of basic combat flying skills, 3) aircrew experiencing requirements, and 4) unit specific mission requirements. The FY 2014 Flying Hour Program reflects an update to consumption estimates ("cost per flying hour").

Beginning in FY 2011 and continuing through FY 2014 the Air Force Flying Hour Program is optimized for executing peacetime and Overseas Contingency Operations (OCO) flying hours. This was based on historical analysis of previous execution levels. The Air Force will continue to work on optimizing the Flying Hour Program to refine the balance between baseline and contingency funding.

The summation of these changes will allow the Air Force to deliver trained aircrews to meet its major combat operations commitments. The following is a detailed breakout of the program changes by aircraft: A-10C (-\$16,056, 10 hours); HC-130P (-\$23,744, -1,648 hours); F-15C (-\$16,265, -965 hours); F-15D (\$592, 30 hours); F-15E (\$76,461, 3,935 hours); F-16C (\$221, 2,012 hours); F-16D (\$10,350, 1,827 hours); F-22A (\$3,532, 55 hours); F-35A (\$31,091, 4,740 hours); HH-60G (-\$39,373, -3,648 hours); T-38A (-

Activity Group: Air Operations
Subactivity Group: Air Operations Training

\$22,278, -6,500 hours).

Note: Net adjustment in dollars may not always follow in the direction of the hour change due to the consumption updates for aircraft in FY 2014.

9. Program Decreases.....	\$ -88,961
a) One-Time FY 2013 Costs	\$ 0
b) Annualization of FY 2013 Program Decreases.....	\$ 0
c) Program Decreases in FY 2014.....	\$ -88,961
i) Readiness Training	\$ -70,309
<p>The Air Force took a strategic look across the enterprise to target readiness requirements deemed most effective to provide full spectrum training to execute the defense strategy and avoid a hollow force. This reduction funds the targeted readiness requirements across the Operation and Maintenance portfolio. (FY 2013 Base: \$146,155)</p>	
ii) Management Support Contracts Reduction	\$ -9,230
<p>In compliance with Executive Orders #13576, Defining an Efficient, Effective, and Accountable Government, and #13589, Promoting Efficient Spending, the Air Force reduced funding for management and service support contracts. The Air Force will focus remaining resources on those management and service support contracts that provide the greatest value to the Department in the most cost-effective way. (FY 2013 Base: \$402,903)</p>	
iii) Logistics and Installations Efficiencies	\$ -3,753
<p>The Air Force continues to develop efficiencies to improve supply chain management. The Air Force will enhance its inventory management information technologies to provide improved oversight of on-hand quantities and movement within the distribution pipeline, allowing the Air Force to reduce on-hand inventory, holding, and storage costs. (FY 2013 Base: \$131,836)</p>	

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Air Operations
Subactivity Group: Air Operations Training

iv) Executive Order Travel Reduction \$ -3,204

In compliance with the Executive Orders on Promoting Efficient Spending to support Agency Operations dated 9 November 2011 and 11 May 2012, the Air Force will reduce travel expenses by utilizing more video and phone teleconferencing. The Air Force will also carefully analyze the necessity for conferences and schools held off site in an effort to reduce the overall dependency on travel funding. (FY 2013 Base: \$103,487)

v) Weapon System Sustainment..... \$ -2,465

Weapon System Sustainment is the enterprise level view of sustainment requirements in the Air Force. Within this Subactivity Group, Weapon System Sustainment includes the following program changes:

a. Sustaining Engineering: (-\$ 371)

1) Training Munitions and Equipment: (\$ 778)

Increased funding to provide gun system component manufacturers with new solid modeled technical data packages to replace 30 year old two-dimensional modeled technical data packages. Provides manufacturers with more accurate means to create component molds and reduces overall parts costs to Air Force.

2) Tactical Training Operations: (-\$ 1,149)

Decreased funding for physiological trainer engineering support due to reduced chamber deficiencies and issues.

b. Technical Orders: (-\$ 2,094)

1) Tactical Training Operations: (\$ -2,062)

Decreased funding for F100, TF34 and F110 GE-100 engine related technical orders requests due to a new sustainment contract.

2) Range Equipment: (\$ -32)

Decreased funding for range threat requisition papers due to reduced requisition. (FY 2013 Base: \$12,474)

Exhibit OP-5, Subactivity Group 11D

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Air Operations
Subactivity Group: Depot Maintenance

I. Description of Operations Financed:

The Air Force enhances the management and programming for Total Force sustainment requirements by reviewing sustainment requirements at the enterprise level. This concept, Weapon System Sustainment (WSS), includes Depot Purchased Equipment Maintenance (DPEM), Contractor Logistics Support (CLS), Sustaining Engineering (SE) and Technical Orders (TO) commodities. The Air Force determines WSS funding levels for each primary weapon system and program by allocating resources between the four commodities to meet operational capabilities (i.e. aircraft availability) for Total Air Force and Combatant Commander requirements. Within WSS, DPEM encompasses funding for required organic, contract and interservice depot level maintenance and CLS encompasses funding required for contract support to include depot level maintenance. SE and TO programs for the Operating Forces Budget Activity are funded in Subactivity Groups 11A, 11C, 11D, 12A, 12C, 13A and 13C.

DPEM funds eight different commodity groups through organic and/or contract depot work (organic depot is work performed by Air Logistics Complex workforce in an Air Force facility and contract depot is work contracted by Air Logistics Complexes to be performed by a contract workforce at a commercial facility):

1. Aircraft: primarily aircraft Programmed Depot Maintenance (PDM), non-PDM aircraft (i.e., helicopters and A-10s) and aircraft damage repair;
2. Engine: overhaul and repair of aircraft and missile engines;
3. Missiles: overhaul of missile systems such as Minuteman and air launched cruise missiles;
4. Other Major End Items (OMEI): overhaul and repair of special purpose vehicles (trailers, fire trucks, refuelers, loaders, sweepers, etc), Automated Test Equipment (ATE) and common support equipment (avionics and electronic warfare test stations, bore scopes, and Non-Destructive Inspection (NDI) equipment, etc.);
5. Software: correct deficiencies in embedded weapon system software;
6. Non-Working Capital Fund exchangeables: repair of items such as missile guidance sets and launchers, pylons and bomb racks, fuel tanks, cargo pallets and nets;
7. Area and Base Support (ABS): provides support to areas and bases beyond their normal capabilities such as Precision Measurement Equipment Laboratory calibration support; and
8. Storage: maintenance of assets removed from active inventories.

Contractor Logistics Support (CLS) funds contract support for a program, system, training system, equipment or item used to provide all or part of the sustainment elements in direct support of an approved sustainment strategy. CLS covers a variety of support elements: repair, flying hours (commodities), materiel management, configuration management, technical data management, sustaining engineering, training, supply and repair parts management, failure reporting and analysis, distribution, depot level maintenance, contract and/or partner maintenance, and operating command organizational maintenance. Though CLS is contract maintenance, there is some organic depot maintenance work accomplished through partnerships and work-sharing (e.g. F-22 work at Ogden Air Logistics Complex (ALC), Utah and KC-10 paint and F117 and F119 engine overhauls at Oklahoma City ALC, Oklahoma).

II. Force Structure Summary:

In this Subactivity Group, DPEM and CLS support the readiness of the Air Force's front line operating weapon systems. These assets, which provide the United States with a viable deterrent posture, include fighter and bomber aircraft such as the A-10, F-15, F-16, F-22, F-35, B-1, B-2, B-52 and helicopters; and conventional and strategic missiles, to include the Minuteman Intercontinental Ballistic Missiles (ICBM). DPEM and CLS also maintain the reliability of aircraft that are used to search for, locate and recover military personnel and civilians anywhere in the world. Other areas of funding include space forces, command, control, communication and intelligence assets.

Ongoing efforts to meet Congressional intent required the movement of all Contractor Logistics Support from SAGs 11A, 11C, 11D, 12A, 12C, 13A, and 13C into this SAG

Normalized FY 2013 Current Estimate.....	\$ 5,545,470
6. Price Change	\$ 130,171
7. Transfers.....	\$ 28,642
a) Transfers In	\$ 36,740
i) Space-Based Infrared System	\$ 36,740
<p style="margin-left: 40px;">Increase reflects funding realignment from Global Command, Control, Communication, and Intelligence and Early Warning (Subactivity Group 12A) in order to normalize sustainment of depot level activities for Defense Support Program on-orbit support and Highly Elliptical Orbit training center for on-site support, depot contractor hardware maintenance, software analysis and maintenance, spares and software licenses. (FY 2013 Base: \$100,056)</p>	
b) Transfers Out	\$ -8,098
i) T-38 Realignment.....	\$ -8,098
<p style="margin-left: 40px;">Decrease reflects transfer to Subactivity Group 11D. Realignment will properly align the T-38 maintenance contract to ensure programming matches execution. (FY 2013 Base: \$53,850)</p>	
8. Program Increases	\$ 429,612
a) Annualization of New FY 2013 Program.....	\$ 0
b) One-Time FY 2014 Costs	\$ 0
c) Program Growth in FY 2014	\$ 429,612
i) Contractor Logistics Support.....	\$ 344,092
a. U-2: (\$ 178,214)	
<p style="margin-left: 40px;">Funding increase due to extension of U-2 program. Increase provides contractor depot support, specialized</p>	

DEPARTMENT OF THE AIR FORCE

Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Air Operations
Subactivity Group: Depot Maintenance

repair activities, and spares for continued operations. U-2 was programmed for divestiture in 2016 but has been extended through 2025.

b. RQ-4: (\$ 79,440)

Funding increase supports the FY 2013 National Defense Authorization Act requirement to maintain in FY 2014.

c. Minuteman Squadrons:(\$ 43,514)

Increased funding for new partial bridge contract required to bridge the Intercontinental Ballistic Missile Prime Integration Contract and the new Future ICBM Sustainment and Acquisition Contract. Tasks covered under these contracts include software maintenance, sustaining engineering, contract services, depot maintenance, and technical services.

d. RC-135: (\$ 40,533)

Increased funding for depot spares repair and contract field teams in support of increased projected hours.

e. Low Altitude Navigation and Targeting Infrared for Night: (\$ 37,639)

Funding increase for Advanced Targeting Pod (ATP) installation and support on all fighters and bombers. Ensures compliance with Combatant Commander new requirement for all aircraft to be equipped with ATP.

f. Distributed Common Ground Systems (DCGS): (\$ 35,966)

Increased funding for support of new Common Intelligence Collection System and additional global Air Force DCGS support capability due to increased Intelligence Surveillance Reconnaissance (ISR) missions. Also, funds new system support for sustainment and software support provided for ISR platforms and sensors.

g. MQ-1: (\$ 35,385)

Funding increase for increased spares and maintenance due to high operations tempo to support the projected Combat Air Patrols.

h. MQ-9: (\$ 27,377)

Funding increase for increased spares and depot repairs based on projected Combat Air Patrols.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Air Operations
Subactivity Group: Depot Maintenance

i. F-35: (\$ 22,628)

Increased sustainment funding for depot level reparable based on scheduled delivery of aircraft and increased programmed flying hours.

j. Link 16 Support and Sustainment: (\$ 12,123)

Increased funding for Roll-On Beyond Line-of Sight Enhancement and Joint Air Defense Systems Integrator contractor support due to projected higher operations tempo resulting in increased follow on repairs and replacements.

k. Space Situational Awareness Operations: (\$ 11,602)

Funding increase for additional software and hardware maintenance support for ground stations and test support for the Space Based Space Surveillance Block 10 associated trainer equipment and the classified local area network communication infrastructure. This system provides both manned and unmanned space flight safety, space order of battle separation, and space conjunction data.

l. Special Operations Forces (SOF): (\$ 11,105)

Increased funding for depot spares and engine management support for the SOF C-130J with expired warranties and increased projected flying hours.

m. CV-22: (\$ 10,848)

Increase funds additional Low Power Engine removals due to increase from 63 engines to 79 engines.

n. E-4: (\$ 7,310)

Increased spares and consumable repairs based on a new requirement to replace galley parts. The 37-year old galley equipment parts are beyond economical repair which could impact flight safety and increase Programmed Depot Maintenance repair issues.

o. B-1: (\$ 5,256)

Increased funding for support of the Advanced Digital Test Station which replaces 1970 vintage Digital and Digital Analog Video test stations and Test Program Sets.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Air Operations
Subactivity Group: Depot Maintenance

p. B-52: (\$ 4,331)

Increased funding for contractor support on the B-52 due to five year historical repair and replacement data and higher projected repairs and replacements as a result of aging trainers and simulators. Supports total maintenance for B-52 Weapon System Trainers, Offensive Station Mission Trainers, two Support Center Systems, four Electronic Warfare Simulators, one digital CPT and all computer and peripheral equipment.

q. A-10: (\$ 4,072)

Increased contractor support for the Aircrew Training System to include full mission trainers, hands-on throttle and stick trainers, and brief and debrief systems due to addition of one full mission trainer.

r. Combat Training Range Equipment: (\$ 3,390)

Increased funding to support the P5 Combat Training System used for post-flight debriefings with single aircraft, squadron, wing or large force exercise participants as a result of growing system failures and replacements due to age of the system.

s. HC-130: (\$ 3,377)

Increased HC-130J peculiar replenishment spares due to increased programmed flying hours.

t. Air Intercept Missile (AIM)-9(X): (\$ 3,342)

Increased funding for higher AIM-9X depot maintenance repairs due to increased AIM-9X tactical and captive AIM-9X training missile failures.

u. Military Satellite Communication (MILSATCOM) Terminals: (\$ 2,458)

Increase funding due to new Air Force Wideband Enterprise Terminal maintenance requirements beginning in 2014 for engineering analysis, and information assurance for software, configuration management technical documentation and depot level maintenance support.

v. Advanced Medium Range Air-to-Air Missile (AMRAAM): (\$ 1,937)

Increased funding for AMRAAM System repairs based on historical data. Repairs include depot-level repair of Non-Warranty AIM-120 Missiles, AMRAAM Air Vehicle Instrumented missiles, non-warranted Captive Air Training Missiles, Non-Developmental Item Airborne Instrumented Units, containers, repairable and replaceable components of these end items.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Air Operations
Subactivity Group: Depot Maintenance

w. F-22: (\$ -208,878)

Decreased funding based on lower requirements for post production parts and spares, software maintenance, basic heavy maintenance and engine services. Original requirements were over-projected during production phase; however, the actual projected requirements have been reduced for sustainment phase.

x. F-15E: (\$ -30,738)

Decrease for the Airborne Special Equipment 236 reconnaissance pod support as a result of changes in classified program. Details can be provided under separate cover if required.

y. Conventional Air Launched Cruise Missile (CALCM): (\$ -13,208)

Reduction in missile requirements in 2014 as part of Air Force demilitarization plan.

z. B-2: (\$ -7,950)

Reduced contractor support for Northrop Grumman managed Contractor-Inventory Control Point B-2 unique parts and materials based on historical execution.

aa. F-15C/D: (\$ -5,791)

Decrease for reduced line replaceable unit repairs based on lower projected hours.

bb. F-16: (\$ -3,444)

Decrease in the F-16 aircrew training devices support based on new contract renegotiation.

cc. E-3: (\$ -2,878)

Decrease due to Simulator Interface Management Course Ware, on-site contract logistics support, and Training System Support Center core operations being added to the new Maintenance Training System contract which reduced cost in 2014.

dd. Global Positioning System (GPS): (\$ -1,649)

Funding decrease for sustaining engineering and software maintenance support for the Integrated Mission Operations Support Center (IMOSC) which supports launch and early orbit and on-orbit operations for GPS

**DEPARTMENT OF THE AIR FORCE
 Fiscal Year (FY) 2014 Budget Estimates
 Operation and Maintenance, Air Force
 Budget Activity: Operating Forces
 Activity Group: Air Operations
 Subactivity Group: Depot Maintenance**

IIA satellites. Decrease in IMOSC activity is due to reduced usage of GPS IIA satellites and new GPS IIF satellites becoming operational. (FY 2013 Base: \$3,432,769)

ii) Minuteman Intercontinental Ballistic Missiles Operations \$ 25,107

Organic Depot: Increased \$2.429 Million for organic other major end items to accomplish the demilitarization of support equipment and test sets declared excess to the Minuteman Weapon Systems Sustainment Program and an increase in Transporter Erector Tractors scheduled for program depot maintenance (PDM) based on changes in PDM schedule. Increased \$0.129 Million in Precision Measurement Equipment Laboratory support due to the addition of Ground Minuteman Automatic Test System Type IIA Test Measurements and Diagnostic Equipment. Also, increased \$2.044 Million for Rivet Minuteman Integrated Life Extension PDMs on components based on inspection schedule.

Contract Depot: Increased \$1.106 Million for Nuclear Surety Services contract software due to re-negotiation of prime contract. Also, increased \$18.899 Million to provide additional contractor support for the MK21 Fuse Level Refurbishment program and for the repair of the LGM-30G Minuteman Missile Guidance Systems due to increases in annual failures.

iii) B-52 \$ 20,520

Organic Depot: Increased \$4.832 Million for four TF33 engine overhauls at approximately \$1.208 Million each based on induction schedule.

Contract Depot: Increased \$15.6 Million for B-52 operational flight program software contract due to a new software block update and additional support for modification programs such as Avionics Midlife Improvement, Joint Direct Attack Munition, Conventional Air Launched Cruise Missile, Ground Maintenance Computer Program, Miniature Air Launched Decoy, Joint Mission Planning System and associated simulator support.

iv) Electronic Warfare Equipment Sustainment \$ 11,240

Organic Depot: Increased \$7.193 Million in organic software support for the ALR-69(V) radar warning receiver and the AN/ALQ-172 electronic countermeasures, which is based on block cycle changes and historical execution to support weapon systems, such as B-52, F-16 and A-10.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Air Operations
Subactivity Group: Depot Maintenance

Contract Depot: Increased \$4.047 Million for operational flight program contract software support for software change requests as the major functionality changes included in Block Cycle IV are fielded in preparation for transition to a higher order language beginning on the AN/ALQ-184.

v) Air Force Mission Planning Systems..... \$ 10,267

Organic Depot: Increased \$10.125 Million for organic software maintenance for Joint Mission Planning System (JMPS) in support of mission planning systems full transition from legacy organic to JMPS organic (supports A-10, F-16 and B-52).

Contract Depot: Increased \$0.142 Million in mission planning contract software maintenance for new software support on Target Acquisition Weapons Software, Infrared Target-scene Simulation Software and Falconview.

vi) Special Operation Forces..... \$ 7,618

Organic Depot: Increased \$3.740 Million in organic aircraft maintenance due to the addition of two MC-130Ws scheduled for programmed depot maintenance at approximately \$1.870 Million each based on current induction schedule.

Contract Depot: Increased \$3.878 Million for contract software due to valuation, correction, documentation, configuration, testing and fielding of software deficiencies on all AC-130U operational flight programs and mission support software being rescheduled to fit within a two year block cycle.

vii) Compass Call Operations (EC-130H) \$ 2,409

Increase for two T-56 engine overhauls at approximately \$1.205 Million each based on increase of flying hours and decrease in the Actuarial Removal Index.

viii) Range Equipment \$ 2,286

Organic Depot: Increased \$4.438 Million for Range Threat Depot Maintenance Interservice Agreement (DMISA) other major end items for Radar Training Group due to moving from contract support to DMISA support. Increased \$0.252 Million in organic other major end items for TSQ-T10 test set repair added to schedule.

**DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Air Operations
Subactivity Group: Depot Maintenance**

Contract Depot: Decreased \$2.404 Million for reduction of Range Threat for Unmanned Threat Emitter contract other major end items for surface to air missiles and anti-aircraft artillery due to move from contract source of repair to organic source of repair.

ix) B-2 \$ 1,863

Organic Depot: Increased \$0.714 Million for new requirement with the Extremely High Frequency organic software support and increases based on block cycle change schedule.

Contract Depot: Increased \$1.149 Million for new requirement with the Extremely High Frequency contract software support and additional increases based on block cycle change schedule.

x) Battle Control System \$ 1,199

Organic Depot: Increased organic software support due to addition of the new system Battle Control System-Fixed System, which replaces the following battle control systems: AN/FYQ-93, AN/GSQ-235 and AN/FYQ-155.

xi) Conventional Air Launch Cruise Missile..... \$ 998

Organic Depot: Increased organic software support for the Conventional Air Launch Cruise Missile operational flight program based on historical execution.

xii) Tactical Air Control Party Modernization \$ 839

Organic Depot: Increased \$0.619 Million for organic Networks and Information Integration Depot Maintenance Interservice Agreement other major end items due to increase of three AN/TRC-220 antennas programmed depot maintenance at approximately \$0.206 Million each. Increased \$0.220 Million for the Tactical Air Control Parties organic software support due to transitioning program from acquisition to sustainment.

xiii) Space Based Infrared System \$ 674

Organic Depot: Increased \$0.187 Million for Phased Array Sub System (PASS) organic depot maintenance to ensure PASS continues to provide the signal link between the satellite and mobile vehicles.

Contract Depot: Increased \$0.487 Million for one contract programmed depot maintenance action for

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Air Operations
Subactivity Group: Depot Maintenance

Mobile Ground System vehicle to include High Altitude Endurable Magnetic Pulse certification.

xiv) Air Launch Cruise Missile \$ 500

Contract Depot: Increased \$0.500 Million for contract software block cycle change support for the AGM-86C system based on historical execution.

9. Program Decreases.....\$ -177,591

a) One-Time FY 2013 Costs \$ 0

b) Annualization of FY 2013 Program Decreases..... \$ 0

c) Program Decreases in FY 2014.....\$ -177,591

i) B-1 \$ -48,360

Organic Depot: Reduced \$1.357 Million in organic software for Central Integrated Test System based on block cycle update schedule and updated historical execution costs. Also reduced \$38.598 Million for programmed depot maintenance for three B-1s at approximately \$12.866 Million each based on projected induction schedule.

Contract Depot: Reduced \$8.405 Million for contract software maintenance for the AN/ALQ-161A Defense Avionics System based on the operational flight program (OFP) updates and flight test schedule. The OFP updates and flight tests are normally accomplished every two years and are not needed in FY 2014.

ii) Airborne Warning and Control System (E-3 AWACS) \$ -29,635

Organic Depot: Reduced six aircraft programmed depot maintenance at approximately \$6.81 Million each based on induction schedule.

Contract Depot: Increase of \$11.225 Million supports contract software to address increased deficiencies in recently fielded Block 40/45 upgrade.

iii) F-15 \$ -27,392

Organic Depot: Reduced \$32.324 Million for five F-15s scheduled for organic programmed depot

**DEPARTMENT OF THE AIR FORCE
 Fiscal Year (FY) 2014 Budget Estimates
 Operation and Maintenance, Air Force
 Budget Activity: Operating Forces
 Activity Group: Air Operations
 Subactivity Group: Depot Maintenance**

maintenance at approximately \$6.465 Million each. Reduced costs of remaining five inductions by approximately \$7.0 Million based on historical trend analysis which reflected less package hours per induction. Reduced \$1.5 Million for one F100-220 engine overhaul based on the induction schedule. Contract Depot: Increase of \$13.432 Million for two contract PDMs at approximately \$6.716M each.

iv) F-15E \$ -20,232

Organic Depot: Reduced scheduled programmed depot maintenance for 28 F-15Es at approximately \$0.721 Million each. Accounts for a decrease of \$0.554 Million per aircraft at a depot maintenance rate change of (\$24 per hour) and reduction of 1,163 hours per F-15E programmed depot maintenance package due to the tasks for Conformal Fuel Tank work and 627 bulkhead repairs no longer needed.

v) Spacelift Range System \$ -18,578

Contract Depot: Reduced \$9.302 Million for contract software change requirements for correcting information assurance deficiencies and reduced contract software coding requirements. Reduced \$9.276 Million for corrosion control and on-site depot level contract maintenance requirements for divestures of parts and sub-systems of radars and command systems dating back to the 1960s that are no longer required.

vi) NORAD ITW/AA Systems \$ -6,203

Contract Depot: Reduced \$3.803 Million for North American Defense (NORAD) Cheyenne Mountain Complex Program-Integrated Tactical Warning and Attack Assessment (NCCMC-ITW/AA) System contract software change requirements due to increased stabilization and maturity of integrated commercial off-the-shelf and government off-the-shelf operational equipment. Also reduced \$2.400 Million for contract software maintenance required for the single Integrated Space Picture supporting the complex due to re-scoping the contract based on operational input.

vii) Maverick Air-to-Ground Missile \$ -6,133

Organic Depot: Reduced \$5.660 Million for Depot Maintenance Interservice Agreement (DMISA) exchangeable repairs on the Maverick Air-to-Ground Missile (AGM-65) Guidance Control Sections, reducing requirements from 438 to 185 units based on annual recalculation in DMISA contract. Reduced \$0.473 Million for periodic inspections on the Maverick missile based on historical execution.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Air Operations
Subactivity Group: Depot Maintenance

viii) Space Situational Awareness	\$ -5,783
Contract Depot: Reduced \$3.255 Million for contract maintenance repair of associated antenna structures due to the completion of the Air Force Space Surveillance System transmitter. Reduced \$2.528 Million due to a decrease of one contract software maintenance update for the Ground-based Electro-Optical Deep Space Surveillance subsystem.	
ix) Satellite Communications	\$ -4,707
Contract Depot: Reduced contract depot software maintenance requirements due to a decline of software code modification workload as well as, decreased software configuration management and quality assurance requirements for the Command and Control of Wideband Global Satellite Communications satellites.	
x) Air Force Satellite Control Network	\$ -4,344
Contract Depot: Reduced contract depot maintenance support requirements due to reductions of legacy Automated Remote Tracking Systems scheduled for program depot maintenance, and a reduction of maintenance modification and engineering change proposal equipment requirements.	
xi) A-10	\$ -2,523
Contract Depot: Reduced \$3.220 Million for one contract aircraft scheduled structural inspection induction based on the A-10 induction schedule. Increased \$0.697 Million in contract software to support the A-10 Full Mission Trainer as a result of operational flight program block schedule changes.	
xii) Tactical Air Intercept Missile (AIM-9).....	\$ -1,679
Organic Depot: Reduced \$1.109 Million for the Depot Maintenance Interservice Agreement exchangeable repair of the AIM-9M guidance control section and \$0.570 Million reduction for organic exchangeable repairs of the LAU-105 and 16S210 missile launcher power supplies based on historical execution.	
xiii) Aerial Targets.....	\$ -713
Organic Depot: Reduced organic repairs for the QF-4E aircraft drones based on historical execution.	
xiv) U-2	\$ -493
Contract Depot: Reduced contract exchangeable repairs for the U-2 Cartridge Actuated Device and

 Fiscal Year (FY) 2014 Budget Estimates
 Operation and Maintenance, Air Force
 Budget Activity: Operating Forces
 Activity Group: Air Operations
 Subactivity Group: Depot Maintenance**

Propellant Actuated Device based on historical execution.

xv) RQ-4 \$ -465

Organic Depot: Reduced organic RQ-4 Global Hawk Block 30 storage based on current retirement schedule.

xvi) Rivet Joint Operations \$ -351

Organic Depot: Decrease due to reduction of one engine based upon removal interval and increased time on wing.

FY 2014 Budget Request.....\$ 5,956,304

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Air Operations

Subactivity Group: Facilities Sustainment and Restoration/Modernization and Demolition Programs

I. Description of Operations Financed:

Facilities Sustainment and Restoration/Modernization (FSRM) functions include facility and infrastructure sustainment, restoration, modernization and demolition activities. This Subactivity Group supports Facilities Sustainment at Air Combat Command (ACC), Pacific Air Forces (PACAF), United States Air Forces in Europe (USAFE), Air Force Space Command (AFSPC), Air Force Special Operations Command (AFSOC) Air Force Global Strike Command (AFGSC) operating installations. This Subactivity Group also provides large life-cycle Sustainment repair and all Restoration and Modernization (including Demolition) to all Active Force Major Commands and at the United States Air Force Academy (USAFA). FSRM activities ensure installation facilities, utility systems and infrastructure are capable of fully supporting mission requirements throughout their economic lives.

Sustainment is performed through a combination of in-house workforce and contracts. Sustainment includes the maintenance and repair activities necessary to keep an inventory of facilities in good working order. It includes regularly scheduled adjustments and inspections, preventive maintenance tasks and emergency response and service calls for minor repairs. It also includes major repairs or replacement of facility components (usually accomplished by contract) that are expected to occur periodically throughout the life cycle of facilities. This work includes regular roof replacement, refinishing of wall surfaces, repairing and replacement of heating and cooling systems, replacing tile and carpeting and similar types of work. It does not include environmental compliance costs, facility leases or other tasks associated with facilities operations (such as custodial services, grounds services, waste disposal and the provision of central utilities).

The Department of Defense (DoD) Facilities Sustainment Model (FSM) is used as the standardized model for forecasting facilities sustainment resource requirements. In anticipation of cost savings, the Air Force funded FY 2014 sustainment at 80 percent of the FSM labor and material cost. The FSM uses the following formula to develop the sustainment requirement:

Annual sustainment requirement = facility quantity x sustainment cost factor x location factor x inflation

Facility quantity - the facility size expressed in the Facility Analysis Category (FAC) unit of measure (such as square feet)

Sustainment cost factor - the average annual unit cost (in current year dollars) for sustaining the average size facility in the given FAC

Location factor - a location adjustment based upon the local costs for labor, equipment, materials and currency exchange rates (overseas) compared with an overall base-city average

Inflation - factor to adjust current year prices to the target future year

The Department uses a sustainment metric which is the comparison of sustainment funding to the requirement for a given year, expressed as a rate.

Sustainment rate (%) = sustainment funding/FSM requirement

Restoration means the restoration of real property to such a condition that it may be used for its designated purpose. Restoration includes repair or replacement work to restore facilities damaged by inadequate sustainment, excessive age, natural disaster, fire, accident or other causes.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Air Operations

Subactivity Group: Facilities Sustainment and Restoration/Modernization and Demolition Programs

Modernization means the alteration or replacement of facilities solely to implement new or higher standards, to accommodate new functions or to replace building components that typically last more than 50 years (such as the framework or foundation). Modernization also includes infrastructure repairs and minor construction to accommodate changes in mission requirements, including new mission beddowns. Modernization is critical to ensure aging facilities remain capable of supporting mission requirements as they evolve over the long lives of facilities and infrastructure systems.

Recapitalization means the major renovation or reconstruction activities (including facility replacements) needed to keep existing facilities modern and relevant in an environment of changing standards and missions. Recapitalization extends the service life of facilities or restores lost service life. It includes restoration and modernization of existing facilities.

Plant Replacement Value (PRV) is used as the basis for generating recapitalization requirements. The DoD standardized formula for calculating PRV is:

PRV = facility quantity x construction cost factor x location factor x Planning & Design (P&D) factor x historical factor x contingency factor x Supervision, Inspection and Overhead (SIOH) x inflation

Facility quantity - the facility size expressed in the FAC unit of measure (such as square feet)

Construction cost factor - the average annual unit cost (in current year dollars) for constructing the average size facility to current standards in the given FAC

Location factor - a location adjustment based upon the local costs for labor, equipment, materials and currency exchange rates (overseas) compared with an overall base-city average

P&D factor - an adjustment to account for typical project planning and design costs

Historical factor - an adjustment for historical architecture and materials (when applicable)

Contingency factor - an adjustment for typical contingency costs during construction

SIOH - an adjustment for supervision, inspection and overhead costs associated with construction management

Inflation - factor to adjust current year prices to the target future year

Demolition is performed primarily by contract. Facilities and infrastructure are demolished to free space for future construction and to eliminate obsolete facilities from the real property inventory. Demolition is a key component of the Air Force strategy to consolidate functions, vacate excess and obsolete facilities and focus sustainment, restoration and modernization funding on facilities intended to function well into the future.

The most significant categories receiving this support are sustainment, restoration and modernization of real property, including:

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Air Operations

Subactivity Group: Facilities Sustainment and Restoration/Modernization and Demolition Programs

Aircraft maintenance and generation complexes
Airfield runways, taxiways and ramps
Critical infrastructure, including utility systems
Command and control facilities
Intelligence gathering and analysis facilities
Dormitories and dining facilities
Training ranges and supporting infrastructure
Administrative support facilities for coalition partners

II. Force Structure Summary:

The Air Force has initiated a Civil Engineering Transformation and is beginning to implement a multi-pronged asset management approach to centralize, standardize, streamline, re-organize and enhance efficiency at all levels of the Civil Engineering enterprise. Through increased centralization, improved management and oversight of requirements, comprehensive program development and efficient execution, the Air Force will better apply its limited resources and reduce risk to mission and Airmen. This effort significantly helps the Air Force meet its overall objectives, in terms of dollars and manpower reductions and will assist the Air Force to better prioritize its future requirements in a fiscally constrained environment. To enable enterprise-wide investments in the built-asset portfolio, the Air Force has centralized prioritization of large life-cycle Sustainment repair and all Restoration and Modernization (including demolition) projects. In FY 2014, the Air Force realigned funding in support of these activities from Subactivity Groups 21R, 31R, and 41R to Subactivity Group 11R.

Supports Facilities Sustainment at Air Combat Command (ACC), Pacific Air Forces (PACAF), U.S. Air Forces in Europe (USAFE), Air Force Space Command (AFSPC), Air Force Special Operations Command (AFSOC) and Air Force Global Strike Command (AFGSC) installations. Supports large life-cycle Sustainment repair and all Demolition, Restoration and Modernization for all Active Force Major Commands and at the United States Air Force Academy (USAFA).

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Air Operations

Subactivity Group: Facilities Sustainment and Restoration/Modernization and Demolition Programs

Normalized FY 2013 Current Estimate.....	\$ 1,353,987
6. Price Change	\$ 19,950
7. Transfers.....	\$ 340,055
a) Transfers In	\$ 345,959
i) Facilities Sustainment, Restoration and Modernization Centralization.....	\$ 345,959
<p style="margin-left: 40px;">Increase reflects transfer from Subactivity Groups 21R, 31R, and 41R. The Air Force is centralizing all Restoration and Modernization (including demolition) projects and large life-cycle Sustainment Repair projects. The centralization will provide enterprise-wide total asset visibility to enable asset accountability and support-based program management, and to manage the built-asset portfolio with targeted, informed, and predictive decision quality data to ensure the optimal application of resources and investments. (FY 2013 Base: \$1,353,987)</p>	
b) Transfers Out	\$ -5,904
i) Restoration and Modernization Transportation Working Capital Fund (TWCF)	\$ -5,904
<p style="margin-left: 40px;">Decrease reflects transfer to Subactivity Group 21R to provide support funding for TWCF Restoration activities for requirements undertaken at eligible TWCF installations.</p>	
8. Program Increases	\$ 165,432
a) Annualization of New FY 2013 Program.....	\$ 0
b) One-Time FY 2014 Costs	\$ 0
c) Program Growth in FY 2014	\$ 165,432
i) Facilities Sustainment	\$ 80,149
<p style="margin-left: 40px;">Increase funds Facilities Sustainment at 80 percent of the modeled requirement based on the Department</p>	

**DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Air Operations**

Subactivity Group: Facilities Sustainment and Restoration/Modernization and Demolition Programs

of Defense Facilities Sustainment Model (FSM) version 14-2. This reflects changes in the modeled requirement resulting from adjustments to the FSM cost factors and changes in Air Force Real Property Inventory. (FY 2013 Base: \$978,065)

ii) Restoration and Modernization \$ 75,849

Increase reflects funding for Restoration and Modernization investment to improve the health of facilities and to speed the transition to a more efficient, centralized asset management based sustainment program. Timely recapitalization revitalizes the inventory in anticipation of centralized sustainment practices. Provides enterprise-wide total asset visibility to enable asset accountability and support-based program management, and to manage the built-asset portfolio with targeted, informed, and predictive decision quality data to ensure the optimal application of resources and investments. (FY 2013 Base: \$363,955)

iii) Civilian Pay Program \$ 9,434

Funding increase supports the net growth of 534 full-time equivalents in the following programs (FY2013 Base: \$250,483; 534 WY):

a.) Ministry of Defense: Increase of \$11,377 Thousand and 337 full-time equivalents supports proper funding of foreign nationals at the United Kingdom (UK) Ministry of Defense. The foreign national payroll was previously reimbursed to the UK and this action aligns the foreign nationals as indirect hire civilians.

b.) Various Mission Realignments: Increase realigns \$12,706 Thousand and 142 full-time equivalents from Subactivity Groups 21R and 42R, and realigns \$11,020 Thousand and 333 foreign nationals to 11Z to accurately portray mission execution for facility sustainment, readiness and modernization and installation support functions. 141 full-time equivalents were transferred from Subactivity Group 21R and 1 from 42R, and 333 to 11Z.

c.) Installation Support Efficiencies: Decrease of \$1,520 Thousand and 33 full-time equivalents as a result of consolidating installation support functions currently embedded in 10 Major Commands, three Direct Reporting Units, and four Field Operating Agencies into a single Direct Reporting Unit.

d.) Manpower Freeze and Reductions: Decrease of \$2,108 Thousand and 21 full-time equivalents supports Air Force efforts to maintain civilian staffing at FY 2010 levels with limited exceptions. In addition, a

**DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Air Operations**

Subactivity Group: Facilities Sustainment and Restoration/Modernization and Demolition Programs

comprehensive OSD-led review of areas where the Air Force could most prudently accept risk, while still being able to accomplish the mission, resulted in an additional 2.8% reduction of the civilian workforce.

e.) Restore Military Family Housing Full-Time Equivalents: Increase of 442 full-time equivalents support restoral of reimbursable Military Family Housing management and administrative support personnel erroneously removed from unit manning documents.

9. Program Decreases.....	\$ -45,000
a) One-Time FY 2013 Costs	\$ -45,000
i) Obtain Basing Efficiencies	\$ -45,000
Decrease eliminates one-time initial investment that consolidated activities and operations at three locations creating a more efficient use of in-theater infrastructure and capabilities. This efficiency maintains the Air Force's ability to flex for contingency operations while obtaining savings in the out-years. (FY 2013 Base: \$45,000)	
b) Annualization of FY 2013 Program Decreases.....	\$ 0
c) Program Decreases in FY 2014.....	\$ 0
FY 2014 Budget Request.....	\$ 1,834,424

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Air Operations
Subactivity Group: Base Support

I. Description of Operations Financed:

This program provides funding for installation support functions, engineering and environmental programs in support of Air Force Special Operations Command (AFSOC), Pacific Air Forces (PACAF), Air Combat Command (ACC), United States Air Forces in Europe (USAFE), Air Force Space Command (AFSPC) and Air Force Global Strike Command (AFGSC). The program sustains mission capability, quality of life, workforce productivity and infrastructure support. Significant categories of support are listed below:

Unaccompanied Personnel Housing Services (UPH): Manages execution of government owned, leased, contracted, or privatized Unaccompanied Personnel Housing including Permanent Party UPH management services, initial issue of furnishings (furniture, appliances, and equipment) for newly constructed and renovated facilities, and management of replacement furnishings (repair, replace, control, moving and handling, inventory, warehousing and disposal).

Child and Youth Programs: Assists Department of Defense (DoD) military and civilian personnel in balancing the competing demands of family life and the accomplishment of the DoD mission by managing and delivering a system of quality, available and affordable programs and services (child development, school age, and youth program services) for eligible children and youth from birth through 18 years of age.

Warfighter and Family Services: Provides principal mission readiness resources for leaders at all levels, service members and their families, qualifying DoD personnel and their families, deployed civilians, and military retirees and their families, offering information, education, prevention and intervention, and services necessary to address the unique personal and family readiness needs of the mobile and deployed military community.

Morale, Welfare and Recreation: Provides appropriated fund resources for all Category A activities (Mission-Sustaining Activities) in support of programs that promote the physical and mental well-being of the military member, their families, and other authorized users as defined by DoDI 1015.10 (including both deployed and post-deployment environments). Provides appropriated fund resources for all Category B activities (Community Support Programs) in support of programs, closely related to mission sustaining programs, which satisfy the physiological and psychological needs of military members, their families, and other authorized users. Provides appropriated fund resources for all Category C activities (Revenue-Generating Programs) in support of programs at designated remote and isolated locations as defined and authorized in Enclosures 4 and 5 of DoDI 1015.10.

Lodging: Includes Temporary Duty (TDY) Lodging and Permanent Change of Stations (PCS) Lodging. Provides resources for lodging and related services to authorized TDY personnel to support mission readiness and maintain maximum occupancy in DoD facilities to reduce official travel costs. Provides resources for lodging and related services to authorized personnel and family members to support PCS orders for travel and maintain maximum occupancy in DoD facilities to reduce official and personal travel costs.

Airfield Operations: Funds contract airfield services for transient United States military aircraft and aircrew.

Information Technology (IT) Services Management: Includes delivery of services consisting of secure and non-secure fixed voice communications, wireless voice, data and video connectivity services, video conferencing services. Provides infrastructure support, including the design, installation, and maintenance of special circuits and systems in support of life safety and security systems and monitoring and control systems. Provides Collaboration and Messaging including services and tools for the workforce to communicate and share. Provides Application and Web-hosting operations and management services required to support web and application hosting.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Air Operations
Subactivity Group: Base Support

Provides for IT Operations Centers including systems and processes necessary to allow customers to have seamless access to IT applications and solutions. Provides Desktop Management Support for end-user hardware and software services and tools. Includes Service Desk Support, Continuity of Operations and Disaster Recovery support, requirements and training for common-user software applications, Information Assurance, and Multimedia and Visual Information. Provides printing, publication, and duplication services.

Command Support: Funds Wing command staff agency functions formerly part of Base Operating Support (BOS) such as Command Management, The Inspector General, Plans, Programs, Public Affairs, Judge Advocate General, Financial Management, Procurement Operations, Ground, Flight and Weapons Safety, and Chaplain Ministries.

Collateral Equipment: Funds procurement of office furniture associated with Facilities Restoration and Modernization projects, including projects in the Military Construction program. This does not include dormitory and housing furnishings.

Civilian Personnel Services: Plans, manages, coordinates, and executes Civilian Personnel Services for the life-cycle management of human capital at installations for Appropriated Fund civilian workforce and military personnel and their families.

Military Personnel Services: Provides customer support services that directly provide or indirectly results in tangible benefits to the military community or the mission. Provides military personnel information systems customer support services. Includes processing workforce changes required to accomplish the DoD mission.

Installation Law Enforcement (LE) Operations: Includes enforcing federal, state and military law, enforcing installation guidance, issuance of citations, detaining suspects, motor vehicle traffic management, traffic investigations, apprehension and restraint of offenders, and crowd control, crime prevention, crime detection, LE patrols, LE liaison, apprehension of persons who commit crimes on the installation, testifying in prosecution cases and temporary detention of offenders. This includes protecting, defending, and deterring against criminal activities, conduct of minor investigations, the development of plans for the employment of law enforcement activities and functions and includes all processes intended to preserve the principles of law through various strategies.

Installation Physical Security Protection and Services: Includes personnel, procedures and equipment measures employed or designed to safeguard personnel, facilities and property from loss, destruction, espionage, terrorism, or sabotage on the installation; prevent unauthorized access to facilities, installations and restricted areas, equipment, and materials. This includes regulation of people, material, and vehicles entering or exiting a designated area; mobile and static security activities for the protection of installation or government assets; conduct of physical security inspections and assessments, construction design reviews, special protection of high value or sensitive property and management of installation security systems, plans and funding.

Supply Logistics: Includes eight classes of supply: Class I-Subsistence; Class II-Clothing, individual equipment, tents, etc; Class III-Petroleum, oils, lubricants; Class IV-Construction; Class VI-Personal demand items; Class VII-Major end items; Class IX-Repair parts and components; and Class X-Material to support non-military programs.

Community Logistics: Includes the execution of installation food services and laundry and dry cleaning services. Installation food services includes the operation and administration of installation, remote, and flight and ground support feeding but excludes cost of food, costs of non-installation field support, Hospital food services, and Basic Allowances for Subsistence. Laundry and dry cleaning services include cleaning and pressing textiles, garments, linens and other fabrics. Includes organizational clothing and individual equipment, other articles required by installation, and the sewing on of rank and unit patches on service member's initial issue of clothing.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Air Operations
Subactivity Group: Base Support

Transportation Logistics: Management and administration of acquisition dispatch, operation, maintenance, and disposal of all non-tactical government owned and controlled vehicles and transportation related equipment used for the day-to-day support of installation operations.

Environmental Conservation/Compliance: Environmental Conservation provides for protection and enhancement of natural and cultural resources, consultations with environmental regulators and mapping and planning support systems. Environmental Compliance ensures all federal, state and local environmental laws are enforced through sampling, analysis and monitoring; hazardous waste characterization and disposal; underground storage tank removal, repair and replacement; leak detection and monitoring; spill response and clean-up; environmental surveys; training; and maintenance, repair and minor construction projects for environmental facilities and infrastructure.

Pollution Prevention: Established to prevent future pollution by reducing hazardous material use and release of pollutants into the environment to as near zero as feasible to alleviate environmentally harmful discharges to the air, land, surface and ground water.

Facilities Operation: This program provides engineering operations, engineering services and real property management required to accomplish such municipal-type activities as emergency services (fire protection and aircraft crash rescue, emergency management and explosive ordnance disposal), utility plant operations, refuse collection and disposal (including non-hazardous recycling), custodial services, snow removal, street sweeping, grounds maintenance, and insect control. Funds real property leases and purchased utilities (electric, gas, water and sewer) for Air Force installations.

II. Force Structure Summary:

Supports the sustainment of mission capability, quality of life, workforce productivity and infrastructure support on all AFSOC, PACAF, ACC, USAFE, AFSPC and AFGSC installations. Supports Environmental Compliance, Environmental Conservation and Pollution Prevention for all Active Air Force MAJCOMs.

The Air Force has initiated a Civil Engineering Transformation and is beginning to implement a multi-pronged asset management approach to centralize, standardize, streamline, re-organize and enhance efficiency at all levels of the Civil Engineering enterprise. Through increased centralization, improved management and oversight of requirements, comprehensive program development and efficient execution, the Air Force will better apply its limited resources and reduce risk to mission and Airmen. This effort significantly helps the Air Force meet its overall objectives, in terms of dollars and manpower reductions and will assist the Air Force to better prioritize its future requirements in a fiscally constrained environment.

Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Air Operations
Subactivity Group: Base Support

Normalized FY 2013 Current Estimate.....	\$ 2,595,032
6. Price Change	\$ 31,401
7. Transfers.....	\$ 127,653
a) Transfers In	\$ 130,032
i) Civil Engineering (Environmental Consolidation).....	\$ 122,181
<p style="margin-left: 40px;">Increase reflects transfer from Subactivity Groups 21Z, 31Z and 41Z and Other Servicewide Activities (Subactivity Group 42G) in support of the consolidation of the Air Force Center for Environmental Excellence, Air Force Civil Engineer Support Agency and Air Force Real Property Agency in order to implement an asset management approach to centralize, standardize, and enhance efficiency at all levels of the Civil Engineering enterprise. This effort consolidates Environmental Compliance, Environmental Conservation and Pollution Prevention. (FY 2013 Base: \$216,792)</p>	
ii) Emergency Management	\$ 7,851
<p style="margin-left: 40px;">Increase reflects transfer from Global C3I and Early Warning (Subactivity Group 12A) in order to consolidate funding for firefighters and emergency services for equipment, facilities and personnel to properly align funds for execution. (FY 2013 Base: \$15,057)</p>	
b) Transfers Out	\$ -2,379
i) Facility Operations	\$ -2,379
<p style="margin-left: 40px;">Decrease reflects transfer to Subactivity Group 41Z in order to align Civil Engineering (CE) Transformation providing an asset management approach to enhance efficiency across the CE enterprise. Included are three Air Force Field Operating Agencies: Air Force Center for Engineering and the Environment, Air Force CE Support Agency and Air Force Real Property Agency. (FY 2013 Base: \$978,744)</p>	
8. Program Increases	\$ 74,878

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Air Operations
Subactivity Group: Base Support

a) Annualization of New FY 2013 Program.....	\$ 0
b) One-Time FY 2014 Costs	\$ 0
c) Program Growth in FY 2014	\$ 74,878
i) Food Services Core Program.....	\$ 29,651
Increase funds Food Service requirements based on historical execution. Food Services supports Air Force readiness and peacetime missions by providing food at Airman Dining Facilities and alert kitchens across the Air Force. (FY 2013 Base: \$30,926)	
ii) Utilities	\$ 24,175
Funding increased to support Utilities Privatization contracts across several Air Force installations as well as increase utility funding from 90 percent to 95 percent. (FY 2013 Base: \$499,499)	
iii) Civilian Pay Program	\$ 18,992
Funding increase supports the net growth of 1,113 full-time equivalents in the following programs (FY2013 Base: \$1,128,219; 1,113 WY):	
a.) Ministry of Defense: Increase of \$50,787 Thousand and 1,022 full-time equivalents supports proper funding of foreign nationals at the United Kingdom (UK) Ministry of Defense. The foreign national payroll was previously reimbursed to the UK and this action aligns the foreign nationals as indirect hire civilians.	
b.) Various Mission Realignment: Increase realigns \$19,372 Thousand and 162 full-time equivalents from Subactivity Groups 42G and 41R, and realigns 50 reimbursable full-time equivalents from 21Z, along with \$11,020 Thousand and 333 foreign nationals from 11R to accurately portray mission execution for facility sustainment, readiness and modernization functions and the establishment of the Air Force Civil Engineering Center.	
c.) Veterans Opportunity to Work: Increase of \$6,057 Thousand and 76 full-time equivalents support the Vow to Hire Heroes Act and the Veterans Educational Initiative (VOW/VEI). These services provide airmen pre-separation and retirement briefings and training.	

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Air Operations
Subactivity Group: Base Support

d.) Installation Support Manpower: Increase adds \$1,500 Thousand and 73 full-time equivalents for military family housing administrative support functions who are partially funded by the military family housing appropriation.

e.) Manpower Freeze and Reductions: Decrease of \$63,777 Thousand and 590 full-time equivalents supports Air Force efforts to maintain civilian staffing at FY 2010 levels with limited exceptions. In addition, a comprehensive OSD-led review of areas where the Air Force could most prudently accept risk, while still being able to accomplish the mission, resulted in an additional 2.8% reduction of the civilian workforce.

f.) Voluntary Separation Incentive Payments (VSIP): Decrease of \$5,100 Thousand reduces funds available to incentivize employees to leave Federal Service voluntarily. The Air Force will require less force shaping in FY 2014.

g.) Optimize Manpower Resourcing: Decrease of \$745 Thousand and 12 full-time equivalents supports efficiencies taken at Headquarters Air Force. The support functions performed by these full-time equivalents will be completed with existing civilian manpower.

h.) Joint Basing Transfer to Navy: Decrease of \$122 Thousand and one full-time equivalent supports the transfer from Air Force to Navy to support the school liaison program in Guam beginning in FY 2014.

iv) Microsoft Enterprise \$ 2,060

Increase reflects funding for the Microsoft Enterprise License contract for Air Force Information Technology users at the Pentagon and across the National Capital Region. Provides standardized software licenses in support of desktop computers and servers maintained by Headquarters Air Force and Air Force District of Washington. (FY 2013 Base: \$23,174)

9. Program Decreases\$ -49,153

a) One-Time FY 2013 Costs\$ 0

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Air Operations
Subactivity Group: Base Support

b) Annualization of FY 2013 Program Decreases.....	\$ 0
c) Program Decreases in FY 2014.....	\$ -49,153
i) Internal Realignment	\$ 0
Internal realignment of funding between OP-32 lines within this Subactivity Group to program funding based on historical execution trends.	
ii) Service Support Contracts Reduction	\$ -20,373
In compliance with the Budget Control Act of 2011, the Air Force further reduced funding used to acquire service support contracts. The Air Force will focus remaining resources on those service support contracts that provide the greatest value to the Department in the most cost-effective way. (FY 2013 Base: \$181,095)	
iii) Management Support Contracts Reduction	\$ -13,175
In compliance with Executive Orders #13576, Defining an Efficient, Effective, and Accountable Government, and #13589, Promoting Efficient Spending, the Air Force reduced funding for management and service support contracts. The Air Force will focus remaining resources on those management and service support contracts that provide the greatest value to the Department in the most cost-effective way. (FY 2013 Base: \$381,632)	
iv) Communications Infrastructure Efficiencies	\$ -5,628
The Air Force continues to find savings by establishing policies and procedures in the following four communication infrastructure areas in order to achieve efficiencies: Base Communications; Information and Telecommunication Services and the Air Force Network; Engineering and Installation; and Command Communications. Base Communications funds operations and sustainment of telecommunication and information services. Information and Telecommunication Services provides switching infrastructure connecting buildings to the base enterprise network. Engineering and Installation satisfies upward generated base communications modifications. The Air Force Network establishes one Air Force-wide intranet, and Command Communications provides command and control circuits and support. (FY 2013 Base: \$142,214)	

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Air Operations
Subactivity Group: Base Support

v) Logistics and Installations Efficiencies..... \$ -5,388

The Air Force continues to develop efficiencies to improve supply chain management. The Air Force will enhance its inventory management information technologies to provide improved oversight of on-hand quantities and movement within the distribution pipeline, allowing the Air Force to reduce on-hand inventory, holding, and storage costs. (FY 2013 Base: \$255,925)

vi) Executive Order Travel Reduction \$ -3,065

In compliance with the Executive Orders on Promoting Efficient Spending to support Agency Operations dated 9 November 2011 and 11 May 2012, the Air Force will reduce travel expenses by utilizing more video and phone teleconferencing. The Air Force will also carefully analyze the necessity for conferences and schools held off site in an effort to reduce the overall dependency on travel funding. (FY 2013 Base: \$59,911)

vii) Knowledge Based Services Efficiency \$ -1,524

The Air Force continues to reduce knowledge based contractor services and other services due to improved Air Force practices and processes which allow a more efficient use of military, civilians, and retained knowledge based personnel. (FY 2013 Base: \$181,095)

FY 2014 Budget Request.....\$ 2,779,811

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Combat Related Operations
Subactivity Group: Global C3I & Early Warning

I. Description of Operations Financed:

Global Command, Control, Communication, Intelligence (C3I) & Early Warning includes resources that provide Strategic Offensive C3I, Strategic Defensive C3I and Air Force-wide communications. Strategic Offensive C3I and Computer (C4I) assets comprise the media through which interconnected airborne and ground-based command centers execute commands for offensive strikes against opposing threats. This capability relies on systems that are fast, accurate, reliable, secure, resistant to destruction and disruption and tailored to the needs of the President of the United States, Secretary Of Defense (SECDEF), North American Aerospace Defense (NORAD), and Northern Command (NORTHCOM), United States Strategic Command (STRATCOM) and operational commanders.

Strategic Defensive C3I supports the strategic defensive surveillance and tactical warning mission. These provide radar surveillance and timely, reliable warning of enemy attack through employment of a worldwide network of assets such as: the Joint Surveillance System long-range radar sites; the North Warning System (NWS); the North Atlantic Defense System; the Integrated Tactical Warning and Attack Assessment system; the Ballistic Missile Early Warning System (BMEWS); the Sea-Launched Ballistic Missile (SLBM) Radar Warning System; and the Space-Based Infrared System (SBIRS). The United States Nuclear Detonation (NUDET) Detection System provides a worldwide, highly survivable capability to detect, locate, characterize and report NUDETs in the earth's atmosphere or near space.

Air Force-wide Communications programs support development of a survivable communications capability for worldwide Command and Control (C2) communications during pre-attack, trans-attack and post-attack periods. It provides satellite communications terminal facilities and activation of the Military Strategic and Tactical Relay (Milstar) Mission Control Segment required for system operations. The Military Satellite Communication (MILSATCOM) program will be able to first sustain current capability and then modernize the MILSATCOM infrastructure on a system-to-system basis. The backbone of the entire C2 system is the Global Command and Control System (GCCS), the Department of Defense's single, compatible, integrated C4I system. GCCS supports all echelons of United States military command structure and provides a single view of the military C4I for the warfighter through a widely distributed user-driven network. The Shared Early Warning System, a Presidential initiative, provides theater missile warning to allied and partner nations as well as situational awareness to Combatant Commanders. The Space Professional Development program develops and sustains an Air Force space corps of military total force and civilian personnel skilled and knowledgeable in the development, acquisition, application and integration of space systems, concepts, doctrine and capabilities.

The Air Force Air Traffic Control and Landing System (ATCAL) combines Air Force fixed-base and deployable ground facilities and equipment with associated avionics, personnel and procedures to provide safe, orderly and expeditious aerospace vehicle movements on a worldwide basis under visual and instrument flight rule weather conditions. The program encompasses the development, procurement, sustainment, replacement and modification of those information, navigation, integrated surveillance and control systems which are common to the Department of Defense's international mission and are not provided solely by the Federal Aviation Administration (FAA) or host nation in the following major functional areas: en route and terminal navigation, surveillance and Air Traffic Control (ATC), non-precision and precision approach and landing, ATC communications (to include computer-based, networked information systems), ATC automation, Terminal Instrument Procedures (TERPS) development software, Department of Defense unique Combat Flight Inspection aircraft and avionics and ATC control simulators. Provides United States African Command (AFRICOM) Air Domain Security and Safety capability that builds partnerships in Africa that enhance international air mobility and safe, positive ATC.

The Air Force Weather Program supports combat and specialized operations, management, readiness and sustainment of Air Force weather and space environmental capabilities and systems. The program also provides weather observing and prediction capabilities at over 200 locations supporting the Air Force, Army, Special Forces, Unified Commands, national intelligence and other national agencies. It ensures specialized combat capabilities are provided in support of Air Force, Army and Special Forces operations worldwide, and provides for the centralized strategic support services of the Air Force Weather Agency (Offutt AFB, NE), Air Force Combat Climatology

Center (Asheville, NC), Air Force Combat Weather Center (Hurlburt Field, FL), five solar observing sites (Australia, Italy, Hawaii, New Mexico, and Massachusetts) and the Joint Typhoon Warning Center (Pearl Harbor, HI). The system also provides space environmental observation and prediction capabilities required to continuously monitor solar activity and to assess the impacts on military space, communications, and navigation systems.

II. Force Structure Summary:

Air Force Global Command and Control System (GCCS): The GCCS-Air Force system is located at over 290 sites worldwide. Servers are located at host sites, predominantly at major command headquarters, Air Component headquarters, and Air Force-supported Combatant Commander sites. Lower echelon GCCS sites are linked net-centrally to a host site to receive access.

The National Military Command System (NMCS) is a network of sites supporting the nation's strategic watch mission as the crisis center of all Joint Chiefs of Staff activity. The NMCS provides effective coordination and liaison with other United States government agencies such as the White House Situation Room, the Department of State, the Central Intelligence Agency and the National Security Agency.

The Joint Surveillance System has 52 sites. Twelve sites are in Alaska and 40 are in the Continental United States (CONUS). All sites other than one CONUS site are operated jointly with the Federal Aviation Administration. These sites provide C3 and air surveillance capability in support of North American Aerospace Defense (NORAD) atmospheric tactical warning and attack assessment, air sovereignty and air defense requirements.

Worldwide Joint Strategic Communications: United States Strategic Command (STRATCOM), Air Force Global Strike Command, and Chief of Staff Air Force strategic command and control missions are supported with programs, systems and networks for the dissemination of critical orders to unit command posts and deployable mobile support teams. This program supports command and control of nuclear weapons and provides emergency notification, dispersal and survivability of strategic forces. The CONUS NORAD Region (CONR) is comprised of the joint-use radars located around the periphery of the CONUS, which feed into the Eastern and Western Defense Operations Centers and two regional centers located in Alaska and Hawaii. In addition, there are over 100 enroute joint-use radars within the CONUS providing data into the Defensive Operations Centers (DOCs). The DOCs report to the Combined Air Operations Center (CAOC), which reports to the NORAD Commander. The NORAD Commander's direction through the CAOC and DOCs together provide command and control (C2) of forces for airspace control and air defense against atmospheric attack. Both receive sensor data from radar sites to detect, track, identify and intercept, if necessary, hostile or non-cooperative aircraft penetrating or operating within United States sovereign airspace.

In 1985, the United States and Canada agreed to replace the aging Distant Early Warning line with a network of 54 new radars. The new network, known as the North Warning System (NWS), consists of 15 minimally attended radars, 39 gap filler unattended radars and one engineering logistic set radar at the depot. The program is jointly executed on a 60 percent United States and 40 percent Canada functional basis.

The Ballistic Missile Early Warning System (BMEWS) consists of three operational radars providing warning of a limited or mass Intercontinental Ballistic Missile attack against North America, the United Kingdom and Europe, and a Sea-Launched Ballistic Missile (SLBM) attack within the system's geographical coverage. BMEWS sites are located at Thule Air Base, Greenland; RAF Fylingdales, United Kingdom; and Clear Air Force Station, Alaska.

The SLBM Radar Warning System, which consists of three sites (two operational), detects and provides warning of an SLBM attack against North America through two radar systems: the Precision Acquisition Vehicle Entry Phased Array Warning Systems (PAVE PAWS) and the Perimeter Acquisition Radar Attack Characterization

System (PARCS). PAVE PAWS sites are located at Cape Cod AFS, MA; Beale Air Force Base (AFB), CA; and Robins AFB, GA (non-operational, in cold storage). The PARCS site is at Cavalier AFS, ND.

The BMEWS and SLBM radar warning systems provide attack assessment data to NORAD system, NORTHCOM, Air Force Space Command, United States Strategic Command (STRATCOM), the President and Secretary of Defense. The newly upgraded early warning radars at Beale AFB and Fylingdales will detect, track and classify possible ballistic missile threats to support Ground-based Midcourse Defense. All radars also provide space object detection and tracking data to the Space Surveillance Network. These ground-based systems work in conjunction with the space-based missile warning system, the Space-Based Infrared Systems (SBIRS), to provide assured missile warning. SBIRS currently employs Defense Support Program satellites to detect and track missiles through observation and processing of infrared energy emitted during the missile boost phase.

The Air Force Air Traffic Control and Landing System (ATCALS) maintains Air Force fixed-base and deployable ATCALS equipment on a worldwide basis. In the tactical environment, deployable ATCALS include mobile and transportable Airport Surveillance and Precision Approach Radars (ASPARS), mobile control towers, mobile Tactical Air Navigation systems (TACANs), mobile Very High Frequency Omni-directional Range (VOR), Very High Frequency Omnidirectional Range Tactical Aircraft Control (VORTAC), and the Mobile Microwave Landing System. In the fixed-base environment, which includes both the United States National Airspace System and support in overseas host nations, ATCALS include fixed airport surveillance and precision approach radars, control towers, TACANs, VORs, VORTACs, Instrument Landing Systems (ILS) and air traffic control simulators. ATCALS automation and software systems include the Department of Defense Advanced Automation System, the Airfield Automation System and the TERPS development software tool.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Combat Related Operations
Subactivity Group: Global C3I & Early Warning

Normalized FY 2013 Current Estimate.....	\$ 957,040
6. Price Change	\$ 15,069
7. Transfers.....	\$ -46,378
a) Transfers In	\$ 0
b) Transfers Out	\$ -46,378
i) Space Based Infrared System	\$ -36,780
<p>Decrease reflects transfer to Contractor Logistics Support (Subactivity Group 11M) to sustain depot level activities for Defense Support Program on-orbit support Elliptical Orbit training center. Requirements funded include on-site support, depot contractor hardware maintenance, software analysis and maintenance, and software licenses. (FY 2013 Base: \$86,286)</p>	
ii) Emergency Management	\$ -7,851
<p>Decrease reflects transfer to Base Support (Subactivity Group 11Z) in order to consolidate funding for firefighters and emergency services for equipment, facilities and personnel to properly align funds for execution. (FY 2013 Base: \$154,969)</p>	
iii) United States Africa Command (AFRICOM) Engagement	\$ -1,747
<p>Decrease reflects transfer to International Support Program (Subactivity Group 44A). The Air Force supports AFRICOM Theater Security Cooperation events, African Partnership flight, bi-lateral exercises, African Air Chief's Conference, Senior Leader Visits, professional supply services, access to Kenyan airports, travel, airfield and radar surveys, studies, analysis, evaluations, and Governmental purchases. This realignment enables increased visibility of AFRICOM's Theater Campaign Plan funding. (FY 2013 Base: \$126,506)</p>	
8. Program Increases	\$ 17,907

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Combat Related Operations
Subactivity Group: Global C3I & Early Warning

a) Annualization of New FY 2013 Program.....	\$ 0
b) One-Time FY 2014 Costs	\$ 0
c) Program Growth in FY 2014	\$ 17,907
i) Air Force Materiel Command (AFMC) Air Traffic Control and Landing Systems	\$ 4,581
Increase reflects funding required to cover sustainment of air traffic control and landing system equipment and airfield operations at seven AFMC bases and test ranges due to expiration of warranties. (FY 2013 Base: \$126,506)	
ii) Global Command and Control System (GCCS).....	\$ 2,992
Increase sustains the infrastructure component of GCCS that supports Combatant Commands and Air Component Command and Control. (FY 2013 Base: \$31,909)	
iii) National Military Command Center Information (NMCC) Technology Support.....	\$ 2,554
Increase required due to higher NMCC contract labor costs. NMCC is the central collection and dissemination point for all Department of Defense global current operations including nuclear command and control. The Air Force is the executive agent for funding the NMCC. Contracts are for Information Technology and Communication services, security, training, cleaning, classified communications support. (FY 2013 Base: \$22,515)	
iv) Foreign Currency Fluctuation	\$ 2,512
Reflects funding to account for foreign currency fluctuations in Working Capital Fund purchases. (FY 2013 Base: \$11,327)	
v) Weapon System Sustainment.....	\$ 2,157
Weapon System Sustainment is the enterprise level view of sustainment requirements in the Air Force. Within this Subactivity Group, Weapon System Sustainment includes the following program changes:	
a. Sustaining Engineering: (\$ 1,414)	

**DEPARTMENT OF THE AIR FORCE
 Fiscal Year (FY) 2014 Budget Estimates
 Operation and Maintenance, Air Force
 Budget Activity: Operating Forces
 Activity Group: Combat Related Operations
 Subactivity Group: Global C3I & Early Warning**

1) Military Satellite Communication: (\$ 1,414)

Increased funding due to required integration of new cryptographic equipment from the National Security Agency with Air Force legacy terminals.

b. Technical Orders: (\$ 743)

1) Space Based Infrared System: (\$ 401)

Increased funding for Emergency and Urgent Technical Manual Change Recommendation and Reply Forms and data management updates for Mobile Ground System technical orders.

2) Nuclear Detection System: (\$ 240)

Increased funding for Emergency and Urgent Technical Manual Change Recommendation and Reply Forms and data management updates for operational and maintenance technical orders.

3) Battle Control System-Fixed: (\$ 43)

Increased funding for additional labor revisions due to system transitioning from acquisition to sustainment funding.

4) Military Satellite Communication: (\$ 51)

Increased funding for Emergency and Urgent Technical Manual Change Recommendation and Reply Forms and data management updates for operational and maintenance technical orders.

5) Sea Launched Ballistic Missile (\$ 8)

Increased funding for Emergency and Urgent Manual Technical Change Recommendation and Reply Forms and data management updates for Perimeter Acquisition Radar and Attack Characterization System technical orders. (FY 2013 Base: \$47,378)

vi) Flying Hour Program \$ 1,763

The FY 2014 Flying Hour Program provides hours for: 1) Air Force aircrew production, 2) continuation of basic combat flying skills, 3) aircrew experiencing requirements, and 4) unit specific mission requirements. The FY 2014 Flying Hour Program reflects an update to consumption estimates ("cost per flying hour").

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Combat Related Operations
Subactivity Group: Global C3I & Early Warning

The summation of these changes will allow the Air Force to deliver trained aircrews to meet its major combat operations commitments. The following is a detailed breakout of the program changes by aircraft: E-4B (\$1,763, 10 hours).

Note: Net adjustment in dollars may not always follow in the direction of the hour change due to the consumption updates for aircraft in FY 2014. (FY 2013 Base: \$33,901)

vii) Air Force Global Strike Command (AFGSC)..... \$ 1,348
 Increase supports training for management of organizations, activities, and systems (such as program and logistics management, auditing, and data collection) that did not transfer during standup of AFGSC. (FY 2013 Base: \$12,989)

9. Program Decreases.....	\$ -29,797
a) One-Time FY 2013 Costs	\$ 0
b) Annualization of FY 2013 Program Decreases.....	\$ 0
c) Program Decreases in FY 2014.....	\$ -29,797
i) Internal Realignment	\$ 0
Internal realignment of funding between OP-32 lines within this Subactivity Group to program funding based on historical execution trends.	
ii) Civilian Pay Program	\$ -15,081
Funding decrease supports the net reduction of 91 full-time equivalents in the following programs (FY2013 Base: \$212,627; -91 WY):	
a.) Manpower Freeze and Reductions: Decrease of \$10,477 Thousand and 61 full-time equivalents supports Air Force efforts to maintain civilian staffing at FY 2010 levels with limited exceptions. In addition, a comprehensive OSD-led review of areas where the Air Force could most prudently accept risk, while still being able to accomplish the mission, resulted in an additional 2.8% reduction of the civilian workforce.	

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Combat Related Operations
Subactivity Group: Global C3I & Early Warning

b.) Various Mission Realignment: Decrease realigns \$5,366 Thousand and 59 full-time equivalents to Subactivity Group 11C to accurately portray mission execution for Air Force Space Command Cyber Warfare and Air Operations Center support functions.

c.) Ministry of Defense: Increase of \$762 Thousand and 13 full-time equivalents supports proper funding of foreign nationals at the United Kingdom (UK) Ministry of Defense. The foreign national payroll was previously reimbursed to the UK and this action aligns the foreign nationals as indirect hire civilians.

d.) Defense Intelligence Information Enterprise (DI2E): Increase of 16 reimbursable full-time equivalents supports the design, collaboration, demonstration and testing of a DI2E framework in order to prove the benefit and identify future cost avoidance for the Service Distributed Common Ground System programs and other enterprise initiatives.

iii) Functional Application Information Technology (IT) Efficiency \$ -6,638

In compliance with the Budget Control Act of 2011, the Air Force continues to achieve efficiencies by taking a centralized review of proliferated applications across the Air Force enterprise. Reduction freezes development to synchronize new work with centralized infrastructure approach, reducing embedded IT cost within program lines. Also eliminates duplicate business and mission IT applications and establishes policies and procedures in business and mission systems to achieve efficiencies. (FY 2013 Base: \$68,999)

iv) Logistics and Installations Efficiencies \$ -3,584

The Air Force continues to develop efficiencies to improve supply chain management. The Air Force will enhance its inventory management information technologies to provide improved oversight of on-hand quantities and movement within the distribution pipeline, allowing the Air Force to reduce on-hand inventory, holding, and storage costs. (FY 2013 Base: \$238,102)

v) Command and Control Personnel Support System \$ -2,420

Decrease reduces funding for National Military Command Center (NMCC) long haul communication based on historical execution. (FY 2013 Base: \$22,515)

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Combat Related Operations
Subactivity Group: Global C3I & Early Warning

vi) Executive Order Travel Reduction \$ -2,074

In compliance with the Executive Orders on Promoting Efficient Spending to support Agency Operations dated 9 November 2011 and 11 May 2012, the Air Force will reduce travel expenses by utilizing more video and phone teleconferencing. The Air Force will also carefully analyze the necessity for conferences and schools held off site in an effort to reduce the overall dependency on travel funding. (FY 2013 Base: \$9,448)

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Combat Related Operations
Subactivity Group: Other Combat Operations Support Programs

I. Description of Operations Financed:

Resources provide manpower, support equipment, necessary facilities and other items in support of combat evaluation groups and strategic missile evaluation squadrons; defensive training; civil engineer heavy repair squadrons (Red Horse); Defense System Evaluation Squadrons and Radar Evaluation Squadrons. Additionally, this program provides support to the North American Aerospace Defense Command and Northern Command, and Central Command Combatant Headquarters, and combatant command activities; organizations, activities, and procedures structured to provide intelligence and intelligence functional support to Air Force Strategic, Mobility, and Combat Air Forces.

Also supported are other Air Force tactical force elements; aircraft delivery; commercial imagery tasking, ordering, processing, exploitation, and dissemination system development and operations resources; national security emergency preparedness, including military support to civil authorities, civil law enforcement agencies, and other related National Security Emergency Preparedness programs; engineering installation support; base physical security systems (such as perimeter detection sensors); chemical and biological defensive equipment items and materials; specialized equipment to mislead hostile intelligence regarding the disposition of Air Force tactical forces; combat development activities to support experimentation, tests, projects, evaluations necessary to develop and validate new weapon systems, doctrine, material and organization; anti-terrorism programs; and electronic combat intelligence support programs.

Identifies critical asset and infrastructure for all Air Force essential functions, missions, and capabilities; prioritizes assets and assesses risk of loss or degradation to the assets; and identifies and implements risk management decisions, tracks and monitors operational impact of critical assets and infrastructure. Also provides engineering and installation support for sustainment of cable plants, communication distribution systems, building wiring, radio and satellite antennas, and land mobile radio systems throughout Air Combat Command (ACC), Pacific Air Forces (PACAF) and United States Air Forces Europe (USAFE).

Sustains the Global Combat Support System program, which is responsible for seamlessly integrating all combat support automated information systems to provide enhanced war fighter support.

Supports the world-wide daily operations including, but not limited to, Headquarters Air Force at Air Force District of Washington; Bolling Air Force Base (AFB), District of Columbia; ACC at Langley AFB, Virginia; PACAF at Hickam AFB, Hawaii; USAFE, Germany; Air Mobility Command at Scott AFB, Illinois; Air Force Space Command at Peterson AFB, Colorado; Air Force Global Strike Command at Barksdale, Louisiana; and Air Force Special Operations at Hurlburt Field, Florida.

II. Force Structure Summary:

Other Combat Operations supports four squadrons of combat development aircraft across multiple platforms to include A-10, F-15, F-16, F-22A, and E-9.

Readiness Weapon System Evaluation Program provides centralized expertise to enhance capabilities and employment effectiveness of all Combat Air Force (CAF) fighter, bomber, and tactical weapon systems. Manages and executes Force Development Evaluation, and Tactics Development and Evaluation of all CAF weapon systems. The program supports three exercises: Combat Archer (air-to-air), Combat Banner (aerial gunnery) and Combat Hammer (air-to-ground).

The Management and Operational Headquarters subactivity fulfills Air Force commitments for ten Air Force Major Commands operating from Air Force bases and facilities worldwide. It funds personnel pay, travel, contracts, support infrastructure and operating expenses for military and civilian personnel.

C. Reconciliation of Increases and Decreases:

FY 2013 President's Budget Request	\$ 916,200
1. Congressional Adjustments	\$ 0
a) Distributed Adjustments	\$ 0
b) Undistributed Adjustments	\$ 0
c) Adjustments to Meet Congressional Intent	\$ 0
d) General Provisions	\$ 0
FY 2013 Appropriated Amount	\$ 916,200
2. War-Related and Disaster Supplemental Appropriations	\$ 0
3. Fact-of-Life Changes	\$ 0
FY 2013 Appropriated and Supplemental Funding	\$ 916,200
4. Anticipated Reprogramming (Requiring 1415 Actions)	\$ 0
Revised FY 2013 Estimate	\$ 916,200
5. Less: Emergency Supplemental Funding	\$ 0
a) Less: War Related and Disaster Supplemental Appropriation	\$ 0
b) Less: X-Year Carryover (Supplemental)	\$ 0

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Combat Related Operations
Subactivity Group: Other Combat Operations Support Programs

Normalized FY 2013 Current Estimate.....	\$ 916,200
6. Price Change	\$ 15,469
7. Transfers.....	\$ -7,538
a) Transfers In	\$ 0
b) Transfers Out	\$ -7,538
i) Offensive Cyber Operations	\$ -3,836
Decrease reflects transfer to Combat Enhancement Forces (Subactivity Group 11C) in order to consolidate Offensive Cyber Operations and Training to enhance program fidelity. (FY 2013 Base: \$4,706)	
ii) United States Africa Command (AFRICOM) Engagement	\$ -3,702
Decrease reflects transfer to International Support Program (Subactivity Group 44A). The Air Force supports AFRICOM Theater Security Cooperation events, African Partnership flight, bi-lateral exercises, African Air Chief's Conference, Senior Leader Visits, professional supply services, access to Kenyan airports, travel, airfield and radar surveys, studies, analysis, evaluations, and Governmental purchases. This realignment enables increased visibility of AFRICOM's Theater Campaign Plan funding. (FY 2013 Base: \$3,751)	
8. Program Increases	\$ 22,434
a) Annualization of New FY 2013 Program.....	\$ 0
b) One-Time FY 2014 Costs	\$ 0
c) Program Growth in FY 2014	\$ 22,434
i) Aerial Targets and Combat Developmental Test and Evaluation	\$ 7,504
Increase funds rising cost to support Aerial Target Systems and Combat Developmental Test and

Budget Activity: Operating Forces
Activity Group: Combat Related Operations
Subactivity Group: Other Combat Operations Support Programs

Evaluation. Increased weapon complexity, testing for new systems and major hardware and software modifications of existing systems of the F-22, F-35, F-15 and other platforms have all contributed to the higher costs. (FY 2013 Base: \$200,737)

ii) 5th Generation Mission Data \$ 7,500

Increase supports Air Force Intelligence Mission Data requirements such as signatures and capabilities intelligence to conduct full combat operations and identification of more than 2,000 aircraft systems and subsystems. (FY 2013 Base: \$22,573)

iii) Expeditionary Combat Support (Silver Flag) \$ 2,784

Increase supports fuel, supplies, contract support, and temporary duties required for Expeditionary Combat Support skills training provided to civil engineers, explosive ordnance disposal, fire emergency services, emergency management, personnel, manpower, medical, and services personnel. (FY 2013 Base: \$10,264)

iv) Integrated Base Defense Security Systems \$ 1,620

Increase supports maintaining and systematically upgrading and replacing non-nuclear Integrated Base Defense Security Systems (IBDSS). IBDSS provides for the operations and management of communications and electronic security systems for fixed sites supporting non-strategic Air Force Protection Level (PL 1-4) aerospace weapons systems. Maintains vital life-cycle management plan, reducing long-term replacements costs. (FY 2013 Base: \$196,526)

v) Global Combat Support System-Defense Enterprise Computing Center Hosting \$ 1,381

Increase supports Defense Information Services Agency's support of Global Combat Support System, which consolidates and integrates Air Force combat support information systems to provide a secure flow of timely, accurate, and trusted agile combat support information. (FY 2013 Base: \$68,134)

vi) Department of Defense Fighter Deliveries \$ 1,292

Increase funding for contracts for critical Consolidated Air Mobility Planning System software support and 24 hour Mission Control Center operations for the Air Combat Command Air Operations Squadron. The squadron is the sole Department of Defense agency responsible for planning and executing the worldwide delivery of approximately 2,500 Department of Defense, Foreign Military Sales, and Allied forces combat

Activity Group: Combat Related Operations
Subactivity Group: Other Combat Operations Support Programs

fighter aircraft each year. (FY 2013 Base: \$2,819)

vii) Flying Hour Program \$ 347

The FY 2014 Flying Hour Program provides hours for: 1) Air Force aircrew production, 2) continuation of basic combat flying skills, 3) aircrew experiencing requirements, and 4) unit specific mission requirements. The FY 2014 Flying Hour Program reflects an update to consumption estimates ("cost per flying hour").

The summation of these changes will allow the Air Force to deliver trained aircrews to meet its major combat operations commitments. The following is a detailed breakout of the program changes by aircraft: A-10C (-\$1,095, 10 hours); E-9A (\$9, 10 hours); F-15C (\$394, 10 hours); F-15D (\$199, 10 hours); F-15E (-\$110, 0 hours); F-16C (-\$1,307, 0 hours); F-16D (-\$222, 0 hours); F-22A (\$293, 30 hours); F-35A (\$2,186, 294 hours).

Note: Net adjustment in dollars may not always follow in the direction of the hour change due to the consumption updates for aircraft in FY 2014.

viii) Weapon System Sustainment \$ 6

Weapon System Sustainment is the enterprise level view of sustainment requirements in the Air Force. Within this Subactivity Group, Weapon System Sustainment includes the following program changes:

a. Technical Orders: (\$ 6)

1) Aerial Targets: (\$ 6)

Increased funding for one-time requisition paper requests. (FY 2013 Base: \$46)

9. Program Decreases.....\$ -29,728

a) One-Time FY 2013 Costs \$ 0

b) Annualization of FY 2013 Program Decreases..... \$ 0

DEPARTMENT OF THE AIR FORCE

Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Combat Related Operations
Subactivity Group: Other Combat Operations Support Programs

c) Program Decreases in FY 2014.....	\$ -29,728
i) Internal Realignment	\$ 0
Internal realignment of funding between OP-32 lines within this Subactivity Group to program funding based on historical execution trends.	
ii) Civilian Pay Program	\$ -18,986
Funding decrease supports the net reduction of 161 full-time equivalents in the following programs (FY2013 Base: \$361,034; -161 WY):	
a.) Installation Support Efficiencies: Decrease of \$14,504 Thousand and 107 full-time equivalents as a result of consolidating installation support functions currently embedded in 10 Major Commands, three Direct Reporting Units, and four Field Operating Agencies into a single Direct Reporting Unit.	
b.) Manpower Freeze and Reductions: Decrease of \$3,597 Thousand and 40 full-time equivalents supports Air Force efforts to maintain civilian staffing at FY 2010 levels with limited exceptions. In addition, a comprehensive OSD-led review of areas where the Air Force could most prudently accept risk, while still being able to accomplish the mission, resulted in an additional 2.8% reduction of the civilian workforce.	
c.) Support to F-35 Squadrons: Increase of \$1,450 Thousand and 16 full-time equivalents supports testing and operations support for F-35 squadrons at Eglin, Nellis and Edwards Air Force Bases.	
d.) Optimize Manpower Resourcing: Decrease of \$2,512 Thousand and 33 full-time equivalents supports efficiencies taken at headquarters operations at United States European Command. The support functions performed by these full-time equivalents will be completed with existing civilian manpower.	
e.) Ministry of Defense: Increase of \$177 Thousand and three full-time equivalents supports proper funding of foreign nationals at the United Kingdom (UK) Ministry of Defense. The foreign national payroll was previously reimbursed to the UK and this action aligns the foreign nationals as indirect hire civilians.	
iii) Communications Infrastructure Efficiencies	\$ -5,279
The Air Force continues to create savings by establishing policies and procedures to control spending in	

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Combat Related Operations
Subactivity Group: Other Combat Operations Support Programs

four communication infrastructure areas in order to achieve efficiencies: Base Communications; Information and Telecommunication Services and the Air Force Network; Engineering and Installation; and Command Communications. Base Communications funds operations and sustainment of telecommunication and information services. Information and Telecommunication Services provides switching infrastructure connecting buildings to the base enterprise network. Engineering and Installation satisfies upward generated base communications modifications. The Air Force Network establishes one Air Force-wide intranet, and Command Communications provides command and control circuits and support. (FY 2013 Base: \$45,360)

iv) Competitive Sourcing and Privatization \$ -2,868

Funds decrease consistent with the government-wide moratorium on the use of funds for public-private competitions. Section 325 of the National Defense Authorization Act for Fiscal Year 2010 (P.L. 111-84) prohibits the Department of Defense from beginning or announcing any public-private competitions. (FY 2013 Base: \$2,868)

v) Executive Order Travel Reduction \$ -1,324

In compliance with the Executive Orders on Promoting Efficient Spending to support Agency Operations dated 9 November 2011 and 11 May 2012, the Air Force will reduce travel expenses by utilizing more video and phone teleconferencing. The Air Force will also carefully analyze the necessity for conferences and schools held off site in an effort to reduce the overall dependency on travel funding. (FY 2013 Base: \$23,027)

vi) Logistics and Installations Efficiencies \$ -1,271

The Air Force continues to develop efficiencies to improve supply chain management. The Air Force will enhance its inventory management information technologies to provide improved oversight of on-hand quantities and movement within the distribution pipeline, allowing the Air Force to reduce on-hand inventory, holding, and storage costs. (FY 2013 Base: \$170,547)

b) Annualization of FY 2013 Program Decreases.....	\$ 0
c) Program Decreases in FY 2014.....	\$ -26,257
i) Civilian Pay Program.....	\$ -14,767
Funding decrease supports the net reduction of 128 full-time equivalents in the following programs (FY2013 Base: \$102,934; -128 WY):	
a.) Manpower Freeze and Reductions: Decrease of \$14,767 Thousand and 128 full-time equivalents supports Air Force efforts to maintain civilian staffing at FY 2010 levels with limited exceptions. In addition, a comprehensive OSD-led review of areas where the Air Force could most prudently accept risk, while still being able to accomplish the mission, resulted in an additional 2.8% reduction of the civilian workforce.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Space Operations
Subactivity Group: Launch Operations

I. Description of Operations Financed:

Launch operations are composed of Spacelift Ranges and the Launch Vehicles program. Spacelift ranges provide tracking, telemetry, communications, range safety, weather and other support for Department of Defense (DoD), civil and commercial space launches, intercontinental and sea-launched ballistic missile Test and Evaluations (T&E), missile defense developmental T&E and aeronautical T&E.

The spacelift ranges are responsible for infrastructure maintenance functions, to include heating and air conditioning, fire protection/detection and corrosion control. Spacelift ranges are also responsible for payload/launch vehicle operations and range activities necessary to operate and maintain range systems. The Launch Vehicles program provides launch and operational support for DoD and National Reconnaissance Office (NRO) space programs. Funding supports fuel, launch pad refurbishments and maintenance.

II. Force Structure Summary:

Spacelift ranges consist of the Western Range located at the 30th Space Wing, Vandenberg Air Force Base (AFB), CA, and the Eastern Range, located at the 45th Space Wing, Patrick AFB, FL. The ranges are composed of facilities and equipment, including launch pads, command centers, radar and optical tracking sites, command destruct sites and telemetry sites. The Air Force uses the Evolved Expendable Launch Vehicle (EELV) program, consisting of the Delta IV and Atlas V, for medium and heavy lift requirements. In support of small satellites and science & technology launches, the Air Force has contracts for procurement of the Space X Falcon I launch system, Orbital Sciences Minotaur IV and Orbital Sciences Pegasus launch system.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Space Operations
Subactivity Group: Launch Operations

efficiencies achieved through consolidating Eastern and Western Ranges' Launch Integrated Support Contract (LISC). LISC provides tracking, positive control, communications, and flight safety analysis to safely conduct national, civil, and commercial spacelift, and ballistic missile, aeronautical, and guided missile tests. (FY 2013 Base: \$35,230)

ii) Service Support Contracts Reduction \$ -4,271

In compliance with the Budget Control Act of 2011, the Air Force further reduced funding used to acquire service support contracts. The Air Force will focus remaining resources on those service support contracts that provide the greatest value to the Department in the most cost-effective way. (FY 2013 Base: \$208,789)

iii) Management Support Contracts Reduction \$ -3,254

In compliance with Executive Orders #13576, Defining an Efficient, Effective, and Accountable Government, and #13589, Promoting Efficient Spending, the Air Force reduced funding for management and service support contracts . The Air Force will focus remaining resources on those management and service support contracts that provide the greatest value to the Department in the most cost-effective way. (FY 2013 Base: \$208,789)

iv) Competitive Sourcing and Privatization \$ -2,046

Funds decreased consistent with the government-wide moratorium on the use of funds for public-private competitions. Section 325 of the National Defense Authorization Act for Fiscal Year 2010 (P.L. 111-84), prohibits the Department of Defense from beginning or announcing any public-private competitions. (FY 2013 Base: \$2,046)

v) Functional Application Information Technology (IT) Efficiency \$ -1,502

In compliance with the Budget Control Act of 2011, the Air Force continues to achieve efficiencies by taking a centralized review of proliferated applications across the Air Force enterprise. Reduction freezes development to synchronize new work with centralized infrastructure approach, reducing embedded IT cost within program lines. Also eliminates duplicate business and mission IT applications and establishes policies and procedures in business and mission systems to achieve efficiencies. (FY 2013 Base: \$993)

vi) Executive Order Travel Reduction \$ -476

In compliance with the Executive Orders on Promoting Efficient Spending to support Agency Operations

**DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Space Operations
Subactivity Group: Launch Operations**

dated 9 November 2011 and 11 May 2012, the Air Force will reduce travel expenses by utilizing more video and phone teleconferencing. The Air Force will also carefully analyze the necessity for conferences and schools held off site in an effort to reduce the overall dependency on travel funding. (FY 2013 Base: \$698)

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: Space Operations
Subactivity Group: Space Control Systems

I. Description of Operations Financed:

Space Operations Subactivity Group (SAG) is composed of Space Control Systems, Satellite Systems, and Other Space Operations. Space Control Systems in this SAG include the Air Force Satellite Control Network (AFSCN) and the Space and Missile Test Evaluation Center. AFSCN provides assured access to operational Department of Defense (DoD) and classified satellites and provides the global network of control centers, remote tracking stations and communications links required to operate national security satellites for both operations and research and development. AFSCN is the only United States system uniquely designed to recover tumbling satellites using high power commands in a specially selected radio-frequency spectrum. AFSCN provides funding for operations and maintenance, sustainment, communications, logistics and management of control centers, remote tracking stations and support elements at Vandenberg Air Force Base, California and Schriever Air Force Base, Colorado and eight remote tracking stations. The Space and Missile Test and Evaluation Center performs space test and support operations for National Security Space advanced technology satellites. The center performs vital pre-launch validation testing between ground elements and spacecraft. The program also supports telemetry collection from operational missions when no other site has the capability.

Satellite Systems in this SAG include the Defense Meteorological Satellite Program (DMSP) and Navigation Signal Timing and Ranging Global Positioning System (GPS). DMSP collects and disseminates global visible and infrared cloud imagery and other specialized atmospheric, land surface, oceanographic and space environment data to support worldwide DoD operations and high priority national programs. DMSP is the primary source of high-resolution weather imagery supporting critical Air Force, Navy, Army, and Marine Corps centralized and theater missions. GPS is a space-based radio navigation all weather system that provides 24-hour, extremely accurate three-dimensional positioning, velocity and time information to an unlimited number of U.S. and allied military and civil users worldwide. GPS satellites circle the globe every 12 hours, emitting continuous navigational signals.

Other Space Operations in this SAG include space mission activities conducted by United States Strategic Command (STRATCOM), United States Northern Command (NORTHCOM) and support activities for Air Force Space Command (AFSPC). The major component of this Subactivity Group is comprised of Space Situational Awareness Operations, a worldwide Space Surveillance Network of electro-optical, and radar sensors that provide space object cataloging and identification, satellite attack warning, notification of satellite flyover, space treaty monitoring, and scientific and technical intelligence gathering.

II. Force Structure Summary:

Space Control Systems facilities and equipment in this Subactivity Group (SAG) include two control nodes, 15 antennas located at eight remote tracking stations, and two transportable ground systems for emergency and spacecraft check-out missions. Satellite Systems in this SAG include DMSP and GPS satellite constellations. Other Space Operations in this SAG consist of the Space Surveillance Network (SSN), Counterspace Program, and the Space Test and Training Range (STTR). SSN is a worldwide system of dedicated optical and radar sensors along with additional contributing and collateral sensors and associated processing facilities. The Counterspace Program includes Offensive Counterspace and Defensive Counterspace that provide capabilities to allow friendly forces to exploit space capabilities while negating and preventing an adversary's ability to do the same. The STTR is maintained to safely and securely conduct training, testing and experimentation of counterspace capabilities.

 Budget Activity: Operating Forces
 Activity Group: Space Operations
 Subactivity Group: Space Control Systems**

Normalized FY 2013 Current Estimate.....	\$ 488,762
6. Price Change	\$ 7,994
7. Transfers.....	\$ 0
8. Program Increases	\$ 169
a) Annualization of New FY 2013 Program.....	\$ 0
b) One-Time FY 2014 Costs	\$ 0
c) Program Growth in FY 2014	\$ 169

i) Weapon System Sustainment..... \$ 169

Weapon System Sustainment is the enterprise level view of sustainment requirements in the Air Force.
 Within this Subactivity Group, Weapon System Sustainment includes the following program changes:

a. Sustaining Engineering: (\$ 163)

1) Navigation Satellite Timing and Ranging Global Positioning System (GPS): (\$ 163)
 Increased funding for reliability and maintainability analysis tasks for the 1980s based GPS ground segment infrastructure.

b. Technical Orders: (\$ 6)

1) Navigation Satellite Timing and Ranging Global Positioning System (GPS): (\$ 6)
 Increased funding for Emergency and Urgent Technical Manual Change Recommendation and Reply Forms and configuration and data management updates for operational and maintenance technical orders.
 (FY 2013 Base: \$29,353)

**DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces

Subactivity Group: Space Control Systems**

9. Program Decreases.....	\$ -63,267
a) One-Time FY 2013 Costs	\$ 0
b) Annualization of FY 2013 Program Decreases.....	\$ 0
c) Program Decreases in FY 2014.....	\$ -63,267
i) Internal Realignment	\$ 0
Internal realignment of funding between OP-32 lines within this Subactivity Group to program funding based on historical execution trends.	
ii) Civilian Pay Program	\$ -36,447
Funding decrease supports the net reduction of 444 full-time equivalents in the following programs (FY2013 Base: \$142,019; -444 WY):	
a.) Various Mission Realignment: Decrease realigns \$25,067 Thousand and 349 full-time equivalents to Subactivity Group 11C to accurately portray mission execution for Air Force Space Command Cyber Warfare and Air Operations Center support functions.	
b.) Manpower Freeze and Reductions: Decrease of \$11,380 Thousand and 95 full-time equivalents supports Air Force efforts to maintain civilian staffing at FY 2010 levels with limited exceptions. In addition, a comprehensive OSD-led review of areas where the Air Force could most prudently accept risk, while still being able to accomplish the mission, resulted in an additional 2.8% reduction of the civilian workforce.	
iii) Classified Programs	\$ -12,055
Information will be provided under separate cover upon request.	
iv) Management Support Contracts Reduction	\$ -7,240
In compliance with Executive Orders #13576, Defining an Efficient, Effective, and Accountable Government, and #13589, Promoting Efficient Spending, the Air Force reduced funding for management and service support contracts . The Air Force will focus remaining resources on those management and

 Subactivity Group: Space Control Systems**

service support contracts that provide the greatest value to the Department in the most cost-effective way.
 (FY 2013 Base: \$275,891)

v) Contract Insourcing Initiative..... \$ -5,179

The Air Force continues to reduce funding associated with programmed contractor-to-civilian conversions as part of the Department of Defense initiative to reduce its reliance on contractors and replace these positions with Department of Defense civilians. (FY 2013 Base: \$13,832)

vi) Administrative Travel Reduction..... \$ -2,346

In compliance with the Budget Control Act of 2011, the Air Force reduced funding for administrative travel by utilizing more video teleconferencing and phone teleconferencing. The Air Force will also carefully analyze the necessity for conference and schools held off site which will reduce the overall dependency on travel funds. (FY 2013 Base: \$9,853)

Exhibit OP-5, Subactivity Group 13C

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: COCOM
Subactivity Group: Combatant Commands Direct Mission Support

I. Description of Operations Financed:

Funding in this Subactivity Group supports the combatant commands (COCOM) and their mission to provide for the functional combatant capability and geographic worldwide mobility of United States (U.S.) forces. This funding is critical to defending the homeland and deterring foreign adversaries by executing the National Security Strategy and National Military Strategy of the U.S.

II. Force Structure Summary:

Combatant command direct mission funding supports the various geographic and functional missions assigned to support the U.S. National Security Strategy and National Military Strategy. The Air Force is the Combatant Command Support Agent (CCSA) for U.S. Central Command, U.S. Northern Command and North American Aerospace Defense Command, U.S. Special Operations Command, U.S. Strategic Command, and U.S. Transportation Command. As the CCSA, the Air Force is responsible for funding COCOM mission areas such as theater security cooperation, combating weapons of mass destruction, integrated air defense of U.S. air space, and associated planning and exercises to ensure combat readiness.

U.S. Central Command (CENTCOM) is the unified command responsible for the U.S. security interests in nations stretching from the Arabian Gulf region, to the Western portions of the Indian Ocean, and into Central Asia. The region comprises an area larger than the continental United States. CENTCOM maintains a significant forward presence in the area of responsibility consisting of combat forces from all four services. CENTCOM is responsible for all U.S. military engagement activities, planning, and operations. Additionally, CENTCOM is responsible for peacetime engagement planning and program execution for the five countries in the Central Asian Region: Turkmenistan, Uzbekistan, Kazakhstan, Kyrgyzstan, and Tajikistan.

The missions of U.S. Northern Command (NORTHCOM) and North American Aerospace Defense Command (NORAD) are complementary. NORTHCOM conducts homeland defense, civil support and security cooperation to defend and secure the U.S. and its interests. It defends America's homeland, protecting our people, national power and freedom of action. NORTHCOM also supports federal, state and National Guard partners in responding to natural and man-made disasters by maintaining close collaboration with Homeland Defense, security, and law enforcement partners. NORAD conducts persistent aerospace warning, aerospace control and maritime warning in the defense of North America by processing, assessing and disseminating intelligence and information related to the aerospace and maritime domains.

The U.S. Special Operations Command's (SOCOM) mission is to provide fully capable Special Operations Forces (SOF) to defend the U.S. and its interests, and to plan and synchronize operations against terrorist networks. To achieve this mission, SOCOM develops joint SOF tactics, techniques, and procedures for SOF commanders and staff to plan and lead a full range of lethal and non-lethal special operations missions in complex and ambiguous environments. Likewise, SOF personnel serve as key members of Joint, Interagency, and International teams and must be prepared to employ all assigned authorities and apply all available elements of power to accomplish assigned missions. In this capacity, SOF personnel must maintain the highest degree of professionalism, cultural awareness, responsiveness, and initiative.

U.S. Strategic Command (STRATCOM) provides global deterrence capabilities and synchronized Department of Defense (DoD) effects to combat adversary weapons of mass destruction worldwide. STRATCOM enables decisive global kinetic and non-kinetic combat effects through the application and advocacy of integrated intelligence, surveillance and reconnaissance (ISR); space and global strike operations; information operations; integrated missile defense and robust command and control. The command coordinates the planning, employment and operation of DoD strategic assets and combines all operations, intelligence, and global command and control operations to conduct combat and information operations, intelligence, logistics, joint exercises and training. U.S. Cyber Command (CYBERCOM), a subordinate unified command under STRATCOM, plans, coordinates, integrates, synchronizes and conducts activities to: direct the operations and defense of the DoD portion of the Global

Information Grid to assure timely and secure net-centric capabilities across strategic, operational, and tactical boundaries in support of DoD's full spectrum of warfighting and intelligence missions; prepare to, and when directed, attack adversaries in and through cyberspace in order to enable actions in all domains, ensure U.S. and Allied freedom of action in cyberspace and to deny the same to our adversaries.

The U.S. Transportation Command (TRANSCOM) is a unified combatant command with missions assigned by the President in the Unified Command Plan. TRANSCOM's responsibilities, functions, relationships, and authorities are delineated further in DoD Directive 5158.04. "United States Transportation Command," including its role as the Distribution Process Owner (DPO). As DPO, TRANSCOM implements policy for overseeing, coordinating, and DoD-wide distribution processes, including force projection, sustainment, redeployment, and retrograde operations. TRANSCOM is also the Mobility Joint Force Provider, identifying and recommending global joint sourcing solutions for all mobility forces and capabilities, and supervising the implementation of sourcing decisions. TRANSCOM is also DoD's Single Manager for Transportation, providing common-user and commercial air, land, and sea transportation, terminal management, and aerial refueling support.

6. Price Change	\$ 14,263
7. Transfers.....	\$ 0
8. Program Increases	\$ 338,779
a) Annualization of New FY 2013 Program.....	\$ 0
b) One-Time FY 2014 Costs	\$ 0
c) Program Growth in FY 2014	\$ 338,779
i) Classified Programs	\$ 338,779
Adjustments were made to classified programs. Details will be provided under separate cover upon request.	
9. Program Decreases.....	\$ -70,005
a) One-Time FY 2013 Costs	\$ 0
b) Annualization of FY 2013 Program Decreases.....	\$ 0
c) Program Decreases in FY 2014.....	\$ -70,005
i) Internal Realignment	\$ 0
Internal realignment of funding between OP-32 lines within this Subactivity Group to program funding based on historical execution trends.	
ii) Civilian Pay Program	\$ -46,339
Funding decrease supports a net reduction of 430 full-time equivalents in the following programs (FY 2013	

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Activity Group: COCOM
Subactivity Group: Combatant Commands Direct Mission Support

Base: \$251,765; -430 W/Y):

a.) Manpower Freeze and Reductions: Decrease of \$2,040 Thousand and 20 full-time equivalents supports Air Force efforts to maintain civilian staffing at FY 2010 levels with limited exceptions. In addition, a comprehensive OSD-led review of areas where the Air Force could most prudently accept risk, while still being able to accomplish the mission, resulted in an additional 2.8% reduction of the civilian workforce.

b.) Unified Command Plan Review: Decrease of \$5,226 Thousand and 44 full-time equivalents as a result of the Unified Command Plan (UCP) review led by Joint Staff in coordination with the COCOMs and Services.

c.) Combatant Command Manpower Adjustment: Decrease of \$39,703 Thousand and 366 full-time equivalents in order to more closely align with the quantities authorized by the Joint Table of Distribution (JTD) and to better align with execution. This action impacted STRATCOM and CENTCOM.

iii) Unified Command Plan Review..... \$ -15,255
 Funding reduced for operations and support based upon a Joint Staff led review in coordination with the Combatant Commands and Services. (FY 2013 Base: \$85,288)

iv) Nuclear Command and Control Modernization \$ -4,382
 Reduced funding for sustainment efforts due to realized modernization efforts for Nuclear Command and Control, which include Mission Planning, Analysis Systems, Nuclear Command and Control Integration programs. (FY 2013 Base: \$4,382)

v) Competitive Sourcing and Privatization \$ -4,029
 Funds decreased consistent with the government-wide moratorium on the use of funds for public-private competitions. Section 325 of the National Defense Authorization Act for Fiscal Year 2010 (P.L. 111-84), prohibits the Department of Defense from beginning or announcing any public-private competitions. (FY 2013 Base: \$54,790)

Activity Group: COCOM
Subactivity Group: Combatant Commands Core Operations

I. Description of Operations Financed:

Funding supports the operation and administration of the combatant command (COCOM) headquarters staff, including civilian pay, travel, supplies, and training.

II. Force Structure Summary:

Combatant command direct mission funding supports the various geographic and functional missions assigned to support the U.S. National Security Strategy and National Military Strategy. The Air Force is the Combatant Command Support Agent (CCSA) for United States Central Command, United States Northern Command and North American Aerospace Defense Command, United States Special Operations Command, United States Strategic Command, and United States Transportation Command. As the CCSA, the Air Force is responsible for funding COCOM mission areas such as theater security cooperation, combating weapons of mass destruction, integrated air defense of United States air space, and associated planning and exercises to ensure combat readiness.

United States Central Command (CENTCOM) is the unified command responsible for the United States security interests in nations stretching from the Arabian Gulf region, to the Western portions of the Indian Ocean, and into Central Asia. The region comprises an area larger than the continental United States. CENTCOM maintains a significant forward presence in the area of responsibility consisting of combat forces from all four Services. CENTCOM is responsible for all United States military engagement activities, planning, and operations. Additionally, CENTCOM is responsible for peacetime engagement planning and program execution for the five countries in the Central Asian Region: Turkmenistan, Uzbekistan, Kazakhstan, Kyrgyzstan, and Tajikistan.

The missions of United States Northern Command (NORTHCOM) and North American Aerospace Defense Command (NORAD) are complementary. NORTHCOM conducts homeland defense, civil support and security cooperation to defend and secure the United States and its interests. It defends America's homeland, protecting our people, national power and freedom of action. NORTHCOM also supports federal, state and National Guard partners in responding to natural and man-made disasters by maintaining close collaboration with Homeland Defense, security, and law enforcement partners. NORAD conducts persistent aerospace warning, aerospace control and maritime warning in the defense of North America by processing, assessing and disseminating intelligence and information related to the aerospace and maritime domains.

The United States Special Operations Command's (SOCOM) mission is to provide fully capable Special Operations Forces (SOF) to defend the United States and its interests, and to plan and synchronize operations against terrorist networks. To achieve this mission, SOCOM develops joint SOF tactics, techniques, and procedures for SOF commanders and staff to plan and lead a full range of lethal and non-lethal special operations missions in complex and ambiguous environments. Likewise, SOF personnel serve as key members of Joint, Interagency, and International teams and must be prepared to employ all assigned authorities and apply all available elements of power to accomplish assigned missions. In this capacity, SOF personnel must maintain the highest degree of professionalism, cultural awareness, responsiveness, and initiative.

United States Strategic Command (STRATCOM) provides global deterrence capabilities and synchronized Department of Defense (DoD) effects to combat adversary weapons of mass destruction worldwide. STRATCOM enables decisive global kinetic and non-kinetic combat effects through the application and advocacy of integrated intelligence, surveillance and reconnaissance; space and global strike operations; information operations; integrated missile defense and robust command and control. The command coordinates the planning, employment and operation of DoD strategic assets and combines all operations, intelligence, and global command and control operations to conduct combat and information operations, intelligence, logistics, joint exercises and training. United States Cyber Command (CYBERCOM), a subordinate unified command under STRATCOM, plans, coordinates, integrates, synchronizes and conducts activities to: direct the operations and defense of the DoD portion of the

Global Information Grid to assure timely and secure net-centric capabilities across strategic, operational, and tactical boundaries in support of DoD's full spectrum of warfighting and intelligence missions; prepare to, and when directed, attack adversaries in and through cyberspace in order to enable actions in all domains, ensure United States and Allied freedom of action in cyberspace and to deny the same to our adversaries.

The United States Transportation Command (TRANSCOM) is a unified combatant command with missions assigned by the President in the Unified Command Plan. TRANSCOM's responsibilities, functions, relationships, and authorities are delineated further in DoD Directive 5158.04, "United States Transportation Command," including its role as the Distribution Process Owner (DPO). As DPO, TRANSCOM implements policy for overseeing, coordinating, and DoD-wide distribution processes, including force projection, sustainment, redeployment, and retrograde operations. TRANSCOM is also the Mobility Joint Force Provider, identifying and recommending global joint sourcing solutions for all mobility forces and capabilities, and supervising the implementation of sourcing decisions. TRANSCOM is also DoD's Single Manager for transportation, providing common-user and commercial air, land, and sea transportation, terminal management, and aerial refueling support.

b) One-Time FY 2014 Costs	\$ 0
c) Program Growth in FY 2014	\$ 9,043
i) Civilian Pay Program.....	\$ 9,043
Funding increase supports a net growth of 122 full-time equivalents in the following programs (FY 2013 Base: \$195,236; 122 W/Y):	
a.) Manpower Freeze Exceptions: As part of the Department of Defense reform agenda, adds \$2,191 Thousand and 37 civilian full-time equivalents in order to maintain, with limited exceptions, civilian staffing at the FY 2010 level.	
b.) Combatant Command Manpower Adjustment: Increase of \$3,510 Thousand and 45 full-time equivalents to the US Central Command (CENTCOM), US Strategic Command (STRATCOM), and US Northern Command (NORTHCOM) as part of the United States Joint Forces Command Restructure Force Initiative.	
c.) Combatant Command Manpower Adjustment: Increase of \$3,342 Thousand and 40 full-time equivalents in order to more closely align with the quantities authorized by the Joint Table of Distribution (JTD) and to better align with execution. This action impacted STRATCOM.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Mobilization
Activity Group: Mobility Operations
Subactivity Group: Airlift Operations

I. Description of Operations Financed:

Airlift operations support day-to-day mission activity for C-17 and C-5 strategic airlift, C-130 tactical airlift, KC-10 and KC-135 strategic air refueling, and Operational Support Airlift (OSA) and Very Important Person Special Airlift Missions (VIPSAM) for movement of personnel, cargo, and fuel with time, place, or mission-sensitive requirements. Activity includes headquarters operations at Air Mobility Command, its detachments, the Air Force District of Washington and Numbered Air Force headquarters.

Airlift operations include the entire spectrum of aircrew training activities directly related to formal training unit and proficiency training for C-130, C-5, C-17, C-12, and C-21 aircrews. Program funding supports direct costs associated with training and operating KC-135 and KC-10 air refueling aircraft.

OSA and VIPSAM operations including the operation of C-12, C-20, C-21, and Air Force One (VC-25) are used by the President of the United States. C-32A, C-40B/C and C-37A/B are used by the Vice President of the United States, Cabinet Members and other high ranking dignitaries.

Funding for aircrew training systems is also included in this Subactivity Group, which supports weapon system trainers, operational flight trainers and cockpit procedural trainers. Other airlift and air refueling operations programs include combat aircrew training. The Airlift Readiness Account funds the military airlift capacity not being fully utilized during peacetime but required to support contingency operations. Airlift command, control, communications and intelligence is also included in this Subactivity Group.

II. Force Structure Summary:

Airlift and air refueling operations support the Air Mobility Command, Scott AFB, IL, which serves as the Air Force component of United States. Transportation Command and Air Force District of Washington, Washington, DC. This Subactivity Group also supports one Numbered Air Force at Scott AFB, IL, the Expeditionary Center at Joint Base McGuire, Dix, Lakenhurst, NJ (JBMDL) and the Tanker Airlift Control Center located at Scott AFB, IL.

Normalized FY 2013 Current Estimate.....	\$ 1,785,379
6. Price Change	\$ 33
7. Transfers.....	\$ 0
8. Program Increases	\$ 242,832
a) Annualization of New FY 2013 Program.....	\$ 0
b) One-Time FY 2014 Costs	\$ 0
c) Program Growth in FY 2014	\$ 242,832
i) Airlift Readiness Account (ARA)	\$ 150,000
Increase reflects funding for Airlift Readiness Account, which is used to fund military airlift capacity not being fully utilized during peacetime but required to support contingency operations capability. This includes the difference between the full cost of channel missions and those addressed in the channel rates that are set to be competitive with commercial carriers. Increase is necessary to mitigate a potential shortfall in the Transportation Working Capital Fund's (TWCF) cash position in FY 2014. This increase reflects the single year funding for the ARA program within TWCF.	
ii) Flying Hour Program	\$ 49,242
The FY 2014 Flying Hour Program provides hours for: 1) Air Force aircrew production, 2) continuation of basic combat flying skills, 3) aircrew experiencing requirements, and 4) unit specific mission requirements. The FY 2014 Flying Hour Program reflects an update to consumption estimates ("cost per flying hour").	
Beginning in FY 2011 and continuing through FY 2014 the Air Force Flying Hour Program is optimized for executing peacetime and Overseas Contingency Operations (OCO) flying hours. This was based on historical analysis of previous execution levels. The Air Force will continue to work on optimizing the Flying Hour Program to refine the balance between baseline and contingency funding.	

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Mobilization
Activity Group: Mobility Operations
Subactivity Group: Airlift Operations

The summation of these changes will allow the Air Force to deliver trained aircrews to meet its major combat operations commitments. The following is a detailed breakout of the program changes by aircraft: KC-10A (\$42,341, 140 hours); C-12F (-\$14, 20 hours); C-12J (-\$41, 0 hours); C-17A (\$6,991, 60 hours); C-20B (-\$2,160, -980 hours); C-20C (-\$937, -406 hours); C-20H (\$230, 15 hours); C-21A (-\$1,939, -2,721 hours); VC-25A (\$654, 10 hours); C-32A (-\$2,020, -557 hours); C-37A (-\$121, 120 hours); C-40 (\$963, -18 hours); C-40C (\$140, 0 hours); C-130E (-\$1,119, -140 hours); C-130H (-\$48,678, -5,512 hours); C-130J (-\$11,823, -5,092 hours); KC-135R (\$45,857, -1,168 hours); KC-135T (\$20,312, 784 hours); UH-1N (\$606, 552 hours).

Note: Net adjustment in dollars may not always follow in the direction of the hour change due to the consumption updates for aircraft in FY 2014.

iii) Airlift Training..... \$ 27,544
 Supports currency requirements of aircrews on tactical airlift, airdrop and aeromedical evacuations. (FY 2013 Base: \$427,019)

iv) Civilian Pay Program..... \$ 8,143
 Funding increase supports the net growth of 93 full-time equivalents in the following programs (FY 2013 Base: \$197,039; 93 W/Y):

a.) Manpower Freeze Exceptions: As part of the Department of Defense reform agenda, adds \$8,445 Thousand and 85 civilian full-time equivalents in order to maintain, with limited exceptions, civilian staffing at the FY 2010 level.

b.) Insourcing: Increase of \$718 Thousand and 17 full-time equivalents supports programmed contractor-to-civilian conversions. As part of the Department of Defense's (DoD) initiative to reduce its reliance on contractors, the Air Force continues to reduce its contractor workforce and replace these positions with DoD civilians.

c.) Installation Support Efficiencies: Decrease of \$1,020 Thousand and nine full-time equivalents as a result of consolidating installation support functions currently embedded in 10 Major Commands, three Direct

Subactivity Group: Airlift Operations

Reporting Units, and four Field Operating Agencies into a single Direct Reporting Unit.

v) Weapon System Sustainment..... \$ 7,903

Weapon System Sustainment is the enterprise level view of sustainment requirements in the Air Force.

Within this Subactivity Group, Weapon System Sustainment includes the following program changes:

a. Sustaining Engineering: (\$ 2,879)

1) KC-135: (\$ 1,686)

Increased funding for studies due to the identification of new KC-135 Aircraft Structural Integrity Program tasks. Tasks include: planning a phase start for an upper wing skin replacement program; a study phase for transitions to new Durability and Damage Tolerance Assessment tools; and designing a program to demonstrate the durability of KC-135 structural components.

2) C-130: (\$ 1,193)

Increased funding for C130 maintenance technical data analysis for the development of source data to detail specific maintenance requirements and generic maintenance processes. Provides accurate, detailed and comprehensive technical order data packages for technicians, ensuring all maintenance items are inspected and repaired accurately, and properly installed.

b. Technical Orders: (\$ 5,024)

1) KC-135: (\$ 2,583)

Increased funding for technical order maintenance due to adoption of integrated data for organic technical order sustainment maintenance.

2) C-130: (\$ 2,383)

Increased funding for C-130 technical orders due to one-time requisition printing requests increase and a new Air Mobility Command field user distribution task.

3) C-130J: (\$ 58)

Increased funding due to establishment of new task for Special Operations Forces and Personnel Recovery

Budget Activity: Mobilization
Activity Group: Mobility Operations
Subactivity Group: Airlift Operations

technical order distribution to field users. (FY 2013 Base: \$32,704)

9. Program Decreases.....	\$ -12,342
a) One-Time FY 2013 Costs	\$ 0
b) Annualization of FY 2013 Program Decreases.....	\$ 0
c) Program Decreases in FY 2014.....	\$ -12,342
i) Internal Realignment	\$ 0
Internal realignment of funding between OP-32 lines within this Subactivity Group to program funding based on historical and projected execution trends. (FY 2013 Base: \$93,566)	
ii) Mobility Air Force Automated Flight Planning Service Efficiency Investment.....	\$ -6,302
Reduce funding for the Mobility Air Force Automated Flight Planning Service by providing optimized flight funding plans for mission success and least cost or time which enable machine-to-machine filing capability and iterative filing for best routing, reducing delay and improving fuel efficiency. (FY 2013 Base: \$32,044)	
iii) Functional Application Information Technology (IT) Efficiency	\$ -4,312
In compliance with the Budget Control Act of 2011, the Air Force continues to achieve efficiencies by taking a centralized review of proliferated applications across the Air Force enterprise. Reduction freezes development to synchronize new work with centralized infrastructure approach, reducing embedded IT cost within program lines. Also eliminates duplicate business and mission IT applications and establishes policies and procedures in business and mission systems to achieve efficiencies.	
iv) Executive Order Travel Reduction	\$ -1,728
In compliance with the Executive Orders on promoting efficient spending to support agency operations dated 9 November 2011 and 11 May 2012, the Air Force will reduce travel expenses by utilizing more video and phone teleconferencing. In conjunction, the Air Force will also carefully analyze the necessity for conferences and schools held off site in an effort to reduce the overall dependency on travel funding. (FY

Operation and Maintenance, Air Force
Budget Activity: Mobilization
Activity Group: Mobility Operations
Subactivity Group: Mobilization Preparedness

I. Description of Operations Financed:

Mobilization preparedness supports mobility operations with the capability to sustain contingency operations and wartime requirements through the provision and repositioning of war readiness materials, theater nuclear weapon storage and security systems, industrial preparedness, inactive aircraft storage, deployable contingency hospitals and clinics, and installation Medical Counter-Chemical, Biological, Radiological, Nuclear (C-CBRN) Installation Response Program.

The Medical C-CBRN Installation Response Program increases the installation's capability to respond and generate the mission after an incident and provides the installation with specific medical capabilities necessary to properly respond, identify CBRN agents and treat CBRN casualties after an incident.

Funding supports the maintenance and repair of portable hospitals, clinics and other medical war readiness materials; from critical care-in-the-air to man-portable medical care at the forward edge of the battle area.

II. Force Structure Summary:

Mobilization preparedness activities employ approximately 3,055 active duty military members and about 349 civilians employees supporting requirements in 10 Major Commands, 76 in-garrison installations, overseas nuclear storage sites and overseas contingency hospitals.

Normalized FY 2013 Current Estimate.....	\$ 154,049
6. Price Change	\$ 804
7. Transfers.....	\$ 0
8. Program Increases	\$ 6,346
a) Annualization of New FY 2013 Program.....	\$ 0
b) One-Time FY 2014 Costs	\$ 0
c) Program Growth in FY 2014	\$ 6,346
i) Afloat Preposition Fleet	\$ 4,914
Increase funds Global Force Manager (GFM) preposition requirement allows for 120-day lease overlap in FY14 assuring two vessel theater presence in GFM during Department of Transportation reconstitution. (FY 2013 Base: \$23,081)	
ii) Weapon System Sustainment.....	\$ 920
Weapon System Sustainment is the enterprise level view of sustainment requirements in the Air Force. Within this Subactivity Group, Weapon System Sustainment includes the following program changes:	
a. Sustaining Engineering: (\$ 1,203)	
1) War Reserve Materiel Ammunition Operations: (\$ 1,203)	
Increased funding for new Joint Direct Attack Munition aircraft weapon system support tasks due to funding moving from acquisition to sustainment. Tasks include updating documentation for test assets including telemetry, ground transport vehicles, and test support equipment.	
b. Technical Orders: (\$ -283)	
1) War Reserve Materiel Ammunition Operations: (\$ -283)	
Decreased funding in armament sustainment technical orders due to reduction of direct labor associated	

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Mobilization
Activity Group: Mobility Operations
Subactivity Group: Mobilization Preparedness

with the following functions: indexing, sustainment, digitization, revision, rewrite, stocking, storing and issuance of munitions technical orders. (FY 2013 Base: \$8,282)

iii) Air Force Combat Ammunition Center Courses \$ 512
 Increased funding for approximately 300 additional munitions personnel to attend required skill level upgrade training to meet career field educational requirements. Funding ensures development of combat forces is paired with effective training and that personnel assigned to munitions support unit types codes are able to meet Combatant Command Munitions production and delivery requirements. (FY 2013 Base: \$32,315)

9. Program Decreases.....\$ -13,983

a) One-Time FY 2013 Costs \$ 0

b) Annualization of FY 2013 Program Decreases..... \$ 0

c) Program Decreases in FY 2014.....\$ -13,983

i) War Reserve Material (WRM) and Basic Expeditionary Airfield Resource (BEAR) \$ -8,076
 Reduction due to consolidation of storage facility contract support for WRM outside the Continental United States and adjusting maintenance requirements for BEAR assets; mobile aircraft arresting system and headquarter BEAR management. WRM sustains prepositioned assets to enable beddown capability to augment forces in support of strategic objectives. (FY 2013 Base: \$45,805)

ii) Civilian Pay Program \$ -5,907
 Funding decrease supports the net reduction of 53 full-time equivalents in the following programs (FY 2013 Base: \$29,397; -53 W/Y):

a.) Various Mission Realignment: Decrease realigns \$5,550 Thousand and 50 full-time equivalents to Subactivity Group 11C to accurately portray mission execution.

b.) Manpower Freeze and Reductions: Decrease of \$545 Thousand and six full-time equivalents supports

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Mobilization
Activity Group: Mobility Operations
Subactivity Group: Mobilization Preparedness

Air Force efforts to maintain civilian staffing at FY 2010 levels with limited exceptions. In addition, a comprehensive OSD-led review of areas where the Air Force could most prudently accept risk, while still being able to accomplish the mission, resulted in an additional 2.8% reduction of the civilian workforce.

c.) Ministry of Defense: Increase of \$188 Thousand and three full-time equivalents supports proper funding of foreign nationals at the United Kingdom (UK) Ministry of Defense. The foreign national payroll was previously reimbursed to the UK and this action aligns the foreign nationals as indirect hire civilians.

<u>Afloat Prepositioning Fleet (APF)</u>	2	2	2
<u>Air Mobility Command (AMC) En-route Support Locations*****</u>	184	184	184

*** Major WRM storage sites are defined as those that provide support to primary Air Force operating locations. These forward operating locations support aircraft deployments of up to three squadrons of tactical fighter aircraft (72 PAA) with a base population of 3,300 personnel. Support packages include fuels support, aircraft tanks, pylons, racks, adapters, vehicles, aircraft generation equipment, rations, and other direct equipment mission support.

**** Minor WRM storage sites are defined as main operating bases that store WRM required for additive forces. Support packages include fuels support, aircraft tanks, vehicles, aircraft generation equipment, rations, and other direct equipment mission support.

***** En-route support locations store primarily WRM Materiel Handling Equipment (MHE) and Aerial Port Squadron (APS) assets to provide support to strategic airlift operations. This consists of 158,000 line items costing in excess of \$1B.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Mobilization
Activity Group: Mobility Operations
Subactivity Group: Depot Maintenance

I. Description of Operations Financed:

The Air Force enhances the management and programming for Total Force sustainment requirements by reviewing sustainment requirements at the enterprise level. This concept, Weapon System Sustainment (WSS), includes Depot Purchased Equipment Maintenance (DPEM), Contractor Logistics Support (CLS), Sustaining Engineering (SE) and Technical Orders (TO) commodities. The Air Force determines WSS funding levels for each primary weapon system and program by allocating resources between the four commodities to meet operational capabilities (i.e. aircraft availability) for Total Air Force and Combatant Commander requirements. Within WSS, DPEM encompasses funding for required organic, contract and interservice depot level maintenance and CLS encompasses funding required for contract support to include depot level maintenance. SE and TO programs for the Mobilization Budget Activity are funded in Subactivity Groups 21A and 21D.

DPEM funds eight different commodity groups through organic and/or contract depot work (organic depot is work performed by Air Logistics Complex workforce in an Air Force facility and contract depot is work contracted by Air Logistics Complexes to be performed by a contract workforce at a commercial facility):

1. Aircraft: primarily aircraft Programmed Depot Maintenance (PDM), non-PDM aircraft (i.e., helicopters and A-10s) and aircraft damage repair;
2. Engine: overhaul and repair of aircraft and missile engines;
3. Missiles: overhaul of missile systems such as Minuteman and air launched cruise missiles;
4. Other Major End Items (OMEI): overhaul and repair of special purpose vehicles (trailers, fire trucks, refuelers, loaders, sweepers, etc), Automated Test Equipment (ATE) and common support equipment (avionics and electronic warfare test stations, bore scopes, and Non-Destructive Inspection (NDI) equipment, etc.);
5. Software: correct deficiencies in embedded weapon system software;
6. Non-Working Capital Fund exchangeables: repair of items such as missile guidance sets and launchers, pylons and bomb racks, fuel tanks, cargo pallets and nets;
7. Area and Base Support (ABS): provides support to areas and bases beyond their normal capabilities such as Precision Measurement Equipment Laboratory calibration support; and
8. Storage: maintenance of assets removed from active inventories.

Contractor Logistics Support (CLS) funds contract support for a program, system, training system, equipment or item used to provide all or part of the sustainment elements in direct support of an approved sustainment strategy. CLS covers a variety of support elements: repair, flying hours (commodities), materiel management, configuration management, technical data management, sustaining engineering, training, supply and repair parts management, failure reporting and analysis, distribution, depot level maintenance, contract and/or partner maintenance, and operating command organizational maintenance. Though CLS is contract maintenance, there is some organic depot maintenance work accomplished through partnerships and work-sharing (e.g. F-22 work at Ogden Air Logistics Complex (ALC), Utah and KC-10 paint and F117 and F119 engine overhauls at Oklahoma City ALC, Oklahoma).

II. Force Structure Summary:

In this Subactivity Group, DPEM and CLS support the readiness of the Air Force's mobilization, deployment, airlift and air refueling forces. These assets, which include the C-5, C-17, C-130, KC-10, and KC-135 aircraft, provide the United States with the capability of meeting the nation's mobility needs in both peacetime and wartime environments.

Ongoing efforts to meet Congressional intent required the movement of all Contractor Logistics Support from SAG 21A into SAG 21M. Contractor Logistics Support (CLS)

a. C-17: (\$ 29,399)	
Increased engine support for the Mobility Readiness Spares Packages and engine materials due to projected engine replacement program.	
b. C-32: (\$ 14,624)	
Increased funds based on scheduled need to minimize total life cycle management cost without mission degradation (\$10 Million) and increase for component spare repairs and replenishment (\$4.624 Million) due to aging aircraft. Provides Diminishing Manufacturing Sources (DMS) tasks to identify, review, develop, and evaluate design alternatives and solutions.	
c. C-37: (\$ 11,949)	
Increased funding for flight line maintenance. New contract provides personnel labor, contractor maintenance support and spares.	
d. KC-135: (\$ 7,605)	
Increase in the contractor support for aircrew training systems as a result of nine new Boom Operator Weapon System Trainers being incorporated into the Aircrew Training System contract.	

**DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Mobilization
Activity Group: Mobility Operations
Subactivity Group: Depot Maintenance**

e. KC-10: (\$ 6,424)

Increased funding for additional costs for repair and replenishment of parts and support equipment based on projected flying hours.

f. C-5: (\$ 2,891)

Increased contractor support for the standup and support of new C-5M Flying Training Unit at Dover Air Force Base. New requirement will support cadre of instructors, courseware, and an expansion of training operations.

g. VC-25: (\$ 2,113)

Increased contractor support for heavy maintenance based on historical execution.

h. Halvorsen Loader: (\$ 1,900)

Increase of \$1.9 Million due to Halvorsen depot overhaul schedule being slipped by one year.

i. C-21: (\$ -7,544)

Decrease in contractor support due to divestiture of eleven C-21 aircraft. (FY 2013 Base: \$1,094,915)

ii) KC-10 \$ 9,991

Organic Depot: Increased organic aircraft support for 10 KC-10 paints at approximately \$0.999 Million each.

iii) KC-135..... \$ 3,251

Organic Depot: Increased \$27.671 Million for three programmed depot maintenance (PDM) actions at approximately \$9.224 Million each and an increase of one engine overhaul at approximately \$1.7 Million due to schedule changes. An additional decrease of \$38.669 Million due to decreased cost of propulsion upgrade kits for engine overhauls.

Contract Depot: Increased \$10.608 Million for the Fuel Management Advisory Computer (FMAC) and Flight Management Function contract software support due to increase software block updates (Blocks 40.6 - 40.8) and rehost of FMAC to another on-board computer (Integrated Processing Center) due to

FMAC growing obsolescence issues. Also, increased cost of \$1.941 Million for two KC-135s scheduled for contract programmed depot maintenance at approximately \$0.970 Million each due to contract quantity banding and effects of higher unit costs due to a decrease in number of maintenance unit inputs.

9. Program Decreases.....	\$ -38,861
a) One-Time FY 2013 Costs	\$ 0
b) Annualization of FY 2013 Program Decreases.....	\$ 0
c) Program Decreases in FY 2014.....	\$ -38,861
i) C-130.....	\$ -37,537
Organic Depot: Reduced \$15.178 Million for three less C-130 organic programmed depot maintenance actions based on induction schedule at approximately \$5.059 Million each.	
Contract Depot: Reduced \$13.184 Million due to slip in program schedule of C-130 AMP software block support. Reduced \$5.16Million for one less C-130 contract programmed depot maintenance actions based on induction schedule. Also reduced \$4.015 Million for three less contract engine overhauls.	
ii) War Reserve Materiel Ammunition.....	\$ -1,324
Organic Depot: Reduced \$1.324 Million to move refurbishment exchangeable workload of 7,500 Mark-82 bombs per year from Depot Maintenance Interservice Agreement (DMISA) to contract.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Mobilization
Activity Group: Mobility Operations

Subactivity Group: Facilities Sustainment and Restoration/Modernization and Demolition Programs

I. Description of Operations Financed:

Facilities Sustainment functions include maintenance and repair activities and projects. This Subactivity Group sustains Air Force District of Washington (AFDW) and Air Mobility Command (AMC) operating installations. Facilities Sustainment activities ensure installation facilities, utility systems and infrastructure are capable of fully supporting mission requirements throughout their economic lives.

Sustainment is performed through a combination of in-house workforce and contracts. Sustainment includes the maintenance and repair activities necessary to keep an inventory of facilities in good working order. It includes regularly scheduled adjustments and inspections, preventive maintenance tasks and emergency response and service calls for minor repairs. It also includes major repairs or replacement of facility components (usually accomplished by contract) that are expected to occur periodically throughout the life cycle of facilities. This work includes regular roof replacement, refinishing of wall surfaces, repairing and replacement of heating and cooling systems, replacing tile and carpeting and similar types of work. It does not include environmental compliance costs, facility leases or other tasks associated with facilities operations (such as custodial services, grounds services, waste disposal and the provision of central utilities).

The Department of Defense (DoD) Facilities Sustainment Model (FSM) is used as the standardized model for forecasting facilities sustainment resource requirements. In anticipation of cost savings, the Air Force funded FY 2014 sustainment at 80 percent of the FSM labor and material cost. The FSM uses the following formula to develop the sustainment requirement:

Annual sustainment requirement = facility quantity x sustainment cost factor x location factor x inflation

Facility quantity - the facility size expressed in the Facility Analysis Category (FAC) unit of measure (such as square feet)

Sustainment cost factor - the average annual unit cost (in current year dollars) for sustaining the average size facility in the given FAC

Location factor - a location adjustment based upon the local costs for labor, equipment, materials and currency exchange rates (overseas) compared with an overall base-city average

Inflation - factor to adjust current year prices to the target future year

The Department uses a sustainment metric which is the comparison of sustainment funding to the requirement for a given year, expressed as a rate.

Sustainment rate (%) = sustainment funding/FSM requirement

Restoration means the restoration of real property to such a condition that it may be used for its designated purpose. Restoration includes repair or replacement work to restore facilities damaged by inadequate sustainment, excessive age, natural disaster, fire, accident or other causes.

Modernization means the alteration or replacement of facilities solely to implement new or higher standards, to accommodate new functions or to replace building components that typically last more than 50 years (such as the framework or foundation). Modernization also includes infrastructure repairs and minor construction to

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Mobilization
Activity Group: Mobility Operations

Subactivity Group: Facilities Sustainment and Restoration/Modernization and Demolition Programs

accommodate changes in mission requirements, including new mission beddowns. Modernization is critical to ensure aging facilities remain capable of supporting mission requirements as they evolve over the long lives of facilities and infrastructure systems.

Recapitalization means the major renovation or reconstruction activities (including facility replacements) needed to keep existing facilities modern and relevant in an environment of changing standards and missions. Recapitalization extends the service life of facilities or restores lost service life. It includes restoration and modernization of existing facilities.

Plant Replacement Value (PRV) is used as the basis for generating recapitalization requirements. The DoD standardized formula for calculating PRV is:

PRV = facility quantity x construction cost factor x location factor x Planning & Design (P&D) factor x historical factor x contingency factor x Supervision, Inspection and Overhead (SIOH) x inflation

Facility quantity - the facility size expressed in the FAC unit of measure (such as square feet)

Construction cost factor - the average annual unit cost (in current year dollars) for constructing the average size facility to current standards in the given FAC

Location factor - a location adjustment based upon the local costs for labor, equipment, materials and currency exchange rates (overseas) compared with an overall base-city average

P&D factor - an adjustment to account for typical project planning and design costs

Historical factor - an adjustment for historical architecture and materials (when applicable)

Contingency factor - an adjustment for typical contingency costs during construction

SIOH - an adjustment for supervision, inspection and overhead costs associated with construction management

Inflation - factor to adjust current year prices to the target future year

Demolition is performed primarily by contract. Facilities and infrastructure are demolished to free space for future construction and to eliminate obsolete facilities from the real property inventory. Demolition is a key component of the Air Force strategy to consolidate functions, vacate excess and obsolete facilities and focus sustainment, restoration and modernization funding on facilities intended to function well into the future.

The most significant categories receiving this support are sustainment, restoration and modernization of real property, including:

Aircraft maintenance and generation complexes
Airfield runways, taxiways and ramps

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Mobilization

Subactivity Group: Facilities Sustainment and Restoration/Modernization and Demolition Programs

Critical infrastructure, including utility systems
Command and control facilities
Intelligence gathering and analysis facilities
Dormitories and dining facilities
Training ranges and supporting infrastructure
Administrative support facilities for coalition partners

II. Force Structure Summary:

The Air Force has initiated a Civil Engineering Transformation and is beginning to implement a multi-pronged asset management approach to centralize, standardize, streamline, re-organize and enhance efficiency at all levels of the Civil Engineering enterprise. Through increased centralization, improved management and oversight of requirements, comprehensive program development and efficient execution, the Air Force will better apply its limited resources and reduce risk to mission and Airmen. This effort significantly helps the Air Force meet its overall objectives, in terms of dollars and manpower reductions and will assist the Air Force to better prioritize its future requirements in a fiscally constrained environment. To enable enterprise-wide investments in the built-asset portfolio, the Air Force has centralized prioritization of large life-cycle Sustainment repair and all Restoration and Modernization (including demolition) projects. In FY 2014, the Air Force realigned funding in support of these activities from Subactivity Groups 21R, 31R, and 41R to Subactivity Group 11R.

Supports Facilities Sustainment at Air Mobility Command (AMC) and Air Force District of Washington (AFDW) installations.

Activity Group: Mobility Operations**

Subactivity Group: Facilities Sustainment and Restoration/Modernization and Demolition Programs

Normalized FY 2013 Current Estimate.....	\$ 309,699
6. Price Change	\$ 5,031
7. Transfers.....	\$ -164,057
a) Transfers In	\$ 5,904
i) Restoration and Modernization Transportation Working Capital Fund (TWCF)	\$ 5,904
Increase reflects transfer from Subactivity Group 11R to provide support funding for TWCF Restoration activities for requirements undertaken at eligible TWCF installations.	
b) Transfers Out	\$ -169,961
i) Facilities Sustainment, Restoration and Modernization Centralization.....	\$ -169,961
Decrease reflects transfer to Subactivity Group 11R. The Air Force is centralizing all Restoration and Modernization (including demolition) projects and large life-cycle Sustainment Repair projects. The centralization will provide enterprise-wide total asset visibility to enable asset accountability and support-based program management, and to manage the built-asset portfolio with targeted, informed, and predictive decision quality data to ensure the optimal application of resources and investments. (FY 2013 Base: \$309,699)	
8. Program Increases	\$ 29,406
a) Annualization of New FY 2013 Program.....	\$ 0
b) One-Time FY 2014 Costs	\$ 0
c) Program Growth in FY 2014	\$ 29,406
i) Facilities Sustainment	\$ 29,406
Increase funds Facilities Sustainment at 80 percent of the modeled requirement based on the Department

Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Mobilization
Activity Group: Mobility Operations**

Subactivity Group: Facilities Sustainment and Restoration/Modernization and Demolition Programs

of Defense Facilities Sustainment Model (FSM) version 14-2. This reflects changes in the modeled requirement resulting from adjustments to the FSM cost factors and changes in Air Force Real Property Inventory. (FY 2013 Base: \$197,000)

9. Program Decreases.....	\$ -12,677
a) One-Time FY 2013 Costs	\$ 0
b) Annualization of FY 2013 Program Decreases.....	\$ 0
c) Program Decreases in FY 2014.....	\$ -12,677
i) Civilian Pay Program.....	\$ -12,677
Funding decrease supports the net reduction of 142 full-time equivalents in the following programs (FY 2013 Base: \$84,233; -142 W/Y):	
a.) Various Mission Realignments: Decrease realigns \$12,605 Thousand and 141 full-time equivalents to Subactivity Group 11R to accurately portray mission execution.	
b.) Manpower Freeze and Reductions: Decrease of \$72 Thousand and one full-time equivalent supports Air Force efforts to maintain civilian staffing at FY 2010 levels with limited exceptions. In addition, a comprehensive OSD-led review of areas where the Air Force could most prudently accept risk, while still being able to accomplish the mission, resulted in an additional 2.8% reduction of the civilian workforce.	
FY 2014 Budget Request.....	\$ 167,402

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Mobilization
Activity Group: Mobility Operations
Subactivity Group: Base Support

I. Description of Operations Financed:

This program provides funding for installation support functions, engineering and environmental programs in support of Air Mobility Command (AMC) and Air Force District Washington (AFDW). The program sustains mission capability, quality of life, workforce productivity and infrastructure support. Significant categories of support are listed below:

Unaccompanied Personnel Housing Services (UPH): Manages execution of government owned, leased, contracted, or privatized UPH. Unaccompanied Personnel Housing includes: Permanent Party UPH management services, initial issue of furnishings (furniture, appliances, and equipment) for newly constructed and renovated facilities, and management of replacement furnishings (repair, replace, control, moving and handling, inventory, warehousing and disposal).

Child and Youth Programs: Assists Department of Defense (DoD) military and civilian personnel in balancing the competing demands of family life and the accomplishment of the DoD mission by managing and delivering a system of quality, available and affordable programs and services (child development, school age, and youth program services) for eligible children and youth from birth through 18 years of age.

Warfighter and Family Services: Provides principal mission readiness resources for leaders at all levels, service members and their families, qualifying DoD personnel and their families, deployed civilians, and military retirees and their families, offering information, education, prevention and intervention, and services necessary to address the unique personal and family readiness needs of the mobile and deployed military community.

Morale, Welfare and Recreation (MWR): Provides appropriated fund resources for all Category A activities (Mission-Sustaining Activities) in support of programs that promote the physical and mental well-being of the military member, their families, and other authorized users as defined by DoDI 1015.10 (including both deployed and post-deployment environments). Provides appropriated fund resources for all Category B activities (Community Support Programs) in support of programs, closely related to mission sustaining programs, which satisfy the physiological and psychological needs of military members, their families, and other authorized users. Provides appropriated fund resources for all Category C activities (Revenue-Generating Programs) in support of programs at designated remote and isolated locations as defined and authorized in Enclosures 4 and 5 of DoDI 1015.10.

Lodging: Includes Temporary Duty (TDY) Lodging and Permanent Change of Stations (PCS) Lodging. Provides resources for lodging and related services to authorized TDY personnel to support mission readiness and maintain maximum occupancy in DoD facilities to reduce official travel costs. Provides resources for lodging and related services to authorized personnel and family members to support PCS orders for travel and maintain maximum occupancy in DoD facilities to reduce official and personal travel costs.

Airfield Operations: Funds contract airfield services for transient U.S. military aircraft and aircrew.

Information Technology (IT) Services Management: Includes delivery of services consisting of secure and non-secure fixed voice communications, wireless voice, data and video connectivity services, video conferencing services. Provides infrastructure support, including the design, installation, and maintenance of special circuits/systems in support of life safety and security systems and monitoring and control systems. Provides Collaboration and Messaging including services and tools for the workforce to communicate and share. Provides Application and Web-hosting operations and management services required to support web and application hosting. Provides for IT Operations Centers including systems and processes necessary to allow customers to have seamless access to IT applications and solutions. Provides

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Mobilization
Activity Group: Mobility Operations
Subactivity Group: Base Support

Desktop Management Support for end-user hardware and software services and tools. Includes Service Desk Support, Continuity of Operations and Disaster Recovery support, requirements and training for common-user software applications, Information Assurance, and Multimedia and Visual Information. Provides printing, publication, and duplication services.

Command Support: Funds Wing command staff agency functions formerly part of Base Operating Support (BOS) such as Command Management, Inspector General, Plans, Programs, Public Affairs, Judge Advocate General, Financial Management, Procurement Operations, Ground, Flight and Weapons Safety, and Chaplain Ministries.

Collateral Equipment: Funds procurement of office furniture associated with Facilities Restoration and Modernization projects, including projects in the Military Construction program. This does not include dormitory and housing furnishings.

Civilian Personnel Services: Plans, manages, coordinates, and executes Civilian Personnel Services for the life-cycle management of human capital at installations for Appropriated Fund civilian workforce and military personnel and their families.

Military Personnel Services: Provides customer support services that directly provide or indirectly result in tangible benefits to the military community or the mission. Provides military personnel information systems customer support services. Includes processing workforce changes required to accomplish the DoD mission.

Installation Law Enforcement (LE) Operations: Includes enforcing federal, state and military law, enforcing installation guidance, issuance of citations, detaining suspects, motor vehicle traffic management, traffic investigations, apprehension and restraint of offenders, and crowd control, crime prevention, crime detection, LE patrols, LE liaison, apprehension of persons who commit crimes on the installation, testifying in prosecution cases and temporary detention of offenders. This includes protecting, defending, and deterring against criminal activities, conduct of minor investigations, the development of plans for the employment of law enforcement activities and functions and includes all processes intended to preserve the principles of law through various strategies.

Installation Physical Security Protection and Services: Includes personnel, procedures and equipment measures employed or designed to safeguard personnel, facilities and property from loss, destruction, espionage, terrorism, or sabotage on the installation; prevent unauthorized access to facilities, installations, and restricted areas, equipment, and materials. This includes regulation of people, material, and vehicles entering or exiting a designated area; mobile and static security activities for the protection of installation or government assets; conduct of physical security inspections and assessments, construction design reviews, special protection of high value or sensitive property and management of installation security systems, plans and funding.

Supply Logistics: Includes eight classes of supply: Class I-Subsistence; Class II-Clothing, individual equipment, tents, etc; Class III-Petroleum, oils, lubricants; Class IV-Construction; Class VI-Personal demand items; Class VII-Major end items; Class IX-Repair parts and components; and Class X-Material to support non-military programs.

Community Logistics: Includes the execution of installation food services and laundry and dry cleaning services. Installation food services includes the operation and administration of installation, remote, and flight and ground support feeding but excludes cost of food, costs of non-installation field support, hospital food services, and Basic Allowances for Subsistence. Laundry and dry cleaning services include cleaning and pressing textiles, garments, linens and other fabrics. Includes organizational clothing and individual equipment, other articles required by installation, and the sewing on of rank and unit patches on service member's initial issue of clothing.

Transportation Logistics: Management and administration of acquisition dispatch, operation, maintenance, and disposal of all non-tactical government owned and

Operation and Maintenance, Air Force
Budget Activity: Mobilization
Activity Group: Mobility Operations
Subactivity Group: Base Support

controlled vehicles and transportation related equipment used for the day-to-day support of installation operations.

Environmental Conservation and Compliance: Environmental Conservation provides for protection and enhancement of natural and cultural resources, consultations with environmental regulators and mapping and planning support systems. Environmental Compliance ensures all federal, state and local environmental laws are enforced through sampling, analysis and monitoring; hazardous waste characterization and disposal; underground storage tank removal, repair, and replacement; leak detection and monitoring; spill response and clean-up; environmental surveys; training; and maintenance, repair and minor construction projects for environmental facilities and infrastructure.

Pollution Prevention: Established to prevent future pollution by reducing hazardous material use and release of pollutants into the environment to as near zero as feasible to alleviate environmentally harmful discharges to the air, land, surface and ground water.

Facilities Operation: This program provides engineering operations, engineering services and real property management required to accomplish such municipal-type activities as emergency services (fire protection and aircraft crash rescue, emergency management and explosive ordnance disposal), utility plant operations, refuse collection and disposal (including non-hazardous recycling), custodial services, snow removal, street sweeping, grounds maintenance, and insect control. The program also funds real property leases and purchased utilities (electric, gas, water and sewer) for Air Force installations.

II. Force Structure Summary:

Supports the sustainment of mission capability, quality of life, workforce productivity and infrastructure support on all AMC and AFDW installations. Supports Environmental Compliance, Environmental Conservation and Pollution Prevention for all Active Air Force MAJCOMs.

The Air Force has initiated a Civil Engineering Transformation and is beginning to implement a multi-pronged asset management approach to centralize, standardize, streamline, re-organize and enhance efficiency at all levels of the Civil Engineering enterprise. Through increased centralization, improved management and oversight of requirements, comprehensive program development and efficient execution, the Air Force will better apply its limited resources and reduce risk to mission and Airmen. This effort significantly helps the Air Force meet its overall objectives, in terms of dollars and manpower reductions and will assist the Air Force to better prioritize its future requirements in a fiscally constrained environment.

Normalized FY 2013 Current Estimate.....	\$ 707,574
6. Price Change	\$ 9,530
7. Transfers.....	\$ 4,866
a) Transfers In	\$ 13,597
i) Information Technology Services Management.....	\$ 13,597
<p style="margin-left: 40px;">Increase reflects realignment of funds from Subactivity Group 41Z to realign Information Technology Services Management Administration to Information Technology Services Management Mobility to better align funding with execution in accordance with 2005 BRAC Law as it applies to Joint Base Andrews/Naval Air Facility Washington. (FY 2013 Base: \$6,109)</p>	
b) Transfers Out	\$ -8,731
i) Civil Engineering (Environmental Consolidation).....	\$ -6,517
<p style="margin-left: 40px;">Decrease reflects transfer to Subactivity Group 11Z in support of the consolidation of the Air Force Center for Environmental Excellence, Air Force Civil Engineer Support Agency and Air Force Real Property Agency in order to implement an asset management approach to centralize, standardize, and enhance efficiency at all levels of the Civil Engineering enterprise. This effort consolidates Environmental Compliance, Environmental Conservation and Pollution Prevention. (FY 2013 Base: \$22,928)</p>	
ii) Facility Operations.....	\$ -2,214
<p style="margin-left: 40px;">Decrease reflects funding transfer to Subactivity Groups 31Z and 41Z in order to align Civil Engineering (CE) Transformation providing an asset management approach to enhance efficiency across the CE enterprise. Included are three Air Force Field Operating Agencies: Air Force Center for Engineering and the Environment, Air Force CE Support Agency and Air Force Real Property Agency. (FY 2013 Base: \$223,573)</p>	
8. Program Increases	\$ 24,030

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Mobilization
Activity Group: Mobility Operations
Subactivity Group: Base Support

a) Annualization of New FY 2013 Program.....	\$ 0
b) One-Time FY 2014 Costs	\$ 0
c) Program Growth in FY 2014	\$ 24,030
i) Civilian Pay Program.....	\$ 19,242
Funding increase supports the net growth of 131 full-time equivalents in the following programs (FY 2013 Base: \$369,381; 131 W/Y):	
a.) Various Mission Realignments: Increase realigns \$11,843 Thousand and 75 full-time equivalents to accurately portray mission execution. 125 direct-funded full-time equivalents were transferred from Subactivity Group 41R and 50 reimbursable full-time equivalents were transferred from Subactivity Group 11Z.	
b.) Manpower Freeze Exceptions: As part of the Department of Defense reform agenda, adds \$1,152 Thousand and nine civilian full-time equivalents in order to maintain, with limited exceptions, civilian staffing at the FY 2010 level.	
c.) Voluntary Separation Incentive Payments (VSIP): Decrease of \$222 Thousand made available to incentivize employees to leave Federal Service voluntarily. The Air Force will require less force shaping in FY 2014.	
d.) Joint Basing: Decreases of \$379 Thousand and five full-time equivalents is based on agreements between the Army, Navy, Marine Corps, and Air Force for Joint Base changes.	
e.) Veterans Opportunity to Work: Increase of \$6,848 Thousand and 52 full-time equivalents to support the Vow to Hire Heroes Act and the Veterans Educational Initiative (VOW/VEI). These services provide airmen pre-separation and retirement briefings and training.	
ii) Utilities	\$ 4,788
Funding increased to support Utilities Privatization contracts across several Air Force installations as well	

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Mobilization
Activity Group: Mobility Operations
Subactivity Group: Base Support

as increase utility funding from 90 percent to 95 percent. (FY 2013 Base: \$102,777)

9. Program Decreases.....	\$ -38,960
a) One-Time FY 2013 Costs	\$ 0
b) Annualization of FY 2013 Program Decreases.....	\$ 0
c) Program Decreases in FY 2014.....	\$ -38,960
i) Internal Realignment	\$ 0
Internal realignment of funding between OP-32 lines within this Subactivity Group to program funding based on historical execution trends.	
ii) Service Support Contracts Reduction	\$ -33,062
In compliance with the Budget Control Act of 2011, the Air Force further reduced funding used to acquire service support contracts. The Air Force will focus remaining resources on those service support contracts that provide the greatest value to the Department in the most cost-effective way. (FY 2013 Base: \$40,019)	
iii) Competitive Sourcing and Privatization.....	\$ -4,192
Funds decreased consistent with the government-wide moratorium on the use of funds for public-private competitions. Section 325 of the National Defense Authorization Act for Fiscal Year 2010 (P.L. 111-84), prohibits the Department of Defense from beginning or announcing any public-private competitions. (FY 2013 Base: \$4,192)	
iv) Executive Order Travel Reduction	\$ -1,706
In compliance with the Executive Orders on Promoting Efficient Spending to support Agency Operations dated 9 November 2011 and 11 May 2012, the Air Force will reduce travel expenses by utilizing more video and phone teleconferencing. The Air Force will also carefully analyze the necessity for conferences and schools held off site in an effort to reduce the overall dependency on travel funding. (FY 2013 Base: \$17,807)

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Training and Recruiting
Activity Group: Accession Training
Subactivity Group: Officer Acquisition

I. Description of Operations Financed:

Operations support two of the three officer accession training programs within the Air Force. The majority of the funding supports the United States Air Force Academy (USAFA) to include direct mission support for cadets, preparatory school students, and faculty. The Officer Training School (OTS) is located at Maxwell AFB, AL, and is managed by Air University (AU) and the Jeanne M. Holm Center for Officer Accessions and Citizen Development (Holm Center).

II. Force Structure Summary:

The United States Air Force Academy is located in Colorado Springs, CO. Officer Training School is composed of Basic Officer Training (BOT) and Commissioned Officer Training (COT)/Reserve Commissioned Officer Training (RCOT), located at Maxwell AFB, AL.

Normalized FY 2013 Current Estimate.....	\$ 115,427
6. Price Change	\$ 1,400
7. Transfers.....	\$ 0
8. Program Increases	\$ 0
a) Annualization of New FY 2013 Program.....	\$ 0
b) One-Time FY 2014 Costs	\$ 0
c) Program Growth in FY 2014	\$ 0
9. Program Decreases.....	\$ -14,493
a) One-Time FY 2013 Costs	\$ 0
b) Annualization of FY 2013 Program Decreases.....	\$ 0
c) Program Decreases in FY 2014.....	\$ -14,493
i) Civilian Pay Program.....	\$ -9,525
Funding decrease supports the net reduction of 91 full-time equivalents in the following programs (FY 2013 Base: \$82,568; -91 W/Y):	
a.) Manpower Freeze and Reductions: Decrease \$9,615 Thousand and 92 full-time equivalents supports Air Force efforts to maintain civilian staffing at FY 2010 levels with limited exceptions. In addition, a comprehensive OSD-led review of areas where the Air Force could most prudently accept risk, while still being able to accomplish the mission, resulted in an additional 2.8% reduction of the civilian workforce.	
b.) Insourcing: Increase of \$90 Thousand and one full-time equivalent supports programmed contractor-to-

Subactivity Group: Officer Acquisition**

civilian conversions. As part of the Department of Defense's (DoD) initiative to reduce its reliance on contractors, the Air Force continues to reduce its contractor workforce and replace these positions with DoD civilians.

ii) Reduce United States Air Force Academy Supplies, Equipment, and Travel \$ -4,346

Decrease supports the United States Air Force Academy's continued efforts to meet today's constrained fiscal environment and balance across Air Force-wide priorities. Reductions defer equipment life-cycle replacement, purchase of academic lab, fitness center, and installation supplies and equipment, and reduces printing. The reductions also decrease non-mission essential temporary duty travel for United States Air Force Academy cadet academic seminar and competition (club) participation and reduce/defer faculty travel for professional development training. (FY 2013 Base: \$22,133)

iii) Executive Order Travel Reduction..... \$ -622

In compliance with Executive Orders on Promoting Efficient Spending to support Agency Operations dated 9 November 2011 and 11 May 2012, the Air Force will reduce travel expenses by utilizing more video and phone teleconferencing. The Air Force will also carefully analyze the necessity for conferences and schools held off site in an effort to reduce the overall dependency on travel funding. Decreases cadet academic seminar and competition club participation. (FY 2013 Base: \$9,928)

FY 2014 Budget Request.....\$ 102,334

IV. Performance Criteria and Evaluation Summary:

	FY 2012 Actual			FY 2013 Estimate			FY 2014 Estimate		
	Input	Output	Workload	Input	Output	Workload	Input	Output	Workload
Basic Officer Training (BOT)									
Active Duty	558	513	130	587	545	137	590	549	138
Reserves	161	152	38	161	152	38	161	152	38
Total BOT	719	665	168	748	697	175	750	701	176
Commissioned Officer Training (COT)									
Reserve COT	200	198	15	200	198	15	200	198	15
Total COT	1,613	1,596	147	1,613	1,596	147	1,613	1,596	147
Total Officer Training School	2,332	2,261	315	2,361	2,293	322	2,364	2,297	323

NOTES:

- (1) Reserve Commissioned Officer Training (RCOT) is a part of Commissioned Officer Training (COT) and consists of two phases:
Phase I - non-resident studies, and Phase II - 14-training day in-residence training program. COT/RCOT production levels are developed during the annual COT Seat Allocation Conference. Five-year projections are considered.
- (2) Workload is the average daily student load.
Workload = $[(\text{Input} + \text{Output})/2] * (\# \text{ of days of training}/\# \text{ of days in the training calendar})$
BOT - # of days of training = 85 Includes "training days" plus weekends/holidays
COT - # of days of training = 33 Includes "training days" plus weekends/holidays
RCOT - # of days of training = 27 Includes 14 "training days" including weekends/holidays plus 13 days for Holm Center Curriculum to administer/process the new computer-based, interactive software learning (CUBIC) for Phase I, non-resident portion of RCOT.
Training calendar = 351 days (365 days - 14 days that OTS is closed for Winter/Christmas Break each year...no students at OTS during the Break)
- (3) Projected BOT attrition rate: approximately 7%
- (4) Projected COT/RCOT attrition rate: approximately 1%.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Training and Recruiting
Activity Group: Accession Training
Subactivity Group: Recruit Training

I. Description of Operations Financed:

Program supports recruiting and basic military training that transforms civilian recruits into disciplined, dedicated, physically fit Airmen ready to serve in the United States Air Force. Operations financed include support for the 737th Training Group located at Lackland AFB, TX. The 737th Training Group provides basic military training for all Air Force enlisted recruits including Active Duty, Air National Guard, and Air Force Reserve. Currently, recruits receive eight and a half weeks of training in preparation for military duty.

II. Force Structure Summary:

The 737th Training Group operates eight squadrons to accomplish its mission. Five of these training squadrons provide the fundamentals of military discipline, drill and ceremonies, and Air Force core values. Two squadrons focus on Battlefield Airmen Combat Skills with Training in an expeditionary and operational environment. One squadron provides personnel records management, job classification and discharge actions, resource management support, academic instruction and field training.

i) Internal Realignment \$ 0
 Internal realignment of funding between OP-32 lines within this Subactivity Group to program funding based on historical execution trends.

ii) Supplies, Materials, and Equipment..... \$ -561
 The Air Force continues efforts to meet today's constrained fiscal environment and balance Air Force-wide priorities. Refinements were made to reduce supply purchases and to defer equipment replacements in support of this effort. (FY 2013 Base: \$7,349)

iii) Management Support Contracts Reduction \$ -557
 In compliance with Executive Orders #13576, Defining an Efficient, Effective, and Accountable Government, and #13589, Promoting Efficient Spending, the Air Force reduced funding for management and service support contracts. The Air Force will focus remaining resources on those management and service support contracts that provide the greatest value to the Department in the most cost-effective way. (FY 2013 Base: \$7,208)

I. Description of Operations Financed:

Air Force Reserve Officer Training Corps (AFROTC) is the largest source of new officer accessions for the Air Force and the primary source of commissioning for technical Air Force Specialty Codes. The AFROTC mission is to recruit, educate, train, motivate, select and commission officer candidates through a comprehensive college program. The mission is primarily achieved through funding college scholarship tuition, textbooks and summer training programs.

II. Force Structure Summary:

The FY 2014 budget supports 145 AFROTC Detachments.

Subactivity Group: Reserve Officer Training Corps (ROTC)

\$8,386)

ii) Civilian Pay Program \$ -162

Funding decrease supports the net reduction of two full-time equivalents in the following programs (FY 2013 Base: \$4,580; -2 W/Y):

a.) Manpower Freeze and Reductions: Decrease of \$162 Thousand and two full-time equivalents supports Air Force efforts to maintain civilian staffing at FY 2010 levels with limited exceptions. In addition, a comprehensive OSD-led review of areas where the Air Force could most prudently accept risk, while still being able to accomplish the mission, resulted in an additional 2.8% reduction of the civilian workforce.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Training and Recruiting
Activity Group: Accession Training

Subactivity Group: Facilities Sustainment and Restoration/Modernization and Demolition Programs

I. Description of Operations Financed:

Facilities Sustainment functions include maintenance and repair activities and projects. This Subactivity Group sustains the United States Air Force Academy (USAFA) and Air Education and Training Command (AETC) operating installations. Facilities Sustainment activities ensure installation facilities, utility systems and infrastructure are capable of fully supporting mission requirements throughout their economic lives.

Sustainment is performed through a combination of in-house workforce and contracts. Sustainment includes the maintenance and repair activities necessary to keep an inventory of facilities in good working order. It includes regularly scheduled adjustments and inspections, preventive maintenance tasks and emergency response and service calls for minor repairs. It also includes major repairs or replacement of facility components (usually accomplished by contract) that are expected to occur periodically throughout the life cycle of facilities. This work includes regular roof replacement, refinishing of wall surfaces, repairing and replacement of heating and cooling systems, replacing tile and carpeting and similar types of work. It does not include environmental compliance costs, facility leases or other tasks associated with facilities operations (such as custodial services, grounds services, waste disposal and the provision of central utilities).

The Department of Defense (DoD) Facilities Sustainment Model (FSM) is used as the standardized model for forecasting facilities sustainment resource requirements. In anticipation of cost savings, the Air Force funded FY 2014 sustainment at 80 percent of the FSM labor and material cost. The FSM uses the following formula to develop the sustainment requirement:

Annual sustainment requirement = facility quantity x sustainment cost factor x location factor x inflation

Facility quantity - the facility size expressed in the Facility Analysis Category (FAC) unit of measure (such as square feet)

Sustainment cost factor - the average annual unit cost (in current year dollars) for sustaining the average size facility in the given FAC

Location factor - a location adjustment based upon the local costs for labor, equipment, materials and currency exchange rates (overseas) compared with an overall base-city average

Inflation - factor to adjust current year prices to the target future year

The Department uses a sustainment metric which is the comparison of sustainment funding to the requirement for a given year, expressed as a rate.

Sustainment rate (%) = sustainment funding/FSM requirement

Restoration means the restoration of real property to such a condition that it may be used for its designated purpose. Restoration includes repair or replacement work to restore facilities damaged by inadequate sustainment, excessive age, natural disaster, fire, accident or other causes.

Modernization means the alteration or replacement of facilities solely to implement new or higher standards, to accommodate new functions or to replace building components that typically last more than 50 years (such as the framework or foundation). Modernization also includes infrastructure repairs and minor construction to

DEPARTMENT OF THE AIR FORCE

Operation and Maintenance, Air Force
Budget Activity: Training and Recruiting
Activity Group: Accession Training

Subactivity Group: Facilities Sustainment and Restoration/Modernization and Demolition Programs

accommodate changes in mission requirements, including new mission beddowns. Modernization is critical to ensure aging facilities remain capable of supporting mission requirements as they evolve over the long lives of facilities and infrastructure systems.

Recapitalization means the major renovation or reconstruction activities (including facility replacements) needed to keep existing facilities modern and relevant in an environment of changing standards and missions. Recapitalization extends the service life of facilities or restores lost service life. It includes restoration and modernization of existing facilities.

Plant Replacement Value (PRV) is used as the basis for generating recapitalization requirements. The DoD standardized formula for calculating PRV is:

PRV = facility quantity x construction cost factor x location factor x Planning & Design (P&D) factor x historical factor x contingency factor x Supervision, Inspection and Overhead (SIOH) x inflation

Facility quantity - the facility size expressed in the FAC unit of measure (such as square feet)

Construction cost factor - the average annual unit cost (in current year dollars) for constructing the average size facility to current standards in the given FAC

Location factor - a location adjustment based upon the local costs for labor, equipment, materials and currency exchange rates (overseas) compared with an overall base-city average

P&D factor - an adjustment to account for typical project planning and design costs

Historical factor - an adjustment for historical architecture and materials (when applicable)

Contingency factor - an adjustment for typical contingency costs during construction

SIOH - an adjustment for supervision, inspection and overhead costs associated with construction management

Inflation - factor to adjust current year prices to the target future year

Demolition is performed primarily by contract. Facilities and infrastructure are demolished to free space for future construction and to eliminate obsolete facilities from the real property inventory. Demolition is a key component of the Air Force strategy to consolidate functions, vacate excess and obsolete facilities and focus sustainment, restoration and modernization funding on facilities intended to function well into the future.

The most significant categories receiving this support are sustainment, restoration and modernization of real property, including:

Aircraft maintenance and generation complexes
Airfield runways, taxiways and ramps

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Training and Recruiting
Activity Group: Accession Training

Subactivity Group: Facilities Sustainment and Restoration/Modernization and Demolition Programs

Critical infrastructure, including utility systems
Command and control facilities
Intelligence gathering and analysis facilities
Dormitories and dining facilities
Training ranges and supporting infrastructure
Administrative support facilities for coalition partners

II. Force Structure Summary:

The Air Force has initiated a Civil Engineering Transformation and is beginning to implement a multi-pronged asset management approach to centralize, standardize, streamline, re-organize and enhance efficiency at all levels of the Civil Engineering enterprise. Through increased centralization, improved management and oversight of requirements, comprehensive program development and efficient execution, the Air Force will better apply its limited resources and reduce risk to mission and Airmen. This effort significantly helps the Air Force meet its overall objectives, in terms of dollars and manpower reductions and will assist the Air Force to better prioritize its future requirements in a fiscally constrained environment. To enable enterprise-wide investments in the built-asset portfolio, the Air Force has centralized prioritization of large life-cycle Sustainment repair and all Restoration and Modernization (including demolition) projects. In FY 2014, the Air Force realigned funding in support of these activities from Subactivity Groups 21R, 31R, and 41R to Subactivity Group 11R.

Supports Facilities Sustainment at the United States Air Force Academy (USAF) and Air Education and Training Command (AETC) installations.

I. Description of Operations Financed:

This program provides funding for installation support functions, engineering and environmental programs in support of the United States Air Force Academy (USAFA) and Air Education and Training Command (AETC). The program sustains mission capability, quality of life, workforce productivity and infrastructure support. Significant categories of support are listed below:

Unaccompanied Personnel Housing Services (UPH): Manages execution of government owned, leased, contracted, or privatized UPH. Unaccompanied Personnel Housing includes: Permanent Party UPH management services, initial issue of furnishings (furniture, appliances, and equipment) for newly constructed and renovated facilities, and management of replacement furnishings (repair, replace, control, moving and handling, inventory, warehousing and disposal).

Child and Youth Programs: Assists Department of Defense military and civilian personnel in balancing the competing demands of family life and the accomplishment of the DoD mission by managing and delivering a system of quality, available and affordable programs and services (child development, school age, and youth program services) for eligible children and youth from birth through 18 years of age.

Warfighter and Family Services: Provides principal mission readiness resources for leaders at all levels, service members and their families, qualifying DoD personnel and their families, deployed civilians, and military retirees and their families, offering information, education, prevention and intervention, and services necessary to address the unique personal and family readiness needs of the mobile and deployed military community.

Morale, Welfare and Recreation (MWR): Provides appropriated fund resources for all Category A activities (Mission-Sustaining Activities) in support of programs that promote the physical and mental well-being of the military member, their families, and other authorized users as defined by DoDI 1015.10 (including both deployed and post-deployment environments). Provides appropriated fund resources for all Category B activities (Community Support Programs) in support of programs, closely related to mission sustaining programs, which satisfy the physiological and psychological needs of military members, their families, and other authorized users. Provides appropriated fund resources for all Category C activities (Revenue-Generating Programs) in support of programs at designated remote and isolated locations as defined and authorized in Enclosures 4 and 5 of DoDI 1015.10.

Lodging: Includes Temporary Duty (TDY) Lodging and Permanent Change of Stations (PCS) Lodging. Provides resources for lodging and related services to authorized TDY personnel to support mission readiness and maintain maximum occupancy in DoD facilities to reduce official travel costs. Provides resources for lodging and related services to authorized personnel and family members to support PCS orders for travel and maintain maximum occupancy in DoD facilities to reduce official and personal travel costs.

Airfield Operations: Funds contract airfield services for transient U.S. military aircraft and aircrew.

Information Technology Services Management (ITSM): Includes delivery of services consisting of secure and non-secure fixed voice communications, wireless voice, data and video connectivity services, video conferencing services. Provides infrastructure support, including the design, installation, and maintenance of special circuits/systems in support of life safety/security systems and monitoring/control systems. Provides Collaboration and Messaging including services and tools for the workforce to communicate and share. Provides Application and Web-hosting operations and management services required to support web and application hosting. Provides for IT Operations Centers including systems and processes necessary to allow customers to have seamless access to IT applications and solutions. Provides

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Training and Recruiting
Activity Group: Accession Training
Subactivity Group: Base Support

Desktop Management Support for end-user hardware and software services and tools. Includes Service Desk Support, Continuity of Operations (COOP) and Disaster Recovery support, requirements and training for common-user software applications, Information Assurance, and Multimedia/Visual Information. Provides printing, publication, and duplication services.

Command Support: Funds Wing command staff agency functions formerly part of Base Operating Support (BOS) such as Command Management, The Inspector General, Plans, Programs, Public Affairs, Judge Advocate General, Financial Management, Procurement Operations, Ground, Flight and Weapons Safety, and Chaplain Ministries.

Collateral Equipment: Funds procurement of office furniture associated with Facilities Restoration and Modernization projects, including projects in the Military Construction program. This does not include dormitory and housing furnishings.

Civilian Personnel Services: Plans, manages, coordinates, and executes Civilian Personnel Services for the life-cycle management of human capital at installations for Appropriated Fund civilian workforce and military personnel and their families.

Military Personnel Services: Provides customer support services that directly provide or indirectly result in tangible benefits to the military community or the mission. Provides military personnel information systems customer support services. Includes processing workforce changes required to accomplish the DoD mission.

Installation Law Enforcement (LE) Operations: Includes enforcing federal, state and military law, enforcing installation guidance, issuance of citations, detaining suspects, motor vehicle traffic management, traffic investigations, apprehension and restraint of offenders, and crowd control, crime prevention, crime detection, LE patrols, LE liaison, apprehension of persons who commit crimes on the installation, testifying in prosecution cases and temporary detention of offenders. This includes protecting, defending, and deterring against criminal activities, conduct of minor investigations, the development of plans for the employment of law enforcement activities and functions and includes all processes intended to preserve the principles of law through various strategies.

Installation Physical Security Protection and Services: Includes personnel, procedures and equipment measures employed or designed to safeguard personnel, facilities and property from loss, destruction, espionage, terrorism, or sabotage on the installation; prevents unauthorized access to facilities/installations/restricted areas, equipment, and materials. This includes regulation of people, material, and vehicles entering or exiting a designated area; mobile and static security activities for the protection of installation or government assets; conduct of physical security inspections/assessments, construction design reviews, special protection of high value or sensitive property and management of installation security systems, plans and funding.

Supply Logistics: Includes eight classes of supply: Class I-Subsistence; Class II-Clothing, individual equipment, tents, etc; Class III-Petroleum, oils, lubricants; Class IV-Construction; Class VI-Personal demand items; Class VII-Major end items; Class IX-Repair parts and components; and Class X-Material to support non-military programs.

Community Logistics: Includes the execution of installation food services and laundry and dry cleaning services. Installation food services includes the operation and administration of installation, remote, and flight/ground support feeding but excludes cost of food, costs of non-installation field support, hospital food services, and Basic Allowances for Subsistence. Laundry and dry cleaning services include cleaning and pressing textiles, garments, linens and other fabrics. Includes organizational clothing and individual equipment, other articles required by installation, and the sewing on of rank and unit patches on service member's initial issue of clothing.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Training and Recruiting
Activity Group: Accession Training
Subactivity Group: Base Support

Transportation Logistics: Management and administration of acquisition dispatch, operation, maintenance, and disposal of all non-tactical government owned and controlled vehicles and transportation related equipment used for the day-to-day support of installation operations.

Environmental Conservation/Compliance: Environmental Conservation provides for protection and enhancement of natural and cultural resources, consultations with environmental regulators and mapping and planning support systems. Environmental Compliance ensures all federal, state and local environmental laws are enforced through sampling, analysis and monitoring; hazardous waste characterization and disposal; underground storage tank removal/repair/replacement; leak detection and monitoring; spill response and clean-up; environmental surveys; training; and maintenance, repair and minor construction projects for environmental facilities and infrastructure.

Pollution Prevention: Established to prevent future pollution by reducing hazardous material use and release of pollutants into the environment to as near zero as feasible to alleviate environmentally harmful discharges to the air, land, surface and ground water.

Facilities Operation: This program provides engineering operations, engineering services and real property management required to accomplish such municipal-type activities as emergency services (fire protection/aircraft crash rescue, emergency management and explosive ordnance disposal), utility plant operations, refuse collection and disposal (including non-hazardous recycling), custodial services, snow removal, street sweeping, grounds maintenance, and insect control. The program also funds real property leases and purchased utilities (electric, gas, water and sewer) for Air Force installations.

II. Force Structure Summary:

Supports the sustainment of mission capability, quality of life, workforce productivity and infrastructure support on all AMC and AETC installations. Supports Environmental Compliance, Environmental Conservation and Pollution Prevention for all Active Air Force MAJCOMs.

The Air Force has initiated a Civil Engineering Transformation and is beginning to implement a multi-pronged asset management approach to centralize, standardize, streamline, re-organize and enhance efficiency at all levels of the Civil Engineering enterprise. Through increased centralization, improved management and oversight of requirements, comprehensive program development and efficient execution, the Air Force will better apply its limited resources and reduce risk to mission and Airmen. This effort significantly helps the Air Force meet its overall objectives, in terms of dollars and manpower reductions and will assist the Air Force to better prioritize its future requirements in a fiscally constrained environment.

Normalized FY 2013 Current Estimate.....	\$ 842,441
6. Price Change	\$ 12,403
7. Transfers.....	\$ -14,459
a) Transfers In	\$ 2,117
i) Facility Operations	\$ 2,117
<p>Increase reflects transfer from Subactivity Group 21Z in order to align Civil Engineering (CE) Transformation providing an asset management approach to enhance efficiency across the CE enterprise. Included are three Air Force Field Operating Agencies: Air Force Center for Engineering and the Environment, Air Force CE Support Agency and Air Force Real Property Agency. (FY 2013 Base: \$283,962)</p>	
b) Transfers Out	\$ -16,576
i) Civil Engineering (Environmental Consolidation).....	\$ -16,576
<p>Decrease reflects transfer to Subactivity Group 11Z in support of the consolidation of the Air Force Center for Environmental Excellence, Air Force Civil Engineer Support Agency and Air Force Real Property Agency in order to implement an asset management approach to centralize, standardize, and enhance efficiency at all levels of the Civil Engineering enterprise. This effort consolidates Environmental Compliance, Environmental Conservation and Pollution Prevention. (FY 2013 Base: \$134,053)</p>	
8. Program Increases	\$ 26,436
a) Annualization of New FY 2013 Program.....	\$ 0
b) One-Time FY 2014 Costs	\$ 0
c) Program Growth in FY 2014	\$ 26,436

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Training and Recruiting
Activity Group: Accession Training
Subactivity Group: Base Support

i) Food Services Core Program..... \$ 26,436
 Increase funds Food Service requirements based on historical execution. Food Services supports Air Force readiness and peacetime missions by providing food at Airman Dining Facilities and alert kitchens across the Air Force. (FY 2013 Base: \$7,095)

9. Program Decreases.....\$ -66,494

a) One-Time FY 2013 Costs \$ 0

b) Annualization of FY 2013 Program Decreases..... \$ 0

c) Program Decreases in FY 2014..... \$ -66,494

i) Internal Realignment \$ 0
 Internal realignment of funding between OP-32 lines within this Subactivity Group to program funding based on historical execution trends.

ii) Service Support Contracts Reduction \$ -18,736
 In compliance with the Budget Control Act of 2011, the Air Force further reduced funding used to acquire service support contracts. The Air Force will focus remaining resources on those service support contracts that provide the greatest value to the Department in the most cost-effective way. (FY 2013 Base: \$40,019)

iii) Utilities \$ -17,742
 Funding was reduced to 95 percent of requirement to align funding percentage with other Base Support Subactivity Groups (11Z, 21Z and 41Z). (FY 2013 Base: \$134,053)

iv) Competitive Sourcing and Privatization \$ -15,328
 Decrease funds consistent with the government-wide moratorium on the use of funds for public-private competitions. Section 325 of the National Defense Authorization Act for Fiscal Year 2010 (P.L. 111-84), prohibits the Department of Defense from beginning or announcing any public-private competitions. (FY 2013 Base: \$15,328)

**DEPARTMENT OF THE AIR FORCE
 Fiscal Year (FY) 2014 Budget Estimates
 Operation and Maintenance, Air Force
 Budget Activity: Training and Recruiting
 Activity Group: Accession Training
 Subactivity Group: Base Support**

v) Civilian Pay Program..... \$ -10,431

Funding decrease supports the net growth of 8 full-time equivalents in the following programs (FY 2013 Base: \$389,412; 8 W/Y):

a.) MQ-9 Reaper: Increase of \$1,566 Thousand and 19 full-time equivalents in order to provide base operating support, aircraft maintenance, and administrative functions for MQ-9 Reaper squadrons.

b.) Veterans Opportunity to Work: Increase of \$1,908 Thousand and 16 full-time equivalents to support the Vow to Hire Heroes Act and the Veterans Educational Initiative (VOW/VEI). These services provide airmen pre-separation and retirement briefings and training.

c.) Voluntary Separation Incentive Payments (VSIP): Decrease of \$11,270 Thousand made available to incentivize employees to leave Federal Service voluntarily. The Air Force will require less force shaping in FY 2014.

d.) Manpower Freeze and Reductions: Decrease of \$5,398 Thousand and 64 full-time equivalents supports Air Force efforts to maintain civilian staffing at FY 2010 levels with limited exceptions. In addition, a comprehensive OSD-led review of areas where the Air Force could most prudently accept risk, while still being able to accomplish the mission, resulted in an additional 2.8% reduction of the civilian workforce.

e.) Insourcing: Increase of \$2,763 Thousand and 37 full-time equivalents supports programmed contractor-to-civilian conversions. As part of the Department of Defense's (DoD) initiative to reduce its reliance on contractors, the Air Force continues to reduce its contractor workforce and replace these positions with DoD civilians.

vi) Logistics and Installations Efficiencies \$ -2,467

The Air Force continues to develop efficiencies to improve supply chain management. The Air Force will enhance its inventory management information technologies to provide improved oversight of on-hand quantities and movement within the distribution pipeline, allowing the Air Force to reduce on-hand inventory, holding, and storage costs. (FY 2013 Base: \$46,938)

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Training and Recruiting
Activity Group: Accession Training
Subactivity Group: Base Support

vii) Executive Order Travel Reduction.....\$ -1,790

In compliance with the Executive Orders on Promoting Efficient Spending to support Agency Operations dated 9 November 2011 and 11 May 2012, the Air Force will reduce travel expenses by utilizing more video and phone teleconferencing. The Air Force will also carefully analyze the necessity for conferences and schools held off site in an effort to reduce the overall dependency on travel funding. (FY 2013 Base: \$10,651)

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Training and Recruiting
Activity Group: Basic Skills and Advanced Training
Subactivity Group: Specialized Skill Training

I. Description of Operations Financed:

Operations provide Air Force and other service members the initial skills training (Air Force Specialty Code awarding) and education essential to managing complex weapon systems and performing other mission-related tasks. Additionally, this training provides the enhanced technical skills needed throughout a member's career to accomplish the Air Force mission. Programs include requirements for initial, follow-on, and supplemental technical skills training.

Initial skills training, provided to basic training graduates, includes technical courses ranging in length from five to 50+ weeks. This training covers a broad spectrum of courses from intelligence, health care and financial management to precision measurement equipment repair. New Air Force members with initial training and job experience, but who require specialized training, receive follow-on training, which is also funded in this program.

II. Force Structure Summary:

This program funds seven specialized skills training centers, including subordinate Detachments and Operating Locations at Goodfellow AFB, TX; Keesler AFB, MS; Lackland AFB, TX; Maxwell AFB, AL; Vandenberg AFB, CA; Wright Patterson AFB, OH and Sheppard AFB, TX.

6. Price Change	\$ 7,505
7. Transfers.....	\$ 0
8. Program Increases	\$ 0
a) Annualization of New FY 2013 Program.....	\$ 0
b) One-Time FY 2014 Costs	\$ 0
c) Program Growth in FY 2014	\$ 0
9. Program Decreases.....	\$ -90,775
a) One-Time FY 2013 Costs	\$ 0
b) Annualization of FY 2013 Program Decreases.....	\$ 0
c) Program Decreases in FY 2014.....	\$ -90,775
i) Internal Realignment	\$ 0
Internal realignment of funding between OP-32 lines within this Subactivity Group to program funding based on historical execution trends.	
ii) Readiness Training	\$ -44,414
The Air Force took a strategic look across the enterprise to target readiness requirements deemed most effective to provide full spectrum training to execute the defense strategy and avoid a hollow force. This reduction funds the targeted readiness requirements across the Operation and Maintenance portfolio. (FY 2013 Base: \$43,120)	

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Training and Recruiting
Activity Group: Basic Skills and Advanced Training
Subactivity Group: Specialized Skill Training

iii) Civilian Pay Program \$ -42,566

Funding decrease supports the net reduction of 42 full-time equivalents in the following programs (FY 2013 Base: \$187,691; -42 W/Y):

a.) Manpower Freeze and Reductions: Decrease of \$42,566 Thousand and 302 full-time equivalents supports Air Force efforts to maintain civilian staffing at FY 2010 levels with limited exceptions. In addition, a comprehensive OSD-led review of areas where the Air Force could most prudently accept risk, while still being able to accomplish the mission, resulted in an additional 2.8% reduction of the civilian workforce.

b.) Joint Basing: Adds 215 full-time equivalents from the Army to the Air Force, which resulted from the Base Realignment and Closure (BRAC) directed establishment of the Medical Education and Training Campus (METC) in San Antonio, TX and the Air Force as the designated lead service.

c.) Joint Basing: Adds 45 full-time equivalents from the Navy to the Air Force, which resulted from the Base Realignment and Closure (BRAC) directed establishment of the Medical Education and Training Campus (METC) in San Antonio, TX and the Air Force as the designated lead service.

iv) Logistics and Installations Efficiencies \$ -2,284

The Air Force continues to develop efficiencies to improve supply chain management. The Air Force will enhance its inventory management information technologies to provide improved oversight of on-hand quantities and movement within the distribution pipeline, allowing the Air Force to reduce on-hand inventory, holding, and storage costs. (FY 2013 Base: \$34,420)

v) Technical Training Courses \$ -1,511

Decrease eliminates non-core training requirements in Technical Training Courses, improving efficiency and effectiveness of Air Force training while providing fully qualified Airmen to the warfighting units sooner. Reductions include Technical Training Operations, Temporary Duty-to-School, and supplies based on an average of one less academic day in FY14. (FY 2013 Base: \$36,131)

FY 2014 Budget Request.....\$ 399,364

NOTES:

There are several Outputs which are greater than the Input due to Programmed Grads crossing Fiscal Year (FY) boundaries and where Input was higher in a previous FY. Also, the Output numbers depend on where the class start dates are scheduled; the closer to the end of the FY, students will graduate in the next FY, therefore increasing Output numbers.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Training and Recruiting
Activity Group: Basic Skills and Advanced Training
Subactivity Group: Flight Training

I. Description of Operations Financed:

Flying training programs include Academy Glider and Powered Flight Programs, Joint Specialized Undergraduate Pilot Training (JSUPT), Combat System Officer (CSO) Training, EURO-NATO Joint Jet Pilot Training (ENJJPT), Undergraduate Remotely Piloted Aircraft Training (URT), Introduction to Fighter Fundamentals (IFF), and Pilot Instructor Training (PIT).

JSUPT is taught at three Air Education and Training Command (AETC) bases and one Army Base: Vance AFB, OK; Columbus AFB, MS; Laughlin AFB, TX; and Ft Rucker, AL.

EURO-NATO Joint Jet Pilot Training produces pilots for the United States and participating NATO countries and is taught at Sheppard AFB, TX.

Three bases conduct IFF training for fighter bound pilot training graduates -- Randolph, Columbus and Sheppard AFBs. Randolph AFB, TX programs include PIT for JSUPT, IFF and URT.

II. Force Structure Summary:

This Subactivity Group supports 11 aircraft types at eight flying training wings and operating bases. Aircraft types: T-1, T-6, T-38, TH-1H, TG-10, TG-15, TG-16, UV-18, T-41, T-51 and T-53.

Operating bases: Randolph AFB, TX; Vance AFB, OK; Columbus AFB, MS; Laughlin AFB, TX; Sheppard AFB, TX; Ft Rucker, AL; USAF Academy, CO and NAS Pensacola, FL.

Normalized FY 2013 Current Estimate.....	\$ 750,609
6. Price Change	\$ 7,081
7. Transfers.....	\$ -307
a) Transfers In	\$ 0
b) Transfers Out	\$ -307
i) Pilot Candidate Selection Method (PCSM)	\$ -307
<p>The Pilot Candidate Selection Method program supports aptitude testing for flying training, which is used in rated officer selection. Funding is transferred to Examining (Subactivity Group 33B) to align and preserve the program with similar testing program activities. (FY 2013 Base: \$700)</p>	
8. Program Increases	\$ 48,780
a) Annualization of New FY 2013 Program	\$ 0
b) One-Time FY 2014 Costs	\$ 0
c) Program Growth in FY 2014	\$ 48,780
i) Flying Hour Program	\$ 45,111
<p>The FY 2014 Flying Hour Program provides hours for: 1) Air Force aircrew production, 2) continuation of basic combat flying skills, 3) aircrew experiencing requirements, and 4) unit specific mission requirements. The FY 2014 Flying Hour Program reflects an update to consumption estimates ("cost per flying hour").</p> <p>The summation of these changes will allow the Air Force to deliver trained aircrews to meet its major combat operations commitments. The following is a detailed breakout of the program changes by aircraft: TG-10B (-\$17, -5,950 hours); TG-10C (-\$1, -750 hours); TG-15A (\$0, 400 hours); TG-15B (\$0, 200 hours); TG-16A (\$0, 5,400 hours); TH-1H (\$4,499, 375 hours); T-1A (\$7,880, 9,824 hours); T-6A (\$3,519, 8,926</p>	

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Training and Recruiting
Activity Group: Basic Skills and Advanced Training
Subactivity Group: Flight Training

hours); T-38C (\$29,387, -2,254 hours); T-41A (-\$479, -11,208 hours); T-41D (-\$3, 0 hours); T-51A (\$337, 11,205 hours); UV-18B (-\$11, 10 hours).

Note: Net adjustment in dollars may not always follow in the direction of the hour change due to the consumption updates for aircraft in FY 2014. (FY 2013 Base: \$398,040)

ii) Weapon System Sustainment \$ 3,669

Weapon System Sustainment is the enterprise level view of sustainment requirements in the Air Force. Within this Subactivity Group, Weapon System Sustainment includes the following program changes:

a. Sustaining Engineering: (\$ 3,563)

1) T-38: (\$ 3,563)

Funding increase due to identified deficiencies and requirements: fatigue cracking and corrosion damage analysis; modeling for steel dorsal longeron replacement; avionics reliability centered maintenance testing; field level maintenance task analysis; and avionics reliability centered maintenance.

b. Technical Orders: (\$ 106)

1) Undergraduate Flying Training: (\$ 146)

Increased funding due to UH-1H technical order labor that provides for integration, review and processing of data based on historical execution.

2) T-38: (\$ -40)

Decrease funding due to reduced change page activity requirements based on historical execution. (FY 2013 Base: \$8,256)

9. Program Decreases\$ -13,888

a) One-Time FY 2013 Costs\$ 0

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Training and Recruiting
Activity Group: Basic Skills and Advanced Training
Subactivity Group: Flight Training

b) Annualization of FY 2013 Program Decreases.....\$ 0

c) Program Decreases in FY 2014.....\$ -13,888

i) Undergraduate Flight Training (UFT) Supplies and Equipment..... \$ -5,053

Decreases funding for supply and equipment in the UFT programs. These funds include squadron operations funds which include flight clothing, aircraft sunshades and other equipment. UFT operations will extend the service life of these items to reduce the number of replacements each year. The Air Force will prioritize replacement needs and will not adversely impact the training mission. (FY 2013 Base: \$106,992)

ii) Pilot Training Travel \$ -3,756

Decrease eliminates travel funding for an autonomous Remotely Piloted Aircraft (RPA) flight screening program separate from current Initial Flight Screening (IFS) operations at Pueblo, CO. Full production of RPA pilot candidates will continue to be conducted through existing IFS operations. Funding also decreases Pilot Instructor Training travel by compressing the training schedule by approximately five training days, with no adjustments to current approved syllabus. Additionally, the Air Force may waive pilot candidates with Private Pilot Licenses or equivalent flight time from the Initial Flight Screening course, saving travel costs to send students to the course. (FY 2013 Base: \$71,078)

iii) Logistics and Installations Efficiencies \$ -2,552

The Air Force continues to develop efficiencies to improve supply chain management. The Air Force will enhance its inventory management information technologies to provide improved oversight of on-hand quantities and movement within the distribution pipeline, allowing the Air Force to reduce on-hand inventory, holding, and storage costs. (FY 2013 Base: \$45,416)

iv) Management Support Contracts Reduction \$ -1,412

In compliance with Executive Orders #13576, Defining an Efficient, Effective, and Accountable Government, and #13589, Promoting Efficient Spending, the Air Force reduced funding for management and service support contracts. The Air Force will focus remaining resources on those management and service support contracts that provide the greatest value to the Department in the most cost-effective way. (FY 2013 Base: \$193,313)

**DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Training and Recruiting
Activity Group: Basic Skills and Advanced Training
Subactivity Group: Flight Training**

v) Civilian Pay Program.....\$ -1,115

Funding decrease supports the net reduction of 12 full-time equivalents in the following programs (FY 2013 Base: \$140,831; -12 W/Y):

a.) Manpower Freeze and Reductions: Decrease of \$296 Thousand and 4 full-time equivalents supports Air Force efforts to maintain civilian staffing at FY 2010 levels with limited exceptions. In addition, a comprehensive OSD-led review of areas where the Air Force could most prudently accept risk, while still being able to accomplish the mission, resulted in an additional 2.8% reduction of the civilian workforce.

b.) Installation Support Efficiencies: Decrease of \$819 Thousand and eight full-time equivalents as a result of consolidating installation support functions currently embedded in 10 Major Commands, three Direct Reporting Units, and four Field Operating Agencies into a single Direct Reporting Unit.

Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Training and Recruiting
Activity Group: Basic Skills and Advanced Training
Subactivity Group: Professional Development Education

I. Description of Operations Financed:

Professional Military Education (PME) programs located at Air University (AU) enhance and develop critical leadership skills of commissioned officers, civilians, and Non-commissioned officers and prepare them for progressively more responsible positions. PME resident programs include Squadron Officer School (SOS), Air Command and Staff College (ACSC), Air War College (AWC), Airman Leadership Schools (ALS), Non-Commissioned Officer Academy (NCOA), Senior Non-Commissioned Officer Academy (SNCOA) and the Chief Leadership Course (CLC). Courses may be taken by correspondence; however, Air Force Instructions 36-2301 requires in-residence attendance for enlisted promotion.

SOS, ACSC, and AWC are the PME programs comprising the officer continuum of education and fall within the control of the Spaatz Center for Officer Education. SOS begins the journey of Company Grade Officers and civilian equivalents to become professional military warrior-leaders. Their mission is to develop 21st Century Airmen who can champion what aerospace power brings to joint or combined operations and who believe that team achievement is more important than individual success. ACSC, the Air Force's intermediate service school, prepares Field Grade Officers and civilian equivalents to assume higher responsibility within the military and other government arenas. ACSC teaches the skills necessary for air and space operations in support of a joint campaign as well as leadership and command; ACSC focuses on shaping and molding tomorrow's leaders and commanders. In-residence graduates earn a Masters of Military Operational Art and Science degree. AWC, the Air Force's senior service school, conducts an educational program of the highest quality with an emphasis on air power that contributes to the professional development and motivation of senior officers. The mission of AWC is to improve Air Force contribution to national security through joint education and senior leader development focused on military strategy and the employment of air power. In-residence graduates earn a Masters of Strategic Studies degree.

Air Force policy requires ALS, NCOA and SNCOA in-residence attendance as a pre-requisite for enlisted force promotion. All enlisted PME falls within the Barnes Center for Enlisted Education. ALS is the first step in building the foundation of the Air Force NCO corps as leaders, supervisors, and managers, and directly contributes to the pool of Chief Master Sergeants who will lead the enlisted corps of the future. ALS provides the student with foundational skills and greater appreciation for the profession of arms. Enlisted personnel do not formally evaluate personnel they supervise, nor assume NCO status, without this first level of enlisted PME. NCOA provides students with enhanced leadership skills and emphasizes development of NCOs as managers. This course must be completed within two years of assuming Technical Sergeant rank. SNCOA provides current, effective and appropriate leadership and management education and training to meet current and foreseeable requirements of the ever changing Air Force and Department of Defense missions. SNCOA must be completed before assuming Senior Master Sergeant rank.

Professional Continuing Education (PCE) programs enhance the technical, management, and leadership skills of personnel. The PCE program provides short course instruction (less than 20 weeks) in a broad range of essential educational programs to meet specific skills and functional competencies required in designated career fields. PCE provides students with the opportunity to think critically, plan strategically, and apply those skills and knowledge to future programs and challenges. PCE programs include courses offered through the LeMay Center for Doctrine Development and Education (LeMay), Ira C. Eaker Center for Professional Development (Eaker), and Air Force Institute of Technology (AFIT). LeMay designs, executes, and assesses educational and operational wargames, as well as educates warfighting Airmen on contingency planning, joint air operations, intelligence, public affairs, and information operations. Throughout the fiscal year, over 22 wargames are designed and executed, touching 9,300 PME, PCE, and operational participants. Courses taught at LeMay include the Joint Flag Officer Warfighting, Joint Force Air Component Commander, Joint Air Operations Planning, Contingency Wartime Planning, Combined Forces Air Component Commander and the Information Warfare Courses. Eaker offers 88 separate professional continuing education programs for over 6,500 Air Force and Department of Defense personnel. Eaker's PCE programs are aimed at chaplains, comptrollers, personnel specialists, and commanders. AFIT, located at Wright Patterson AFB, Ohio, offers continuing education courses through its School of Systems and Logistics; Civil Engineer and Services School; Civilian Institution Programs at civilian universities; and Center for Systems Engineering.

Subactivity Group: Professional Development Education

Graduate education programs are offered through the School of Advanced Air and Space Studies (SAASS) and AFIT. SAASS is the Air Force graduate school charged with producing strategists through advanced education in the art and science of air, space, and cyberspace power to defend the United States and protect its interests. Students are awarded a Masters of Airpower Art and Science degree upon graduation. AFIT is the Air Force's graduate School of Engineering and Management Studies as well as its institution for technical professional continuing education. A component of Air University, AFIT is committed to providing responsive, defense-focused graduate and continuing education, research and consultation to improve Air Force and joint operational capability and sustain the technological supremacy of America's air and space forces. AFIT students can earn degrees in engineering, science, logistics, and acquisition. Through its civilian institution programs, AFIT also manages the educational programs of officers enrolled in Naval Post Graduate School (NPS), civilian universities, research centers, hospitals, and industrial organizations; both at the graduate and continuing education levels.

II. Force Structure Summary:

The Air Force programs funded in this Subactivity Group play a vital role in fulfilling the mission of the United States Air Force. To uphold the national purpose and to achieve the nation's objectives, the Air Force must maintain a corps of officers, enlisted personnel, and civilians dedicated to the nation's defense. Air Force employees must have an in-depth knowledge of war and the military sciences to meet the challenges of today and tomorrow's world. This knowledge is gained through the professional and specialized education programs, research and doctrinal studies, and degree programs at civilian educational institutions.

The PME programs educate airmen on the capabilities of air and space power and its role in national security. These programs focus on the knowledge and abilities needed to develop, employ, command and support air and space power at the highest levels. The Air Force has four officer PME schools located at Maxwell Air Force Base. Squadron Officer School provides PME for junior officers and civilian equivalents. Air Command and Staff College and Air War College provide PME for intermediate and senior level officers and civilian equivalents. For the enlisted corps, the Air Force has 69 Airman Leadership Schools throughout the world, seven NCO Academies (includes the Air National Guard NCOA) and one Senior NCO Academy at Maxwell-Gunter AFB.

Internal realignment of funding between OP-32 lines within this Subactivity Group to program funding based on historical execution trends.	
ii) Civilian Pay Program	\$ -2,459
Funding decrease supports the net reduction of 22 full-time equivalents in the following programs (FY 2013 Base: \$89,094; -22 W/Y):	
a.) Various Mission Realignment: Decrease realigns \$1,980 Thousand and 20 full-time equivalents to Subactivity Group 33C to accurately portray mission execution.	
b.) Manpower Freeze and Reductions: Decrease of \$214 Thousand and two full-time equivalents supports Air Force efforts to maintain civilian staffing at FY 2010 levels with limited exceptions. In addition, a comprehensive OSD-led review of areas where the Air Force could most prudently accept risk, while still being able to accomplish the mission, resulted in an additional 2.8% reduction of the civilian workforce.	
c.) Streamline of Air Force Institute of Technology (AFIT) Civilian Manpower Support: Eliminates 265 Thousand of funding due to streamlining process of civilian manpower support at the Air Force Institute of Technology (AFIT). AFIT provides defense-focused and responsive graduate/professional continuing education through its in-resident programs, Distance Learning courses, and civilian institution programs.	
iii) Management Support Contracts Reduction	\$ -663
In compliance with Executive Orders #13576, Defining an Efficient, Effective, and Accountable Government, and #13589, Promoting Efficient Spending, the Air Force reduced funding for management and service support contracts . The Air Force will focus remaining resources on those management and service support contracts that provide the greatest value to the Department in the most cost-effective way.

NOTES:

- 1) PME includes only resident AWC, ACSC, SOC (SOS and ASBC), SNCOA, CLC, all NCOAs, and ALS data as of 7 Dec 2012. Data is either from AUREPM (if completed) or published PGLs.
- 2) Air Force includes all active duty Air Force and Air Force civilians. Other includes other Sister Services, non-US, other federal agencies, and other non-federal agencies.
- 3) Professional Continuing Education (PCE) includes resident and satellite offerings for Air Education and Training Command (AETC) -sponsored courses only - to include both AETC funded and user-funded students in those courses. Previously, SAG 32 reports included all PCE courses taught by AU and AFIT.
- 4) Graduate Education includes all students attending regular and special programs (including SAASS, IDE to AFIT/NPS). Does not include part-time, certificates or Medical Graduate Education. FY12 based on actual entered and graduated from AFIT; FY13-14 input is based on FY13 PGL (Apr 2012), FY13 graduates based on FY10-11-12 input; FY14 input is based on FY14 PGL (Nov 2012) and 3 year averages as estimates for user funded; FY14 output based on FY12-13 estimated input.
- 5) ALS "input" for FY12 based on reported "Output as actual input data is not available. FY13-FY14 based on current PME PGL.
- 6) Workload is based on 246 training days per year per AETC formula: (Input+Output)/average length*246.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Training and Recruiting
Activity Group: Basic Skills and Advanced Training
Subactivity Group: Training Support

I. Description of Operations Financed:

Activities support essential training functions encompassing Management Headquarters Training, Advanced Distance Learning, and Training Support to units. Headquarters Air Education and Training Command (AETC) provides positive command, control, and guidance to the Air Force Training Establishment. Field Training Detachments conduct on-site training at Active, Guard and Reserve installations on weapon systems identified to specific commands.

The Air Force Career Development Academy manages the development of 296 courses. These include Career Development Courses (CDCs) and Specialized Courses that are delivered via Distance Learning for enrolled personnel from Active Duty Air Force, Guard, Reserve, other Services, Civil Air Patrol, Civilians and Government Contractors.

II. Force Structure Summary:

The Air Force has 45 Field Training Detachments including various worldwide locations. The Muir S. Fairchild Research Information Center library loans over 2,000 items from its collections each year to government, academic, and public libraries across the country and around the world. The Center publishes bibliographies and the Air University Library Index to Military Periodicals.

c) Program Decreases in FY 2014.....\$ -434

i) Internal Realignment \$ 0

Internal realignment of funding between OP-32 lines within this Subactivity Group to program funding based on historical execution trends.

ii) Executive Order Travel Reduction \$ -434

In compliance with the Executive orders on Promoting Efficient Spending to support Agency Operations dated 9 November 2011 and 11 May 2012, the Air Force will reduce travel expenses by utilizing more video and phone teleconferencing. The Air Force will also carefully analyze the necessity for conferences and schools held off site in an effort to reduce the overall dependency on travel funding. (FY 2013 Base: \$2,228)

IV. Performance Criteria and Evaluation Summary:

	<u>FY 2012 Actual</u>	<u>FY 2013 Estimate</u>	<u>FY 2014 Estimate</u>
*Enrollments: Extension Course Program	57,838	123,717	63,768
**Mobile Training Teams - Student Production	7,985	10,886	9,951
***Field Training Detachments-Student Production	31,946	40,348	34,000

*Air University (AU): Enlisted Career Development Courses (CDCs) and Specialty Courses. Estimates include only CDC and Specialized Courses. AFCDA reorganized effective 1 January 2012 and Professional Military Non-residence courses became the responsibility of each specific schoolhouse.

**Mobile Training Teams travel to various locations to teach. For example, Air Force has a mobile training team from Keesler AFB that teaches personnel specialists from all services how to account for mission readiness indicators in the Status of Resource and Training System database. This is critical for decision-maker awareness of combat readiness.

*** Field Training Detachments (FTD) are located at various training bases. Examples of FTD-courses taught include aircraft/avionics courses such as Predator Instrument Systems and both Fighter/Heavy Aircraft Engine Maintenance.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Training and Recruiting
Activity Group: Basic Skills and Advanced Training
Subactivity Group: Depot Maintenance

I. Description of Operations Financed:

The Air Force enhances management and programming for Total Force sustainment requirements by reviewing sustainment requirements at the enterprise level. This concept, Weapon System Sustainment (WSS), includes Depot Purchased Equipment Maintenance (DPEM), Contractor Logistics Support (CLS), Sustaining Engineering (SE) and Technical Orders (TO) commodities. The Air Force determines WSS funding levels for each primary weapon system and program by allocating resources between the four commodities to meet operational capabilities (i.e. aircraft availability) for Total Air Force and combatant commander requirements. Within WSS, DPEM encompasses funding for required organic, contract and interservice depot level maintenance and CLS encompasses funding required for contract support to include depot level maintenance. SE and TO programs for the Training and Recruiting Budget Activity are funded in Subactivity Group 32B.

DPEM funds eight different commodity groups through organic and/or contract depot work (organic depot is work performed by Air Logistics Complex workforce in an Air Force facility and contract depot is work contracted by Air Logistics Complexes to be performed by a contract workforce at a commercial facility):

1. Aircraft: primarily aircraft Programmed Depot Maintenance (PDM), non-PDM aircraft (i.e., helicopters and A-10s) and aircraft damage repair;
2. Engine: overhaul and repair of aircraft and missile engines;
3. Missiles: overhaul of missile systems such as Minuteman and air launched cruise missiles;
4. Other Major End Items (OMEI): overhaul and repair of special purpose vehicles (trailers, fire trucks, refuelers, loaders, sweepers, etc), Automated Test Equipment (ATE) and common support equipment (avionics and electronic warfare test stations, bore scopes, and Non-Destructive Inspection (NDI) equipment, etc.);
5. Software: correct deficiencies in embedded weapon system software;
6. Non-Working Capital Fund exchangeables: repair of items such as missile guidance sets and launchers, pylons and bomb racks, fuel tanks, cargo pallets and nets;
7. Area and Base Support (ABS): provides support to areas and bases beyond their normal capabilities such as Precision Measurement Equipment Laboratory calibration support; and
8. Storage: maintenance of assets removed from active inventories.

Contractor Logistics Support (CLS) funds contract support for a program, system, training system, equipment or item used to provide all or part of the sustainment elements in direct support of an approved sustainment strategy. CLS covers a variety of support elements: repair, flying hours (commodities), materiel management, configuration management, technical data management, sustaining engineering, training, supply and repair parts management, failure reporting and analysis, distribution, depot level maintenance, contract and/or partner maintenance, and operating command organizational maintenance. Though CLS is contract maintenance, there is some organic depot maintenance work accomplished through partnerships and work-sharing (e.g., F-22 work at Ogden Air Logistics Complex (ALC), Utah and KC-10 paint and F117 and F119 engine overhauls at Oklahoma City ALC, Oklahoma).

II. Force Structure Summary:

In this Subactivity Group, DPEM and CLS support the readiness of the Air Force's training and recruitment activities, to include the aircraft and support equipment required in training undergraduate pilots, navigators and other aircrew members.

Ongoing efforts to meet Congressional intent required the movement of all Contractor Logistics Support from SAG 32B into SAG 32M. Contractor Logistics Support (CLS) funds contract support for a program, system, training system, equipment or item used to provide all or part of the sustainment elements in direct support of an approved sustainment strategy.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Training and Recruiting
Activity Group: Other Training and Education
Subactivity Group: Recruiting and Advertising

I. Description of Operations Financed:

Recruiting operations provide officer and enlisted personnel the required quantity, quality, and skills, both non-prior and prior service, to fulfill Air Force manpower requirements. Advertising supports the following programs: Enlisted Accessions, Air Force Academy, Reserve Officer Training Corps, Officer Training, Physician, Nurse, Dentist, Bioenvironmental Sciences Corps, Attorneys, Chaplains, and Specialized Recruiting needs (hard-to-fill skills). Advertising and event marketing campaigns support both current and long range accession objectives by building and maintaining public support for the role the Air Force plays in national defense and the value it brings to the nation and by generating sales leads for the recruiting force. Advertising and event marketing campaigns are based on Air Force recruiting needs, available funding, and the most effective media mix that supports 11 Active duty recruiting programs.

II. Force Structure Summary:

There are three recruiting regions and 24 recruiting squadrons.

iii) Contract Insourcing Initiative \$ -1,274

The Air Force continues to reduce funding associated with programmed contractor-to-civilian conversions as part of the Department of Defense initiative to reduce its reliance on contractors and replace these positions with Department of Defense civilians. (FY 2013 Base: \$1,484)

iv) Executive Order Travel Reduction \$ -1,016

In compliance with the Executive Orders on Promoting Efficient Spending to support Agency Operations dated 9 November 2011 and 11 May 2012, the Air Force will reduce travel expenses by utilizing more video and phone teleconferencing. The Air Force will also carefully analyze the necessity for conferences and schools held off site in an effort to reduce the overall dependency on travel funding. Reduces funding for travel related to recruiting activities. (FY 2013 Base: \$10,775)

v) Promotional Items \$ -900

The Air Force reduced the amount of funding used to purchase promotional items for recruiting purposes. This reduction represents the Air Force's continued efforts to meet today's constrained fiscal environment with a more disciplined use of spending. (FY 2013 Base: \$3,725)

vi) Civilian Pay Program \$ -846

Funding decrease supports the net reduction of eight full-time equivalents in the following programs (FY 2013 Base: \$19,070; -8 W/Y):

a.) Manpower Freeze and Reductions: Decrease of \$846 Thousand and eight full-time equivalent positions supports Air Force efforts to maintain civilian staffing at FY 2010 levels with limited exceptions. In addition, a comprehensive OSD-led review of areas where the Air Force could most prudently accept risk, while still being able to accomplish the mission, resulted in an additional 2.8% reduction of the civilian workforce.

vii) Reduce Vehicle Leasing \$ -574

The Air Force further reduced logistical support for General Services Agency leased fleet by reducing the size of the overall fleet. This reduction will bring the projected costs of the Air Force leased fleet in line with anticipated requirements. (FY 2013 Base: \$6,889)

I. Description of Operations Financed:

Examining Activities optimize selection and classification of accessions to provide the best match of skills and aptitudes for Total Force mission capability to include emerging requirements (such as Remotely Piloted Aircraft Operator Selection) and the legal requirements for testing and Department of Defense requirements for joint-service testing. This is accomplished by predicting training and job success based on current qualifications, supporting the "Right Person" goal of the Air Force Personnel Mission, developing and validating assessment tools, and conducting analysis to establish policy standards. The program encompasses Enlisted and Officer testing, including the Armed Services Vocational Aptitude Battery (ASVAB), the Strength Aptitude Test (SAT), the Air Force Officer Qualifying Test (AFOQT), and the Test of Basic Aviation Skills (TBAS) used for pilot selection. This program also funds military manning at the Military Entrance Processing Stations (MEPS), where applicants to all Services are processed before they are sent to basic training.

II. Force Structure Summary:

There are 65 MEPS locations throughout the continental United States.

Operation and Maintenance, Air Force
Budget Activity: Training and Recruiting
Activity Group: Other Training and Education
Subactivity Group: Off Duty and Voluntary Education

I. Description of Operations Financed:

The Off-Duty and Voluntary Education Program is a major recruiting, retention and readiness tool which provides active duty personnel the opportunity for professional and personal development and advancement through military tuition assistance for post secondary education. Specific off-duty programs financed include the Veterans Education Assistance Program (VEAP), the Educational Assistance Test Programs, and the Tuition Assistance program, as well as civilian pay, training and infrastructure.

II. Force Structure Summary:

Funding supports education offices throughout the Air Force.

Normalized FY 2013 Current Estimate.....	\$ 155,170
6. Price Change	\$ 2,748
7. Transfers.....	\$ 0
8. Program Increases	\$ 8,763
a) Annualization of New FY 2013 Program.....	\$ 0
b) One-Time FY 2014 Costs	\$ 0
c) Program Growth in FY 2014	\$ 8,763

i) Civilian Pay Program..... \$ 8,763

Funding increase supports the net growth of 103 full-time equivalents in the following programs (FY 2013 Base: \$21,892; 103 W/Y):

- a.) Veterans Opportunity to Work: Increase of \$6,525 Thousand and 79 full-time equivalents to support the Vow to Hire Heroes Act and the Veterans Educational Initiative (VOW/VEI). These services provide airmen pre-separation and retirement briefings and training.
- b.) Various Mission Realignment: Increase realigns \$2,280 Thousand and 25 full-time equivalents from Subactivity Groups 32C and 33E to accurately portray mission execution. 20 full-time equivalents were transferred from Subactivity Group 32C and five full-time equivalents were transferred from Subactivity Group 33E.
- c.) Ministry of Defense: Decrease of \$42 Thousand and one full-time equivalents to support proper funding of foreign nationals at the United Kingdom (UK) Ministry of Defense. The foreign national payroll was previously reimbursed to the UK and this action aligns the foreign nationals as indirect hire civilians.

Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Training and Recruiting
Activity Group: Other Training and Education
Subactivity Group: Civilian Education and Training

I. Description of Operations Financed:

The Civilian Education and Training Program funds the Central Salary Account (CSA) and Training and Education for civilians.

The CSA supports a force renewal program that provides a properly sized and well-balanced civilian workforce. CSA funds intern and Student Career Employment Program (SCEP) (previously referred to as co-ops) salaries, recruiting activities, and bonuses (e.g. recruiting bonuses and repaying of student loans for targeted hard-to-fill specialties). Additionally, CSA funding supports a force development program that provides a pool of qualified and experienced people to fill mid-level through Senior Executive Service (SES) positions and includes career broadening and rotational assignments. The programs include funds to maintain programmed full time equivalents (FTEs) and work years. This program also includes funding for intern recruiting bonuses, a student loan repayment program and relocation bonuses. Furthermore, the programs include funding for the recruiting of interns to include scientists and engineers (S&E). Finally, this program includes funding for marketing employment opportunities at the college level for S&E.

The remaining funding supports civilian education and training events. Civilian education and training provides technical, professional, and specialized skill training, supervisory and management development to approximately 180,000 Air Force civilian employees. Funds are used to train a broad array of civilians from those who maintain Air Force facilities and aircraft to those who are involved in the research and design of advanced systems. This program also includes additional funding to meet skill and proficiency training and retraining requirements identified for civilians with 10 or more years of service who will replace those civilians retiring in the next 3-5 years.

9. Program Decreases.....	\$ -784
a) One-Time FY 2013 Costs	\$ 0
b) Annualization of FY 2013 Program Decreases.....	\$ 0
c) Program Decreases in FY 2014.....	\$ -784
i) Management Support Contracts Reduction	\$ -331
<p style="margin-left: 40px;">In compliance with Executive Orders #13576, Defining an Efficient, Effective, and Accountable Government, and #13589, Promoting Efficient Spending, the Air Force reduced funding for management and service support contracts. The Air Force will focus remaining resources on those management and service support contracts that provide the greatest value to the Department in the most cost-effective way. (FY 2013 Base: \$14,888)</p>	
ii) Civilian Pay Program	\$ -268
<p style="margin-left: 40px;">Funding decrease supports the net reduction of three full-time equivalents in the following programs (FY 2013 Base: \$150,085; -3 W/Y):</p>	

**DEPARTMENT OF THE AIR FORCE
 Fiscal Year (FY) 2014 Budget Estimates
 Operation and Maintenance, Air Force
 Budget Activity: Training and Recruiting
 Activity Group: Other Training and Education
 Subactivity Group: Civilian Education and Training**

a.) Civilian Internship Program: Decrease of \$268 Thousand and three full-time equivalents to the Air Force Civilian Internship Program due to a streamline process review. Funding for this program allows for the recruitment, training, and hiring of high-achieving college graduates into demanding management and technical jobs to meet the Air Force operational needs; places fully trained/skilled individuals into the permanent workforce upon completion of program.

iii) Executive Order Travel Reduction..... \$ -185

In compliance with Executive Orders on Promoting Efficient Spending to support Agency Operations dated 9 November 2011 and 11 May 2012, the Air Force will reduce travel expenses by utilizing more video and phone teleconferencing. The Air Force will also carefully analyze the necessity for conferences and schools held off site in an effort to reduce the overall dependency on travel funding. (FY 2013 Base: \$2,324)

IV. Performance Criteria and Evaluation Summary:

	<u>FY 2012</u>	<u>FY 2013</u>	<u>FY 2014</u>
Civilian Education and Training (Training Events)*	36,074	37,230	36,277
Central Salary Account (Workyears)	1,904	1,902	1901
Intern Recruitment Bonus Program**	104	144	125

NOTES:

* Education/training requirements are captured in the Civilian Automated Training Input System. Training Events support critical day-to-day mission requirements to include development of knowledge and skills mandated by public law, regulation and/or executive order. Funds also support operational training for health or safety, development of core competencies and long-term force renewal requirements.

** Numbers of recruitment/retention bonus recipients can fluctuate from year-to-year based on requirements to support placement of individuals (across all career fields) in hard to fill locations (i.e., Pentagon, Washington DC, Hanscom AFB, MA).

I. Description of Operations Financed:

Air Force Junior Reserve Officer Training Corps (JROTC) units are located in high schools throughout the nation and selected dependent schools in Europe, and Guam. This program is primarily designed to instill within students of United States secondary educational institutions the values of citizenship, service to the United States, personal responsibility, a sense of accomplishment and motivation to graduate from high school. Funding primarily pays for JROTC instructor pay.

II. Force Structure Summary:

This Subactivity Group's force structure supports JROTC units in the continental United States in addition to JROTC units overseas. The average unit has about 135 Cadets.

service support contracts that provide the greatest value to the Department in the most cost-effective way.
 (FY 2013 Base: \$68,777)

iii) Civilian Pay Program \$ -622

Funding decrease supports the net reduction of six full-time equivalent in the following programs (FY 2013 Base: \$2,656, -6 WY):

a.) Various Mission Realignments: Decrease realigns \$300 Thousand and 5 full-time equivalents to Subactivity Group 33C to accurately portray mission execution.

b.) Manpower Freeze and Reductions: Decrease of \$122 Thousand and one full-time equivalent supports Air Force efforts to maintain civilian staffing at FY 2010 levels with limited exceptions. In addition, a comprehensive OSD-led review of areas where the Air Force could most prudently accept risk, while still being able to accomplish the mission, resulted in an additional 2.8% reduction of the civilian workforce.

c.) Change in Premium Pay: Decrease of \$200 Thousand accounts for changes in premium pay for civilians providing exam administration functions.

FY 2012 Enacted Overseas Contingency Operations \$0

Exhibit OP-5, Subactivity Group 33E

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Activity Group: Logistics Operations
Subactivity Group: Logistics Operations

I. Description of Operations Financed:

Logistics operations funds readiness requirements for Air Force Materiel Command's (AFMC) five centers (Air Force Life Cycle Management Center, Air Force Sustainment Center, Air Force Test Center, Air Force Research Laboratory, and Air Force Nuclear Weapons Center), headquarters, Air Force acquisition program executive offices and several field operating agencies. Funds civilian workforce and associated travel and transportation costs. Also funds key information technology enablers for Air Force logistics transformation efforts. Resources support purchased equipment maintenance, supplies, equipment, contractual services, vehicles, common support equipment and its exchangeable components. Funds reimbursement of information services by the Defense Information Systems Agency, which provides organic services above and beyond Internet service provider activities. Finally, funding supports the maintenance and sustainment of Air Force-wide logistics information systems, both depot and retail level. AFMC manages the resources and accomplishes work via organic, interservice or contract facilities. Comprehensive logistics and acquisition support activities work together to ensure Air Force readiness and sustainability. These activities are located at ten continental United States Air Force bases: Eglin, Hanscom, Hill, Kirtland, Robins, Tinker, Wright-Patterson, Scott, Arnold and Edwards.

Servicewide Transportation consists of two main programs:

1) Second Destination Transportation (SDT). SDT supplies the Air Force with worldwide transportation services which is made up of three primary pieces: A) Air Post Office (APO) mail, which provides for the transportation of mail (official and personal) for all overseas Air Force personnel and activities. This includes support for distribution of APO mail destined to and from, and between overseas installations. B) SDT centrally managed account provides for both continental United States and outside CONUS (OCONUS) movement of non-defense working capital fund Air Force materiel, such as, vehicles, munitions, aircraft engines, helicopters, and communications equipment between supply and repair facilities or base-to-base as directed by the item manager. C) Port Readiness and Port Handling, which provides the information technology and infrastructure at Surface Deployment and Distribution Command designated seaports for the loading and unloading of ocean going vessels transporting bulk cargo destined to and from, and between overseas. SDT includes over-ocean air (commercial and Air Mobility Command organic) and sealift (commercial and Surface Deployment and Distribution Command organic) to OCONUS warfighting commands. SDT funds overseas movement of subsistence items (supplies and field rations to dining facilities) for OCONUS units.

2) Defense Courier Service (DCS), established under United States Transportation Command (USTRANSCOM), is the single Department of Defense (DoD) agency responsible for secure and rapid worldwide distribution of highly classified, time-sensitive national security material and is an integral part of national command authority's command, control and communications system. DCS is responsible for transporting primarily top secret, sensitive compartmented information, cryptographic keying material and sensitive material. USTRANSCOM establishes and maintains a global courier network that services over five thousand customers, including DoD components, federal agencies, North Atlantic Treaty Organization (NATO), United States allies, and government contractors. USTRANSCOM annually receives, processes and delivers nearly two million pounds of materiel. Couriers utilize military and commercial airlift, to include overnight express carriers and small charter aircraft to facilitate secure and expeditious distribution of material.

II. Force Structure Summary:

Logistics Operations: Air Force Materiel Command's five centers (Air Force Life Cycle Management Center, Air Force Sustainment Center, Air Force Test Center, Air Force Research Laboratory, and Air Force Nuclear Weapons Center) provide cradle-to-grave acquisition and logistics support throughout the Air Force.

DEPARTMENT OF THE AIR FORCE

6. Price Change	\$ 28,560
7. Transfers.....	\$ 33,622
a) Transfers In	\$ 33,622
i) Air Force Nuclear Weapons Support	\$ 16,910
<p style="margin-left: 40px;">Increase reflects transfer from Research, Development, Test and Evaluation to Operation and Maintenance to provide nuclear weapon inventory control and maintenance for nuclear assets which include weapon storage and security system operations. This adjustment will provide uniformity among command units and establish resource conformity within Air Force functions. (FY 2013 Base: \$0)</p>	
ii) Military Clothing Sales	\$ 10,091
<p style="margin-left: 40px;">Increase reflects transfer from Base Support (Subactivity Group 41Z) to align Military Clothing Sales under the appropriate logistics support activities to monitor and provide continuous support for post initial uniform distribution to Air Force members. The Military Clothing Sales Store program funds the Air Force share of overhead costs reimbursed to the Army and Air Force Exchange (AAFES) for operation of 88 AAFES locations worldwide where Air Force uniforms are stocked. (FY 2013 Base: \$0)</p>	
iii) Air Combat Command E-Tool Program	\$ 6,621
<p style="margin-left: 40px;">Increase reflects transfer from Primary Combat Forces (Subactivity Group 11A) to properly align E-Tool sustainment in logistics support activities that monitor the hardware and technical refresh utilized by aircraft maintenance units. The Air Combat Command E-Tool program provides software and data system management for Air Force logistics processes such as accountability, spare and repair parts and asset tracking and storage. (FY 2013 Base: \$3,376)</p>	
8. Program Increases	\$ 76,690

b) One-Time FY 2014 Costs	\$ 0
c) Program Growth in FY 2014	\$ 76,690
i) Logistics Systems Maintenance.....	\$ 36,942
Increase supports logistics capabilities that provide timely, accurate and reliable information to decision makers at all levels of command and across the full range of military operations. (FY 2013 Base: \$141,758)	
ii) Second Destination Transportation	\$ 21,860
Increase supports cargo movement of various non-defense working capital fund Air Force materiel such as vehicles, munitions, aircraft engines, helicopters and communications equipment to and from overseas, depot-to-depot or base-to-base using commercial airlift. Allows the Air Force to match program with expected execution to ensure an efficient supply chain flow of materiel between depots and units. Prevents supply chain backlog of shipments, delayed or cancelled movement of materiel and delayed maintenance. (FY 2013 Base: \$98,625)	
iii) Defense Courier Service and Air Post Office (APO) Mail	\$ 17,888
Increase supports transportation for secure mail and associated costs which include military airlift used to transport classified, time-sensitive mail between stateside and overseas locations and commercial costs for land, air and sea services. (FY 2013 Base: \$62,020)	
9. Program Decreases.....	\$ -64,922

Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Activity Group: Logistics Operations
Subactivity Group: Logistics Operations

execution trends.

ii) Expeditionary Combat Support System (ECSS) \$ -19,952

Decrease maintains existing logistics systems to meet the near-term goal of Financial Improvement and Audit Readiness compliance. (FY 2013 Base: \$19,952)

iii) Functional Application Information Technology (IT) Efficiency \$ -17,620

In compliance with the Budget Control Act of 2011, the Air Force continues to achieve efficiencies by taking a centralized review of proliferated applications across the Air Force enterprise. Reduction freezes development to synchronize new work with centralized infrastructure approach, reducing embedded IT cost within program lines. Also eliminates duplicate business and mission IT applications and establishes policies and procedures in business and mission systems to achieve efficiencies. (FY 2013 Base: \$135,763)

iv) Civilian Pay Program \$ -12,709

Funding decrease supports the net growth of 157 full-time equivalents in the following programs (FY2013 Base: \$632,821; 157 WY):

a.) Manpower Freeze and Reductions: Decrease of \$26,076 Thousand and 179 full-time equivalents supports Air Force efforts to maintain civilian staffing at FY 2010 levels with limited exceptions. In addition, a comprehensive OSD-led review of areas where the Air Force could most prudently accept risk, while still being able to accomplish the mission, resulted in an additional 2.8% reduction of the civilian workforce.

b.) Nuclear Weapons Support Transfer from RDT&E: Increase of \$10,374 Thousand and 78 full-time equivalents supports FY 2013 Senate Appropriations Committee report which directed the Air Force to transfer support resources for developmental nuclear related weapon systems from Research, Development, Testing and Evaluation to the Operation and Maintenance appropriation.

c.) Various Mission Realignment: Increase realigns \$3,278 Thousand and 28 full-time equivalents from Subactivity Group 42B to accurately portray mission execution for Air Force Space Command Cyber Warfare and Air Operations Center support functions.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Activity Group: Logistics Operations
Subactivity Group: Logistics Operations

d.) Joint Strike Fighter Transfer to RDT&E: Decrease of \$285 Thousand and three full-time equivalents transfers resources from Operation and Maintenance to Research, Development, Testing and Evaluation to correct support inequity for the Joint Strike Fighter development cost-sharing agreement between the Air Force and Navy.

e.) Correction for Manpower Allocation: Increase of 233 full-time equivalents corrects manpower under-allocation for logistics and transportation management operations. The adjustment properly aligns funding and manpower resources.

v) Second Destination Transportation Port Handling \$ -11,776

Decrease adjusts program based on inflationary factors. Port Handling is a subset of Second Destination Transportation which supports freight and asset management for over 1,100 carriers, transportation of personal property, such as, household goods and privately owned vehicles, transportation engineering, port readiness (surge) and port information technology services for non-working capital funds assets. (FY 2013 Base: \$33,723)

vi) Second Destination Transportation Charters Cargo \$ -1,690

Decrease adjusts program based on inflationary factor. Military Sealift Command transportation of property is a subset of Second Destination Transportation which funds the movement of non-defense working capital fund Air Force materiel such as fuel, military vehicles, engineering and construction equipment, aircraft, ammunition, subsistence, and support and communications equipment using Military Sealift long-term charted cargo ships. (FY 2013 Base: \$23,517)

vii) Weapon System Sustainment \$ -1,175

Weapon System Sustainment is the enterprise level view of sustainment requirements in the Air Force. Within this Subactivity Group, Weapon System Sustainment includes the following program changes:

a. Sustaining Engineering: (\$ -605)

1) Logistic Operations: (\$ -605)

Decreased funding for cruise missile automatic test set, electronic systems test set, missile radar altimeter test assembly, and air data test set end items due to increased service life of equipment and a reduced

engineering study requirement.

b. Technical Orders: (\$ -570)

1) Logistic Operations: (-\$570)

Decreased funding for product lifecycle management data vault tasks due to early completion of manuals and technical orders. (FY 2013 Base: \$3,519)

FY 2014 Budget Request.....\$ 1,103,684

Activity Group: Logistics Operations
Subactivity Group: Logistics Operations

IV. Performance Criteria and Evaluation Summary:

1. Logistics Operations:

There is no Performance Criteria for the Logistics Operations portion of this Subactivity Group. Funding within Logistics Operations supports the day to day operations (travel, supplies, contracts, etc) for the approximately 14,584 military and civilian workforce. Please refer to Part 5, Personnel Summary, for details.

2. Second Destination Transportation:

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Activity Group: Logistics Operations
Subactivity Group: Technical Support Activities

I. Description of Operations Financed:

Technical support activities fund Acquisition and Command Support for Headquarters Air Force; the Air Force Life Cycle Management Center (AFLCMC); and the Air Force Operational Test and Evaluation Center.

Acquisition and Command Support provides manpower authorizations and technical/administrative support for the mission, staff functions and support activities of Headquarters Air Force; Air Force Life Cycle Management Center and the Air Force Operational Test and Evaluation Center. Funds provide program office operations for acquiring, managing and sustaining Air Force financial, logistics, civil engineering, personnel, medical, contracting and information technology systems. Acquisition and Command Support also funds acquisition/training and related expenses for the Air Force civilian and military acquisition workforce.

II. Force Structure Summary:

Air Force Life Cycle Management Center conceives, designs, develops, integrates and acquires Air Force systems, subsystems and related equipment. The AFLCMC includes the following directorates: Agile Combat Support, Armament, Battle Management, Business and Enterprise Systems, Communications, Command, Control and Intelligence Networks, Fighters and Bombers, Intelligence, Surveillance, and Reconnaissance, Special Operating Forces, Mobility, Strategic Systems, and Tankers.

Air Force Operational Test and Evaluation Center (AFOTEC) is the independent agency responsible for managing the Air Force Operational Test and Evaluation (OT&E) program. It is the principal agency providing timely Air Force Operational Test and Evaluation information to the Chief of Staff of the Air Force, the Secretary of the Air Force and, in turn, the Office of the Secretary of Defense and Congress. AFOTEC develops OT&E policies and procedures to support Air Force and joint acquisition processes. The center conducts initial, qualification, and follow-on OT&E on all programs directed by Headquarters U.S. Air Force. AFOTEC staff support consists of normal operating costs including travel, communications, computer hardware and software, technical contract support, supplies and equipment for the headquarters, five detachments and 13 operating locations dispersed across the United States.

Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Activity Group: Logistics Operations
Subactivity Group: Technical Support Activities

Normalized FY 2013 Current Estimate.....	\$ 913,843
6. Price Change	\$ 9,214
7. Transfers.....	\$ 2,700
a) Transfers In	\$ 2,700
i) Air Force Human System Integration Office (AFHSIO).....	\$ 2,700
Increase reflects transfer from Research, Development, Test, and Evaluation to Operation and Maintenance in order to support the proper execution of AFHSIO's program office requirements.	
8. Program Increases	\$ 5,236
a) Annualization of New FY 2013 Program.....	\$ 0
b) One-Time FY 2014 Costs	\$ 0
c) Program Growth in FY 2014	\$ 5,236
i) Civilian Pay Program.....	\$ 5,236
Funding increase supports the net growth of 273 full-time equivalents in the following programs (FY2013 Base: \$798,399; 273 WY):	
a.) Acquisition Excellence: Increase of \$8,022 Thousand and 87 full-time equivalents supports the development of the acquisition workforce under the Chief of Staff of the Air Force's priority for "Enhancing Acquisition Excellence" in accordance with the Defense Acquisition Workforce Improvement Act of 2009.	
b.) Average Workyear Salary Adjustment: Increase of \$1,333 corrects a programming error. The Part V shows there were no full-time equivalents for foreign nationals in FY 2013, but OP-32 104 shows an FY 2013 budgeted amount of \$-1,333. This adjustment restores the baseline to \$0.	

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Activity Group: Logistics Operations
Subactivity Group: Technical Support Activities

c.) Manpower Freeze and Reductions: Decrease of \$1,909 Thousand and 16 full-time equivalents supports Air Force efforts to maintain civilian staffing at FY 2010 levels with limited exceptions. In addition, a comprehensive OSD-led review of areas where the Air Force could most prudently accept risk, while still being able to accomplish the mission, resulted in an additional 2.8% reduction of the civilian workforce.

d.) C-130 Avionics Modernization: Decrease of \$1,143 Thousand and nine full-time equivalents supports the termination of the C-130 Avionics Modernization Program.

e.) Small Diameter Bomb: Decrease of \$1,067 and eight full-time equivalents supports termination of the Small Diameter Bomb program.

f.) Foreign Military Sales: Increase of 219 reimbursable full-time equivalents support Foreign Military Sales acquisition and command support functions.

9. Program Decreases.....	\$ -11,070
a) One-Time FY 2013 Costs	\$ 0
b) Annualization of FY 2013 Program Decreases.....	\$ 0
c) Program Decreases in FY 2014.....	\$ -11,070
i) Internal Realignment	\$ 0
Internal realignment of funding between OP-32 lines within this SAG to program funding based on historical execution trends.	
ii) Management Support Contracts Reduction	\$ -5,804
In compliance with Executive Orders #13576, Defining an Efficient, Effective, and Accountable Government, and #13589, Promoting Efficient Spending, the Air Force reduced funding for management and service support contracts. The Air Force will focus remaining resources on those management and service support contracts that provide the greatest value to the Department in the most cost-effective way.	

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Activity Group: Logistics Operations
Subactivity Group: Technical Support Activities

(FY 2013 Base: \$73,532)

iii) Contract Insourcing Initiative \$ -2,237

The Air Force continues to reduce funding associated with programmed contractor-to-civilian conversions as part of the Department of Defense initiative to reduce its reliance on contractors and replace these positions with Department of Defense civilians. (FY 2013 Base: \$86,737)

iv) Air Force Operational Test and Evaluation Center \$ -989

Reduces Air Force Operational Test and Evaluation Center operations support (i.e. training, travel, communications equipment and supplies) for independent testing on programs for which there has been little or no government-funded research and development effort. Decrease aligns programmed funds with execution of program. (FY 2013 Base: \$7,262)

v) Logistics and Installations Efficiencies \$ -636

The Air Force is continuing to develop efficiencies to improve supply chain management. The Air Force will enhance its inventory management information technologies to provide improved oversight of on-hand quantities and movement within the distribution pipeline, allowing the Air Force to reduce on-hand inventory, holding, and storage costs. (FY 2013 Base: \$21,883)

vi) Acquisition Workspace Lease \$ -578

Contract costs decreased as a result of normalized negotiated contract for leased office space for Acquisition personnel who cannot work in the Pentagon due to insufficient workspace to accommodate all military, civilian and contractor support. (FY 2013 Base: \$4,009)

vii) Knowledge Based Services Efficiency \$ -496

The Air Force continues to reduce reliance on knowledge based contractors who provide engineering, logistics, training, management and oversight to operations, sustainment, and acquisition activities, to allow more efficient use of military, civilians and retained knowledge based personnel. (FY 2013 Base: \$4,520)

viii) Executive Order Travel Reduction \$ -330

In compliance with the Executive Orders on Promoting Efficient Spending to support Agency Operations dated 9 November 2011 and 11 May 2012, the Air Force will reduce travel expenses by utilizing more video

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Activity Group: Logistics Operations
Subactivity Group: Depot Maintenance

I. Description of Operations Financed:

The Air Force enhances the management and programming for Total Force sustainment requirements by reviewing sustainment requirements at the enterprise level. This concept, Weapon System Sustainment (WSS), includes Depot Purchased Equipment Maintenance (DPEM), Contractor Logistics Support (CLS), Sustaining Engineering (SE) and Technical Orders (TO) commodities. The Air Force determines WSS funding levels for each primary weapon system and program by allocating resources between the four commodities to meet operational capabilities (i.e. aircraft availability) for Total Air Force and Combatant Commander requirements. Within WSS, DPEM encompasses funding for required organic, contract and interservice depot level maintenance and CLS encompasses funding required for contract support to include depot level maintenance. SE and TO programs for the Administration and Servicewide Activities Budget Activity are funded in Subactivity Groups 41A, 42B, 42G, and 43A.

DPEM funds eight different commodity groups through organic and/or contract depot work (organic depot is work performed by Air Logistics Complex workforce in an Air Force facility and contract depot is work contracted by Air Logistics Complexes to be performed by a contract workforce at a commercial facility):

1. Aircraft: primarily aircraft Programmed Depot Maintenance (PDM), non-PDM aircraft (i.e., helicopters and A-10s) and aircraft damage repair;
2. Engine: overhaul and repair of aircraft and missile engines;
3. Missiles: overhaul of missile systems such as Minuteman and air launched cruise missiles;
4. Other Major End Items (OMEI): overhaul and repair of special purpose vehicles (trailers, fire trucks, refuelers, loaders, sweepers, etc), Automated Test Equipment (ATE) and common support equipment (avionics and electronic warfare test stations, bore scopes, and Non-Destructive Inspection (NDI) equipment, etc.);
5. Software: correct deficiencies in embedded weapon system software;
6. Non-Working Capital Fund exchangeables: repair of items such as missile guidance sets and launchers, pylons and bomb racks, fuel tanks, cargo pallets and nets;
7. Area and Base Support (ABS): provides support to areas and bases beyond their normal capabilities such as Precision Measurement Equipment Laboratory calibration support.
8. Storage: maintenance of assets removed from active inventories.

Contractor Logistics Support (CLS) funds contract support for a program, system, training system, equipment or item used to provide all or part of the sustainment elements in direct support of an approved sustainment strategy. CLS covers a variety of support elements: repair, flying hours (commodities), materiel management, configuration management, technical data management, sustaining engineering, training, supply and repair parts management, failure reporting and analysis, distribution, depot level maintenance, contract and/or partner maintenance, and operating command organizational maintenance. Though CLS is contract maintenance, there is some organic depot maintenance work accomplished through partnerships and work-sharing (e.g., F-22 work at Ogden Air Logistics Complex (ALC), Utah and KC-10 paint and F117 and F119 engine overhauls at Oklahoma City ALC, Oklahoma).

II. Force Structure Summary:

In this Subactivity Group, DPEM and CLS support arms control implementation and other servicewide activities such as communications and depot maintenance support functions.

Ongoing efforts to meet Congressional intent required the movement of all Contractor Logistics Support from SAGs 41A and 42B into SAG 41M. Contractor Logistics

Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Activity Group: Logistics Operations

Subactivity Group: Facilities Sustainment and Restoration/Modernization and Demolition Programs

I. Description of Operations Financed:

Facilities Sustainment functions include maintenance and repair activities and projects. This Subactivity Group sustains Air Force Materiel Command (AFMC) operating installations. Facilities Sustainment activities ensure installation facilities, utility systems and infrastructure are capable of fully supporting mission requirements throughout their economic lives.

Sustainment is performed through a combination of in-house workforce and contracts. Sustainment includes the maintenance and repair activities necessary to keep an inventory of facilities in good working order. It includes regularly scheduled adjustments and inspections, preventive maintenance tasks and emergency response and service calls for minor repairs. It also includes major repairs or replacement of facility components (usually accomplished by contract) that are expected to occur periodically throughout the life cycle of facilities. This work includes regular roof replacement, refinishing of wall surfaces, repairing and replacement of heating and cooling systems, replacing tile and carpeting and similar types of work. It does not include environmental compliance costs, facility leases or other tasks associated with facilities operations (such as custodial services, grounds services, waste disposal and the provision of central utilities).

The Department of Defense (DoD) Facilities Sustainment Model (FSM) is used as the standardized model for forecasting facilities sustainment resource requirements. In anticipation of cost savings, the Air Force funded FY 2014 sustainment at 80 percent of the FSM labor and material cost. The FSM uses the following formula to develop the sustainment requirement:

Annual sustainment requirement = facility quantity x sustainment cost factor x location factor x inflation

Facility quantity - the facility size expressed in the Facility Analysis Category (FAC) unit of measure (such as square feet)

Sustainment cost factor - the average annual unit cost (in current year dollars) for sustaining the average size facility in the given FAC

Location factor - a location adjustment based upon the local costs for labor, equipment, materials and currency exchange rates (overseas) compared with an overall base-city average

Inflation - factor to adjust current year prices to the target future year

The Department uses a sustainment metric which is the comparison of sustainment funding to the requirement for a given year, expressed as a rate.

Sustainment rate (%) = sustainment funding/FSM requirement

Restoration means the restoration of real property to such a condition that it may be used for its designated purpose. Restoration includes repair or replacement work to restore facilities damaged by inadequate sustainment, excessive age, natural disaster, fire, accident or other causes.

Modernization means the alteration or replacement of facilities solely to implement new or higher standards, to accommodate new functions or to replace building components that typically last more than 50 years (such as the framework or foundation). Modernization also includes infrastructure repairs and minor construction to

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Activity Group: Logistics Operations

Subactivity Group: Facilities Sustainment and Restoration/Modernization and Demolition Programs

accommodate changes in mission requirements, including new mission beddowns. Modernization is critical to ensure aging facilities remain capable of supporting mission requirements as they evolve over the long lives of facilities and infrastructure systems.

Recapitalization means the major renovation or reconstruction activities (including facility replacements) needed to keep existing facilities modern and relevant in an environment of changing standards and missions. Recapitalization extends the service life of facilities or restores lost service life. It includes restoration and modernization of existing facilities.

Plant Replacement Value (PRV) is used as the basis for generating recapitalization requirements. The DoD standardized formula for calculating PRV is:

PRV = facility quantity x construction cost factor x location factor x Planning & Design (P&D) factor x historical factor x contingency factor x Supervision, Inspection and Overhead (SIOH) x inflation

Facility quantity - the facility size expressed in the FAC unit of measure (such as square feet)

Construction cost factor - the average annual unit cost (in current year dollars) for constructing the average size facility to current standards in the given FAC

Location factor - a location adjustment based upon the local costs for labor, equipment, materials and currency exchange rates (overseas) compared with an overall base-city average

P&D factor - an adjustment to account for typical project planning and design costs

Historical factor - an adjustment for historical architecture and materials (when applicable)

Contingency factor - an adjustment for typical contingency costs during construction

SIOH - an adjustment for supervision, inspection and overhead costs associated with construction management

Inflation - factor to adjust current year prices to the target future year

Demolition is performed primarily by contract. Facilities and infrastructure are demolished to free space for future construction and to eliminate obsolete facilities from the real property inventory. Demolition is a key component of the Air Force strategy to consolidate functions, vacate excess and obsolete facilities and focus sustainment, restoration and modernization funding on facilities intended to function well into the future.

The most significant categories receiving this support are sustainment, restoration and modernization of real property, including:

- Aircraft maintenance and generation complexes
- Airfield runways, taxiways and ramps
- Critical infrastructure, including utility systems

Administrative support facilities for coalition partners

II. Force Structure Summary:

The Air Force has initiated a Civil Engineering Transformation and is beginning to implement a multi-pronged asset management approach to centralize, standardize, streamline, re-organize and enhance efficiency at all levels of the Civil Engineering enterprise. Through increased centralization, improved management and oversight of requirements, comprehensive program development and efficient execution, the Air Force will better apply its limited resources and reduce risk to mission and Airmen. This effort significantly helps the Air Force meet its overall objectives, in terms of dollars and manpower reductions and will assist the Air Force to better prioritize its future requirements in a fiscally constrained environment. To enable enterprise-wide investments in the built-asset portfolio, the Air Force has centralized prioritization of large life-cycle Sustainment repair and all Restoration and Modernization (including demolition) projects. In FY 2014, the Air Force realigned funding in support of these activities from Subactivity Groups 21R, 31R, and 41R to Subactivity Group 11R.

Supports Facilities Sustainment at Air Force Materiel Command (AFMC) installations.

I. Description of Operations Financed:

This program provides funding for installation support functions, engineering and environmental programs in support of Air Force Materiel Command (AFMC), Air Force District Washington (AFDW) and Headquarters Air Force (HAF). The program sustains mission capability, quality of life, workforce productivity and infrastructure support. Significant categories of support are listed below:

Unaccompanied Personnel Housing Services (UPH): Manages execution of government owned, leased, contracted, or privatized UPH. Unaccompanied Personnel Housing includes: Permanent Party UPH management services, initial issue of furnishings (furniture, appliances, and equipment) for newly constructed and renovated facilities, and management of replacement furnishings (repair, replace, control, moving and handling, inventory, warehousing and disposal).

Child and Youth Programs: Assists Department of Defense (DoD) military and civilian personnel in balancing the competing demands of family life and the accomplishment of the DoD mission by managing and delivering a system of quality, available and affordable programs and services (child development, school age, and youth program services) for eligible children and youth from birth through 18 years of age.

Warfighter and Family Services: Provides principal mission readiness resources for leaders at all levels, service members and their families, qualifying DoD personnel and their families, deployed civilians, and military retirees and their families, offering information, education, prevention and intervention, and services necessary to address the unique personal and family readiness needs of the mobile and deployed military community.

Morale, Welfare and Recreation (MWR): Provides appropriated fund resources for all Category A activities (Mission-Sustaining Activities) in support of programs that promote the physical and mental well-being of the military member, their families, and other authorized users as defined by DoDI 1015.10 (including both deployed and post-deployment environments). Provides appropriated fund resources for all Category B activities (Community Support Programs) in support of programs, closely related to mission sustaining programs, which satisfy the physiological and psychological needs of military members, their families, and other authorized users. Provides appropriated fund resources for all Category C activities (Revenue-Generating Programs) in support of programs at designated remote and isolated locations as defined and authorized in Enclosures 4 and 5 of DoDI 1015.10.

Lodging: Includes Temporary Duty (TDY) Lodging and Permanent Change of Stations (PCS) Lodging. Provides resources for lodging and related services to authorized TDY personnel to support mission readiness and maintain maximum occupancy in DoD facilities to reduce official travel costs. Provides resources for lodging and related services to authorized personnel and family members to support PCS orders for travel and maintain maximum occupancy in DoD facilities to reduce official and personal travel costs.

Airfield Operations: Funds contract airfield services for transient U.S. military aircraft and aircrew.

Information Technology Services Management (ITSM): Includes delivery of services consisting of secure and non-secure fixed voice communications, wireless voice, data and video connectivity services, video conferencing services. Provides infrastructure support, including the design, installation, and maintenance of special circuits/systems in support of life safety/security systems and monitoring/control systems. Provides Collaboration and Messaging including services and tools for the workforce to communicate and share. Provides Application and Web-hosting operations and management services required to support web and application hosting. Provides for IT Operations Centers including systems and processes necessary to allow customers to have seamless access to IT applications and solutions. Provides

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Activity Group: Logistics Operations
Subactivity Group: Base Support

Desktop Management Support for end-user hardware and software services and tools. Includes Service Desk Support, Continuity of Operations (COOP) and Disaster Recovery support, requirements and training for common-user software applications, Information Assurance, and Multimedia/Visual Information. Provides printing, publication, and duplication services.

Command Support: Funds Wing command staff agency functions formerly part of Base Operating Support (BOS) such as Command Management, The Inspector General, Plans, Programs, Public Affairs, Judge Advocate General, Financial Management, Procurement Operations, Ground, Flight and Weapons Safety, and Chaplain Ministries.

Collateral Equipment: Funds procurement of office furniture associated with Facilities Restoration and Modernization projects, including projects in the Military Construction program. This does not include dormitory and housing furnishings.

Civilian Personnel Services: Plans, manages, coordinates, and executes Civilian Personnel Services for the life-cycle management of human capital at installations for Appropriated Fund civilian workforce and military personnel and their families.

Military Personnel Services: Provides customer support services that directly provide or indirectly result in tangible benefits to the military community or the mission. Provides military personnel information systems customer support services. Includes processing workforce changes required to accomplish the DoD mission.

Installation Law Enforcement (LE) Operations: Includes enforcing federal, state and military law, enforcing installation guidance, issuance of citations, detaining suspects, motor vehicle traffic management, traffic investigations, apprehension and restraint of offenders, and crowd control, crime prevention, crime detection, LE patrols, LE liaison, apprehension of persons who commit crimes on the installation, testifying in prosecution cases and temporary detention of offenders. This includes protecting, defending, and deterring against criminal activities, conduct of minor investigations, the development of plans for the employment of law enforcement activities and functions and includes all processes intended to preserve the principles of law through various strategies.

Installation Physical Security Protection and Services: Includes personnel, procedures and equipment measures employed or designed to safeguard personnel, facilities and property from loss, destruction, espionage, terrorism, or sabotage on the installation; prevent unauthorized access to facilities/installations/restricted areas, equipment, and materials. This includes regulation of people, material, and vehicles entering or exiting a designated area; mobile and static security activities for the protection of installation or government assets; conduct of physical security inspections/assessments, construction design reviews, special protection of high value or sensitive property and management of installation security systems, plans and funding.

Supply Logistics: Includes eight classes of supply: Class I-Subsistence; Class II-Clothing, individual equipment, tents, etc; Class III-Petroleum, oils, lubricants; Class IV-Construction; Class VI-Personal demand items; Class VII-Major end items; Class IX-Repair parts and components; and Class X-Material to support non-military programs.

Community Logistics: Includes the execution of installation food services and laundry and dry cleaning services. Installation food services includes the operation and administration of installation, remote, and flight/ground support feeding but excludes cost of food, costs of non-installation field support, hospital food services, and Basic Allowances for Subsistence. Laundry and dry cleaning services include cleaning and pressing textiles, garments, linens and other fabrics. Includes organizational clothing and individual equipment, other articles required by installation, and the sewing on of rank and unit patches on service member's initial issue of clothing.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Activity Group: Logistics Operations
Subactivity Group: Base Support

Transportation Logistics: Management and administration of acquisition dispatch, operation, maintenance, and disposal of all non-tactical government owned and controlled vehicles and transportation related equipment used for the day-to-day support of installation operations.

Environmental Conservation/Compliance: Environmental Conservation provides for protection and enhancement of natural and cultural resources, consultations with environmental regulators and mapping and planning support systems. Environmental Compliance ensures all federal, state and local environmental laws are enforced through sampling, analysis and monitoring; hazardous waste characterization and disposal; underground storage tank removal/repair/replacement; leak detection and monitoring; spill response and clean-up; environmental surveys; training; and maintenance, repair and minor construction projects for environmental facilities and infrastructure.

Pollution Prevention: Established to prevent future pollution by reducing hazardous material use and release of pollutants into the environment to as near zero as feasible to alleviate environmentally harmful discharges to the air, land, surface and ground water.

Facilities Operation: This program provides engineering operations, engineering services and real property management required to accomplish such municipal-type activities as emergency services (fire protection/aircraft crash rescue, emergency management and explosive ordnance disposal), utility plant operations, refuse collection and disposal (including non-hazardous recycling), custodial services, snow removal, street sweeping, grounds maintenance, and insect control. The program also funds real property leases and purchased utilities (electric, gas, water and sewer) for Air Force installations.

II. Force Structure Summary:

Supports the sustainment of mission capability, quality of life, workforce productivity and infrastructure support for all Logistics Operations and Service-wide activities. Supports Environmental Compliance, Environmental Conservation and Pollution Prevention for all Active Air Force MAJCOMs.

The Air Force has initiated a Civil Engineering Transformation and is beginning to implement a multi-pronged asset management approach to centralize, standardize, streamline, re-organize and enhance efficiency at all levels of the Civil Engineering enterprise. Through increased centralization, improved management and oversight of requirements, comprehensive program development and efficient execution, the Air Force will better apply its limited resources and reduce risk to mission and Airmen. This effort significantly helps the Air Force meet its overall objectives, in terms of dollars and manpower reductions and will assist the Air Force to better prioritize its future requirements in a fiscally constrained environment.

FY 2013 Appropriated Amount	\$ 1,266,800
2. War-Related and Disaster Supplemental Appropriations	\$ 0
3. Fact-of-Life Changes	\$ 0
FY 2013 Appropriated and Supplemental Funding	\$ 1,266,800
4. Anticipated Reprogramming (Requiring 1415 Actions)	\$ 0
Revised FY 2013 Estimate	\$ 1,266,800
5. Less: Emergency Supplemental Funding	\$ 0
a) Less: War Related and Disaster Supplemental Appropriation	\$ 0
b) Less: X-Year Carryover (Supplemental)	\$ 0

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Activity Group: Logistics Operations
Subactivity Group: Base Support

Normalized FY 2013 Current Estimate.....	\$ 1,266,800
6. Price Change	\$ 20,768
7. Transfers.....	\$ -112,691
a) Transfers In	\$ 2,476
i) Facility Operations	\$ 2,476
<p>Increase reflects transfer from Subactivity Groups 11Z and 21Z in order to align Civil Engineering (CE) Transformation providing an asset management approach to enhance efficiency across the CE enterprise. Included are three Air Force Field Operating Agencies (FOA) -- Air Force Center for Engineering and the Environment, Air Force CE Support Agency and Air Force Real Property Agency. (FY 2013 Base: \$37,168)</p>	
b) Transfers Out	\$ -115,167
i) Civil Engineering (Environmental Consolidation).....	\$ -91,479
<p>Decrease reflects transfer to Subactivity Group 11Z in support of the consolidation of the Air Force Center for Environmental Excellence, Air Force Civil Engineer Support Agency, and Air Force Real Property Agency in order to implement an asset management approach to centralize, standardize, and enhance efficiency at all levels of the Civil Engineering enterprise. This effort consolidates Environmental Compliance, Environmental Conservation and Pollution Prevention. (FY 2013 Base: \$139,522)</p>	
ii) Information Technology Services Management.....	\$ -13,597
<p>Decrease reflects realignment of funds to Base Operations (Subactivity Group 21Z) to realign Information Technology Services Management Administration to Information Technology Services Management Mobility to better align funding with execution in accordance with 2005 BRAC Law as it applies to Joint Base Andrews/Naval Air Facility Washington. (FY 2013 Base: \$13,597)</p>	
iii) Military Clothing Sales	\$ -10,091
<p>Decrease reflects realignment of funds to Subactivity Group 41A to align Military Clothing Sales under the appropriate logistics support activities to monitor and provide continuous support for post initial uniform</p>	

DEPARTMENT OF THE AIR FORCE

distribution to Air Force members. The Military Clothing Sales Store program funds the Air Force share of overhead costs reimbursed to the Army and Air Force Exchange (AAFES) for operation of 88 AAFES locations worldwide where Air Force uniforms are stocked. (FY 2013 Base: \$16,644)

8. Program Increases	\$ 62,457
a) Annualization of New FY 2013 Program.....	\$ 0
b) One-Time FY 2014 Costs	\$ 0
c) Program Growth in FY 2014	\$ 62,457
i) Food Services Core Program.....	\$ 43,400
Increase funds Food Service requirements based on historical execution. Food Services supports Air Force readiness and peacetime missions by providing food at Airman Dining Facilities and alert kitchens across the Air Force. (FY 2013 Base: \$42,666)	
ii) Utilities	\$ 13,880
Funding increased to support Utilities Privatization contracts across several Air Force installations as well as increase utility funding from 90 percent to 95 percent. (FY 2013 Base: \$153,365)	
iii) Competitive Sourcing and Privatization.....	\$ 5,177
Decrease funds consistent with the government-wide moratorium on the use of funds for public-private competitions. Section 325 of the National Defense Authorization Act for Fiscal Year 2010 (P.L. 111-84), prohibits the Department of Defense from beginning or announcing any public-private competitions. (FY 2013 Base: \$12,954)	
9. Program Decreases.....	\$ -34,029
a) One-Time FY 2013 Costs	\$ 0

DEPARTMENT OF THE AIR FORCE

Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Activity Group: Logistics Operations
Subactivity Group: Base Support

b) Annualization of FY 2013 Program Decreases.....	\$ 0
c) Program Decreases in FY 2014.....	\$ -34,029
i) Internal Realignment	\$ 0
Internal realignment of funding between OP-32 lines within this Subactivity Group to program funding based on historical execution trends.	
ii) Civilian Pay Program	\$ -30,862
Funding decrease supports the net reduction of 168 full-time equivalents in the following programs (FY2013 Base: \$579,617; -168 WY):	
a.) Voluntary Separation Incentive Payments (VSIP): Decrease of \$8,550 Thousand reduces funds available to incentivize employees to leave Federal Service voluntarily. The Air Force will require less force shaping in FY 2014.	
b.) Manpower Freeze and Reductions: Decrease of \$39,609 Thousand and 258 full-time equivalents supports Air Force efforts to maintain civilian staffing at FY 2010 levels with limited exceptions. In addition, a comprehensive OSD-led review of areas where the Air Force could most prudently accept risk, while still being able to accomplish the mission, resulted in an additional 2.8% reduction of the civilian workforce.	
c.) Foreign Military Sales: Increase of 89 reimbursable full-time equivalents supports Foreign Military Sales acquisition and command support functions.	
d.) Ministry of Defense: Increase of \$90 Thousand and one full-time equivalents supports proper funding of foreign nationals at the United Kingdom (UK) Ministry of Defense. The foreign national payroll was previously reimbursed to the UK and this action aligns the foreign nationals as indirect hire civilians.	
e.) Premium Pay: Increase of \$107 Thousand supports changes in premium pay for civilians supporting facility sustainment operations.

Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Activity Group: Logistics Operations
Subactivity Group: Base Support

iii) Communications Infrastructure Efficiencies \$ -2,644

The Air Force continues to find savings by establishing policies and procedures in the following four communication infrastructure areas in order to achieve efficiencies: Base Communications; Information and Telecommunication Services and the Air Force Network; Engineering and Installation; and Command Communications. Base Communications funds operations and sustainment of telecommunication and information services. Information and Telecommunication Services provides switching infrastructure connecting buildings to the base enterprise network. Engineering and Installation satisfies upward generated base communications modifications. The Air Force Network establishes one Air Force-wide intranet, and Command Communications provides command and control circuits and support. (FY 2013 Base: \$32,637)

iv) Pentagon Rent..... \$ -523

The Air Force portion of Pentagon rent and sustainment costs decreased by eliminating above and beyond standards for overtime, space allocation, modular furniture, corridor displays, heating, ventilation, air condition and cooling, lighting and accepting risk in future rent cost. (FY 2013 Base: \$85,427)

I. Description of Operations Financed:

Administrative programs include funding for the Air Force Combat Operations Center which provides senior leadership real-time global information concerning Air Force operations. It also supports the Air Force crisis action team, Air Force Emergency and Extraordinary Expenses, and miscellaneous current expense funds designated to maintain the standing and prestige of the United States by extending official courtesies to United States and foreign dignitaries. The program finances travel for members of Congress and their professional staffs when traveling under 31 USC 1108 (g) and unspecified emergency and extraordinary expenses identified by the Secretary of the Air Force pursuant to 10 USC 127, Emergency and Extraordinary Expense. Program also funds Office of the Secretary of the Air Force and Air Staff operations; a portion of the Air Force District of Washington which provides direct support to Headquarters United States Air Force; Air Force personnel detailed to non-Department of Defense activities on a non-reimbursable basis; portion of the Engineering and Science Exchange program; and the Air Force Security Forces Center, which provides explosive detector and dog teams to support presidential visits worldwide.

Personnel programs support Air Force-wide civilian compensation programs. Funding supports reimbursements to the Department of Labor for both unemployment and disability compensation. It also funds personnel administration for the Military Personnel Data System and Regionalization of Civilian Personnel operations. Additionally, programs within this Subactivity Group support the Air Force Personnel Service Delivery Transformation (PSDT) effort. The PSDT effort is a complementary enabler that will ultimately link specific Air Force unique capabilities and systems (promotions, assignments, records management and training) to the Air Force Integrated Personnel and Pay System. The PSDT effort is also an integral component of the Department's overall personnel transformation initiative.

Other personnel support includes: Equal Opportunity, Air Force Honor Guard, the Defense Equal Opportunity Management Institute, Air Force Library and Information System, Historically Black Colleges and Universities program, Air Force Mortuary Affairs, Air Force Security Forces Center and Air Force Uniform Program. The Substance Abuse program ensures mission readiness and fitness of the force through comprehensive substance abuse awareness education, prevention programs, early intervention of substance abuse problems, assessment, and counseling of substance abuse.

II. Force Structure Summary:

The Air Force Personnel Center provides centralized staffing support and Official Personnel File maintenance to Air Force Active Duty installations. Bases receive civilian benefits and entitlements services for health, life, and Thrift Savings Plan, as well as retirement and survivorship services. The center provides operational support to active duty military personnel flights world-wide.

Other personnel support funds programs which sustain the overall mission of the Air Force by providing training in equal opportunity, quality of life programs for service members and their families, and substance abuse program. Funds support the day-to-day operations of substance abuse program, educational training for initial certified alcohol and drug abuse certification training, and continuing education requirements.

Normalized FY 2013 Current Estimate.....	\$ 587,654
6. Price Change	\$ 6,583
7. Transfers.....	\$ -17,569
a) Transfers In	\$ 0
b) Transfers Out	\$ -17,569
i) Defense Enterprise Accounting and Management System	\$ -17,569
<p style="margin-left: 40px;">Decrease reflects transfer from Operation and Maintenance to Research, Development, Test and Evaluation based on new guidance to meet Acquisition milestones. This will ensure service cost position aligns with the Air Force Cost Analysis Agency's official cost estimate. (FY 2013 Base: \$24,741)</p>	
8. Program Increases	\$ 33,973
a) Annualization of New FY 2013 Program.....	\$ 0
b) One-Time FY 2014 Costs	\$ 0
c) Program Growth in FY 2014	\$ 33,973
i) Civilian Pay Program.....	\$ 29,103
<p style="margin-left: 40px;">Funding increase supports the net growth of 147 full-time equivalents in the following programs (FY2013 Base: \$396,667; 147 WY):</p>	
<p style="margin-left: 40px;">a.) Injury Compensation: Increase of \$27,986 Thousand restores funding to the injury compensation budget to align programming with execution year requirements.</p>	
<p style="margin-left: 40px;">b.) Manpower Freeze Exceptions: As part of the Department of Defense reform agenda, adds \$19,700 Thousand and 338 civilian full-time equivalents in order to maintain, with limited exceptions, civilian staffing</p>

Budget Activity: Administration and Servicewide Activities
Activity Group: Servicewide Activities
Subactivity Group: Administration

at the FY 2010 level.

c.) Ministry of Defense: Increase of \$354 Thousand and five full-time equivalents supports proper funding of foreign nationals at the United Kingdom (UK) Ministry of Defense. The foreign national payroll was previously reimbursed to the UK and this action aligns the foreign nationals as indirect hire civilians.

d.) Restore Reserve Airlift Support: Decrease of \$18,532 and 192 full-time equivalents supports the transfer of resources from the Active Operation and Maintenance appropriation to comply with Congressional direction to restore reductions taken against Air Force Reserve intratheater airlift aircraft.

e.) Space Security and Defense Program: Decrease of \$405 Thousand and 4 full-time equivalents supports efficiencies taken in the Space Security and Defense Program.

ii) Defense Equal Opportunity Management Institute (DEOMI) \$ 2,366

Increase funds DEOMI to enhance diversity and Equal Opportunity in the Department of Defense. Funds support Equal Opportunity Training curriculum, on-line library subscriptions, contracts to provide audio visual information technology, maintenance, web-based management, supplies, and materials. (FY 2013 Base: \$26,051)

iii) Care for Disabled and Surviving Spouses..... \$ 1,464

Increase establishes the Annuity of Certain Military Surviving Spouses program which provides benefits to surviving spouses and reinforces the Air Force's commitment to take care of Airmen and their families.

iv) Small Business Program \$ 1,040

Increase supports administrative and associated activities for the Small Business Program and aligns funding with execution based on historical and projected trends. (FY 2013 Base: \$139,056)

9. Program Decreases.....\$ -16,776

a) One-Time FY 2013 Costs \$ 0

b) Annualization of FY 2013 Program Decreases.....	\$ 0
c) Program Decreases in FY 2014.....	\$ -16,776
i) Executive Order Travel Reduction	\$ -8,709
<p>In compliance with the Executive Orders on Promoting Efficient Spending to support Agency Operations dated 9 November 2011 and 11 May 2012, the Air Force will reduce travel expenses by utilizing more video and phone teleconferencing. The Air Force will also carefully analyze the necessity for conferences and schools held off site in an effort to reduce the overall dependency on travel funding. (FY 2013 Base: \$60,574)</p>	
ii) Management Support Contracts Reduction	\$ -6,401
<p>In compliance with Executive Orders #13576, Defining an Efficient, Effective, and Accountable Government, and #13589, Promoting Efficient Spending, the Air Force reduced funding for management and service support contracts. The Air Force will focus remaining resources on those management and service support contracts that provide the greatest value to the Department in the most cost-effective way. (FY 2013 Base: \$103,734)</p>	
iii) Competitive Sourcing and Privatization.....	\$ -1,666
<p>Funds decreased consistent with the government-wide moratorium on the use of funds for public-private competitions. Section 325 of the National Defense Authorization Act for Fiscal Year 2010 (P.L. 111-84), prohibits the Department of Defense from beginning or announcing any public-private competitions.</p>

Exhibit OP-5, Subactivity Group 42A

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Activity Group: Servicewide Activities
Subactivity Group: Servicewide Communications

I. Description of Operations Financed:

Air Force Servicewide Communications programs play a major role in the Air Force's continuous efforts to provide reliable and secure communications to ensure mission assurance and supportability for the Air Force network systems, Air Force radio and telephone systems and infrastructure at Air Force installations worldwide. Basic communication services include access to the Defense Information Systems Network for voice, data, video and transport services, unclassified and classified electronic mail and rapid delivery of messages across the Air Force. These programs also provide the Air Force with an effective Information Assurance (IA) program to defend and defeat attacks from terrorists and hackers through advanced IA efforts focused on cryptographic modernization and sustainment. The Information Systems Security Program addresses cyber threats, multiple Combatant Commander's Integrated Priority Lists while directly impacting a multitude of Air Force aircraft, Department of Defense satellite systems, and Nuclear Command, Control and Communications networks. Public Key Infrastructure provides continued support for three network Identity Management programs: Public Key Infrastructure, Common Access Card stock, and Air Force Directory Service sustainment. The Air Force will continue to provide cyberspace and communications services for military and business operations while also addressing resiliency solutions. These capabilities are worldwide mobile for any environment and provide temporary data and communications activities (including reconstitution) as necessary, for Joint and coalition operations.

II. Force Structure Summary:

Servicewide Communications provide delivery of essential voice, network and radio services to Air Force personnel stationed at all major active Air Force installations worldwide. The Information Assurance portion of this program identifies vulnerabilities and threats to network operations and develops technical solutions; the Public Key Infrastructure Program provides framework and services for generation, production, distribution, control and tracking of public key certificates; and the Electronic Key Management Systems automates computer security key management and allows for local key generation. The radio portion of this program sustains global high-frequency radio broadcast stations around the world.

9. Program Decreases.....	\$ -107,245
a) One-Time FY 2013 Costs	\$ 0
b) Annualization of FY 2013 Program Decreases.....	\$ 0
c) Program Decreases in FY 2014.....	\$ -107,245
i) Internal Realignment	\$ 0
Internal realignment of funding between OP-32 lines within this Subactivity Group to program funding based on historical execution trends.	
ii) Long Haul Communications	\$ -100,811
Decreased funding for Air Force long haul communication efforts paid to the Defense Information Services Administration and associated maintenance efforts due to circuit consolidation and targeted funding of communications based on contingency needs. (FY 2013 Base: \$471,809)	
iii) Civilian Pay Program	\$ -3,266
Funding decrease supports the net reduction of 28 full-time equivalents in the following programs (FY2013 Base: \$9,954; -28 WY):	
a.) Various Mission Realignments: Decrease realigns \$3,278 Thousand and 28 full-time equivalents to Subactivity Group 41A to accurately portray mission execution for Air Force Space Command Cyber Warfare and Air Operations Center support functions.	
b.) Premium Pay: Increase of \$12 Thousand supports changes in premium pay for civilians supporting long haul communications in the national capital region.	
iv) Competitive Sourcing and Privatization	\$ -2,380
Decreased funding consistent with the government-wide moratorium on the use of funds for public-private competitions. Section 325 of the National Defense Authorization Act for Fiscal Year 2010 (P.L. 111-84), prohibits the Department of Defense from beginning or announcing any public-private competitions. (FY

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Activity Group: Servicewide Activities
Subactivity Group: Other Servicewide Activities

I. Description of Operations Financed:

Other Servicewide Activities funds various programs that support Air Force units around the world. These include the Air Force portion of the Department of Defense (DoD) Counter-Drug Program, Public Affairs and Communications programs, Engineering and Installation (E&I) and Information Management Automation Program (IMAP), Paperless Contracting, Sexual Assault Prevention and Response (SAPR), servicewide support including field operating agencies, the Operational Capability and Air Power Assessment Programs, as well as the Productivity Investment Program and GeoBase installation mapping and visualization program. Other Servicewide Activities also funds support costs to the DoD Executive Agency (EA) Personnel Recovery support through Joint Personnel Recovery Agency (JPRA), Civil Air Patrol - United States Air Force (CAP-USAF), Chaplain Service Worldwide Support Program (CSWWSP), and Arms Control.

Arms Control encompasses all efforts directly associated with implementing arms treaties and agreements such as Conventional Forces Europe (CFE), Open Skies, Intermediate Nuclear Forces (INF) Treaty and Chemical Weapons Convention (CWC). Funding supports: on-site inspections; monitoring and compliance with arms control agreements, planning and preparation activities; and relocation, modification, retirement or destruction of equipment. This Subactivity Group also funds flying hours for the Open Skies aircraft. The counter-proliferation program studies, analyzes and implements support to the Air Force's Counter-Chemical, Biological, Radiological and Nuclear (C-CBRN) mission area. The functional areas contained in C-CBRN operations include weapons of mass destruction, chemical and biological agents and any dangerous technologies, events or situations.

This Subactivity Group finances Department of Defense Inspector General financial statement audits which attest to the accuracy and reliability of Air Force financial information; the effectiveness of Air Force internal controls; Air Force compliance with laws and regulations; and Air Force compliance with federal accounting standards and federal financial systems; and standard procurement systems requirements.

II. Force Structure Summary:

Funding supports Headquarters Air Force, Major Commands, Direct Reporting Units, and Field Operating Agencies.

Normalized FY 2013 Current Estimate.....	\$ 1,094,509
6. Price Change	\$ 2,598
7. Transfers.....	\$ -7,609
a) Transfers In	\$ 0
b) Transfers Out	\$ -7,609
i) Civil Engineering Program Realignment	\$ -7,609
<p style="margin-left: 40px;">Decrease reflects transfer to Base Support (Subactivity Group 11Z) in order to achieve efficiencies by consolidating three Field Operating Agencies (Air Force Center for Environmental Excellence, Air Force Civil Engineer Support Agency and Air Force Real Property Agency) to implement an asset management approach to centralize, standardize, and enhance efficiency at all levels of the Civil Engineering enterprise. (FY 2013 Base: \$53,612)</p>	
8. Program Increases	\$ 56,677
a) Annualization of New FY 2013 Program.....	\$ 0
b) One-Time FY 2014 Costs	\$ 0
c) Program Growth in FY 2014	\$ 56,677
i) Defense Finance and Accounting Service (DFAS) Bill	\$ 27,012
<p style="margin-left: 40px;">Increase reflects DFAS FY 2014 rate structure to recoup net operating losses resulting from under execution of customer orders that consumed available resources in FY 2012. Program growth also adjusts for negative inflation rate. (FY 2013 Base: \$234,688)</p>	
ii) Financial Improvement and Audit Readiness.....	\$ 21,039
<p style="margin-left: 40px;">Increase supports independent validation of audit assertions, travel costs, direct audit readiness support,</p>	

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Activity Group: Servicewide Activities
Subactivity Group: Other Servicewide Activities

briefings for senior leaders, management and professional services to achieve audit readiness for the Statement of Budgetary Resources by 2014 as directed by the Secretary of Defense. (FY 2013 Base: \$75,554)

iii) Sexual Assault Prevention and Response (SAPR) \$ 2,793

Increase provides resources for Air Force wide sexual assault prevention and response efforts for Basic Military Training, expanded sexual assault response coordinators (SARC) program and legal counsel. Provides travel, training, equipment and supplies supporting Airmen in prevention, reduction, and recovery from sexual assault. Funding ensures Air Force's compliance with congressionally-mandated FY 2012 National Defense Authorization Act. (FY 2013 Base: \$8,718)

iv) Energy Conservation \$ 1,800

Funding increase reflects adjustment required to match historical execution. Funding provides oversight for compliance of laws which mandate energy conservation, renewable energy, water conservation and green house gas reduction as directed Air Force Energy Council for Air Force Energy Office. (FY 2013 Base: \$1,996)

v) New Strategic Arms Treaty \$ 1,500

Increase supports funding for New Strategic Arms Reduction Treaty activities. This includes engineering and design work for Intercontinental Ballistic Missiles silo elimination and impacts land and structure costs. (FY 2013 Base: \$42,203)

vi) Safety Enhancements \$ 1,500

Increase supports the Air Force Nuclear Surety Safety Office for inspections, culture assessment surveys, functional expert visits and the development of weapon system safety rules. Funding is also added to the Military Flight operations Quality Assurance program for the development and analysis of software for aviation mishap prevention program which detects, mitigates, and reduces hazardous trends in flight operations. (FY 2013 Base: \$16,885)

vii) Flying Hour Program \$ 1,030

The FY 2014 Flying Hour Program provides hours for: 1) Air Force aircrew production, 2) continuation of basic combat flying skills, 3) aircrew experiencing requirements, and 4) unit specific mission requirements.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Activity Group: Servicewide Activities
Subactivity Group: Other Servicewide Activities

The FY 2014 Flying Hour Program reflects an update to consumption estimates ("cost per flying hour").

The summation of these changes will allow the Air Force to deliver trained aircrews to meet its major combat operations commitments. The following is a detailed breakout of the program changes by aircraft: OC-135B (\$1,030, 0 hours).

Note: Net adjustment in dollars may not always follow in the direction of the hour change due to the consumption updates for aircraft in FY 2014. (FY 2013 Base: \$5,714)

viii) Weapon System Sustainment \$ 3

Weapon System Sustainment is the enterprise level view of sustainment requirements in the Air Force. Within this Subactivity Group, Weapon System Sustainment includes the following program changes:

a. Technical Orders: (\$ 3)

1) OC-135: (\$ 3)

Increased funding for technical order maintenance due to implementation of integrated data for maintenance system for technical order sustainment. (FY 2013 Base: \$35)

9. Program Decreases \$ -117,575

a) One-Time FY 2013 Costs \$ 0

b) Annualization of FY 2013 Program Decreases \$ 0

c) Program Decreases in FY 2014 \$ -117,575

i) Internal Realignment \$ 0

Internal realignment of funding between OP-32 lines within this Subactivity Group to program funding based on historical execution trends.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Activity Group: Servicewide Activities
Subactivity Group: Other Servicewide Activities

ii) Civilian Pay Program \$ -88,715

Funding decrease supports the net reduction of 1,068 full-time equivalents in the following programs
(FY2013 Base: \$497,623; -1,068 WY):

a.) Manpower Freeze and Reductions: Decrease of \$53,230 Thousand and 463 full-time equivalents supports Air Force efforts to maintain civilian staffing at FY 2010 levels with limited exceptions. In addition, a comprehensive OSD-led review of areas where the Air Force could most prudently accept risk, while still being able to accomplish the mission, resulted in an additional 2.8% reduction of the civilian workforce.

b.) Various Mission Realignment: Decrease realigns \$18,391 Thousand and 154 full-time equivalents to Subactivity Groups to 11Z to accurately portray mission execution for facility sustainment, readiness and modernization functions and the establishment of the Air Force Civil Engineering Center.

c.) Central Adjudication Facility: Decrease of \$17,071 and 139 full-time equivalents transfers resources from the Air Force to Washington Headquarters Services (WHS) to implement the Deputy Secretary of Defense's decision to consolidate various Defense adjudication functions into a single DoD Central Adjudication Facility.

d.) Transfer of Defense Health Program Manpower: Decrease of 286 reimbursable full-time equivalents supports the transfer of civilians from the Air Force's Defense Health Program to the Army's as a result of the Base Realignment and Closure directive to realign inpatient medical services from Wilford Hall Medical Center to the San Antonio Medical Center. Funding realignment will occur internally within the Defense Health Program.

e.) Drug Demand Reduction Program Management: Decrease of 27 reimbursable full-time equivalents support a reduction in civilians due to operational efficiencies in drug demand reduction specimen collection methods.

f.) Ministry of Defense: Increase of \$74 Thousand and one full-time equivalents supports proper funding of foreign nationals at the United Kingdom (UK) Ministry of Defense. The foreign national payroll was previously reimbursed to the UK and this action aligns the foreign nationals as indirect hire civilians.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Activity Group: Servicewide Activities
Subactivity Group: Other Servicewide Activities

g.) Premium Pay: Decreases of \$97 Thousand supports changes in premium pay for civilians supporting computer management information systems.

iii) Management Support Contracts Reduction \$ -11,300

In compliance with Executive Orders #13576, Defining an Efficient, Effective, and Accountable Government, and #13589, Promoting Efficient Spending, the Air Force reduced funding for management and service support contracts. The Air Force will focus remaining resources on those management and service support contracts that provide the greatest value to the Department in the most cost-effective way. (FY 2013 Base: \$226,091)

iv) Service Support Contracts Efficiencies \$ -7,097

The Air Force continues to reduce its reliance on service support contracts. Service support contracts include multiple areas throughout the Air Force such as Headquarters Staff Augmentation, Advisory and Assistance Services, Federally Funded Research and Development Centers, and other Knowledge Based Services. (FY 2013 Base: \$438,230)

v) Productivity Enhancing Capital Investment (PECI) \$ -4,108

Decrease supports reduction of Headquarter Pacific Air Command PECI requirements. (FY 2013 Base: \$7,239)

vi) Logistics and Installations Efficiencies \$ -2,938

The Air Force continues to develop efficiencies to improve supply chain management. The Air Force will enhance its inventory management information technologies to provide improved oversight of on-hand quantities and movement within the distribution pipeline, allowing the Air Force to reduce on-hand inventory, holding, and storage costs. (FY 2013 Base: \$0)

vii) Competitive Sourcing and Privatization \$ -2,133

Funds decreased consistent with the government-wide moratorium on the use of funds for public-private competitions. Section 325 of the National Defense Authorization Act for Fiscal Year 2010 (P.L. 111-84), prohibits the Department of Defense from beginning or announcing any public-private competitions. (FY 2013 Base: \$2,133)

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Activity Group: Servicewide Activities
Subactivity Group: Other Servicewide Activities

viii) Knowledge Based Services Efficiency \$ -1,284

Decrease supports a reduction of knowledge based contractor services and other services due to improved Air Force practices and processes which allow a more efficient use of military, civilians, and retained knowledge based personnel. (FY 2013 Base: \$474,022)

FY 2014 Budget Request.....\$ 1,028,600

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Activity Group: Servicewide Activities
Subactivity Group: Civil Air Patrol Corporation

I. Description of Operations Financed:

The Civil Air Patrol (CAP) is a federally chartered non-profit organization. Established and purposed under USC Title 36, the CAP is a federal grant recipient. As a grant recipient, the CAP uses federally provided resources via a cooperative agreement to provide public purpose missions and support mandated by law. As executive agent, the United States Air Force is required to provide fiscal oversight of funding via the cooperative agreement, and maintain involvement in operational processes.

The Secretary of the Air Force (SECAF) may provide additional funding or resources, in accordance with USC Title 10 Section 9441 - 9448, to employ the CAP to conduct missions on behalf of the SECAF. When executing any federal mission the CAP is an official civilian auxiliary of the Air Force. As a civilian auxiliary of the Air Force, the SECAF may use the services of CAP to fulfill any non-combat programs and missions of the Air Force or any other federal agency. The National Search and Rescue Plan tasks the Air Force with the responsibility for coordinating inland search and rescue operations in the United States and CAP is the primary Air Force resource to conduct these operations. The CAP also provides disaster relief support, drug interdiction operations, live organ transport, aerospace education, cadet programs and Reserve Officer Training Corps orientation flights. This Subactivity Group includes funding for the operations of CAP Corporation and Headquarters Civil Air Patrol.

II. Force Structure Summary:

Funding supports compensation and benefits for key staff at regional, state, or territorial headquarters; readiness training; and some Air Force non-combat programs/missions conducted within CAP's eight geographic regions. These regions include 52 wings spread across the continental United States, Alaska, Hawaii, Puerto Rico, and the District of Columbia. CAP also performs other missions on a fly-for-fee basis.

Activity Group: Servicewide Activities
Subactivity Group: Judgment Fund Reimbursement

I. Description of Operations Financed:

Judgment Fund provides funding for monetary judgments under the Contract Disputes Act of 1978 which are awarded by the Armed Services Board of Contract Appeals or the Court of Federal Claims. These are paid by the Department of the Treasury from Judgment appropriation, Claims for Contract Disputes (Treasury Symbol 20X1743). Department of Defense Components must reimburse the fund for payments of judgments, awards, or settlements with respect to discrimination and whistleblower protection cases. This Subactivity Group is only used during the year of execution.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Activity Group: Security Programs
Subactivity Group: Security Programs

I. Description of Operations Financed:

Security Programs include the Air Force Office of Special Investigations (AFOSI), the Department of Defense Cyber Crime Center (DC3), and counterintelligence (CI) which support the Comprehensive National Cybersecurity Initiative (CNCI).

AFOSI is a field operating agency, accountable to the Secretary of the Air Force, under the direction and guidance of the Inspector General of the Air Force. AFOSI is a combat-ready military organization providing the Air Force a wartime capability to conduct, in hostile and uncertain environments, counter-threat operations to find, fix, track and neutralize enemy threats. The organization is the Air Force's focal point for working with United States and foreign nation law enforcement and security services in order to provide timely and accurate threat information in all environments. It also performs as a federal law enforcement agency with responsibility of conducting criminal investigations, CI, and specialized investigative activities, protective service operations, critical information infrastructure protection (CIIP), and CI support to force protection, research and technology protection, and technical services. This program funds manpower authorizations, support equipment, necessary facilities and the associated costs specifically identified and measurable to support CI operations, CI investigations; and the collection, analysis, and production of CI. AFOSI is also the Executive Agent for the Air Force Polygraph Examination and Technical Surveillance Countermeasures programs.

The program also funds the CI support to five Combatant Commands and Defense Agencies. Additionally, the program funds portions of DC3, for which the Air Force serves as Executive Agent with AFOSI as the Program Manager. DC3 provides digital forensic analysis of computer media crime investigations training and research, development, testing and validation for digital forensic tools for both Air Force and Department of Defense criminal investigative and counterintelligence organizations. The Air Force Liaison Office (Investigation Processing Center) and the Air Force Central Adjudication Facility (AFCAF) are resourced through this Subactivity Group. AFCAF is the sole organization responsible for rendering security determination for the Air Force and supports the Air Force at every operational echelon. Details on classified programs are provided separately upon request.

II. Force Structure Summary:

The AFOSI program's force structure includes 168 CONUS regions, squadrons, detachments, operating locations and 65 overseas regions, squadrons, detachments, and operating locations.

Normalized FY 2013 Current Estimate.....	\$ 1,209,877
6. Price Change	\$ 19,271
7. Transfers.....	\$ 0
8. Program Increases	\$ 14,248
a) Annualization of New FY 2013 Program.....	\$ 0
b) One-Time FY 2014 Costs	\$ 0
c) Program Growth in FY 2014	\$ 14,248
i) Classified Programs	\$ 12,701
Adjustments were made to classified programs. Details will be provided under separate cover upon request. (FY 2013 Base: \$491,188)	
ii) Force Protection Detachments.....	\$ 1,547
Increase supports additional costs for International Cooperative Administrative Support Services charged by the Department of State for Force Protection Detachments. This increase provides and shares the cost of common administrative support at posts overseas and ensures the safety of Department of Defense personnel and resources which are located or transitioning through elevated threat areas. (FY 2013 Base: \$36,700)	
9. Program Decreases.....	\$ -15,600
a) One-Time FY 2013 Costs	\$ 0
b) Annualization of FY 2013 Program Decreases.....	\$ 0

Subactivity Group: Security Programs

c) Program Decreases in FY 2014.....\$ -15,600

i) Internal Realignment \$ 0

Internal realignment of funding between OP-32 lines within this Subactivity Group to program funding based on historical and projected execution trends.

ii) Civilian Pay Program \$ -11,079

Funding decrease supports the net growth of 76 full-time equivalents in the following programs (FY2013 Base: \$486,186; 76 WY):

a.) Classified Adjustments: Decrease of \$9,887 and increase of 82 full-time equivalents supports adjustments to classified programs. Details can be provided under separate cover upon request.

b.) Optimize Manpower Resourcing: Decrease of \$471 Thousand and three full-time equivalents supports efficiencies taken at Headquarters Air Force. The support functions performed by these full-time equivalents will be completed with existing civilian manpower.

c.) Central Adjudication Facility: Decrease of \$357 and three full-time equivalents transfers resources from the Air Force to Washington Headquarters Services (WHS) to implement the Deputy Secretary of Defense's decision to consolidate various Defense adjudication functions into a single DoD Central Adjudication Facility.

iii) Flying Hour Program \$ -2,549

The FY 2014 Flying Hour Program provides hours for: 1) Air Force aircrew production, 2) continuation of basic combat flying skills, 3) aircrew experiencing requirements, and 4) unit specific mission requirements. The FY 2014 Flying Hour Program reflects an update to consumption estimates ("cost per flying hour").

The summation of these changes will allow the Air Force to deliver trained aircrews to meet its major combat operations commitments. The following is a detailed breakout of the program changes by aircraft: WC-135C (-\$133, 0 hours); RC-135S (-\$2,073, -1 hours); TC-135S (-\$106, -157 hours); TC-135W (-\$148, 0 hours); WC-135W (-\$89, 0 hours).

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Activity Group: Security Programs
Subactivity Group: Security Programs

Note: Net adjustment in dollars may not always follow in the direction of the hour change due to the consumption updates for aircraft in FY 2014. (FY 2013 Base: \$15,591)

iv) Competitive Sourcing and Privatization \$ -1,303

Funds decreased consistent with the government-wide moratorium on the use of funds for public-private competitions. Section 325 of the National Defense Authorization Act for Fiscal Year 2010 (P.L. 111-84), prohibits the Department of Defense from beginning or announcing any public-private competitions. (FY 2013 Base: \$1,303)

v) Weapon System Sustainment..... \$ -669

Weapon System Sustainment is the enterprise level view of sustainment requirements in the Air Force. Within this Subactivity Group, Weapon System Sustainment includes the following program changes:

a. Sustaining Engineering: (\$ -669)

Cryptologic Activities are classified. Details will be provided under a separate cover upon request. (FY 2013 Base: \$657)

FY 2012 Actual Overseas Contingency Operations \$84,362

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Activity Group: Support to Other Nations
Subactivity Group: International Support

I. Description of Operations Financed:

Operations support the North Atlantic Treaty Organization (NATO), Supreme Headquarters Allied Powers Europe (SHAPE), North Atlantic Treaty Organization Airborne Early Warning and Control (NATO AEW&C) program, Cooperative Defense Initiative program, and other international headquarters. The Technology Transfer Program, which controls the transfer of critical Air Force technologies to foreign governments, is also included in this Subactivity Group. The Support to Other Nations Program supports mil-to-mil and civ-to-civ engagements with Latin American countries that include participation by 12th Air Force, United States Air Force Academy, and Deputy Under Secretary of the Air Force for International Affairs; payment of fees for International Cooperation Administration Support Services provided by Department of State for Air Force personnel located overseas; and travel support to the Inter-America Defense Board and College.

International Activities provides for the management and implementation of International Cooperative Research, Development, and Acquisition (ICRD&A) agreements with NATO and major non-NATO allies to significantly improve U.S. and allied conventional defense capabilities. These cooperative efforts build relationships with international partners, increase interoperability and enhance coalition capabilities. Funding supports U.S. Air Force International Armaments Cooperation activities to identify beneficial cooperative Research & Development projects and to develop, process, negotiate, and oversee international agreements for projects relating to air, space and cyberspace.

II. Force Structure Summary:

This Subactivity Group's force structure supports ten international activities, six international headquarters, one main operating base, and 17 NATO aircraft to build enduring relationships with global air forces to support mutual security cooperation interests.

2. War-Related and Disaster Supplemental Appropriations	\$ 0
3. Fact-of-Life Changes	\$ 0
FY 2013 Appropriated and Supplemental Funding	\$ 81,307
4. Anticipated Reprogramming (Requiring 1415 Actions)	\$ 0
Revised FY 2013 Estimate	\$ 81,307
5. Less: Emergency Supplemental Funding	\$ 0
a) Less: War Related and Disaster Supplemental Appropriation	\$ 0
b) Less: X-Year Carryover (Supplemental)	\$ 0

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Activity Group: Support to Other Nations
Subactivity Group: International Support

Normalized FY 2013 Current Estimate.....	\$ 81,307
6. Price Change	\$ 1,763
7. Transfers.....	\$ 5,449
a) Transfers In	\$ 5,449
i) United States Africa Command (AFRICOM) Engagement	\$ 5,449
<p style="margin-left: 40px;">Increase reflects transfer from Global Command, Control, Communications and Intelligence and Early Warning (Subactivity Group 12A) and Other Combat Operations Support Programs (Subactivity Group 12C). The Air Force supports AFRICOM Theater Security Cooperation events, African Partnership flight, bi-lateral exercises, African Air Chief's Conference, Senior Leader Visits, professional supply services, access to Kenyan airports, travel, airfield and radar surveys, studies, analysis, evaluations, and Governmental purchases. This realignment enables increased visibility of AFRICOM's Theater Campaign Plan funding. (FY 2013 Base: \$0)</p>	
8. Program Increases	\$ 1,502
a) Annualization of New FY 2013 Program.....	\$ 0
b) One-Time FY 2014 Costs	\$ 0
c) Program Growth in FY 2014	\$ 1,502
i) Civilian Pay Program.....	\$ 1,502
<p style="margin-left: 40px;">Funding increase supports the net growth of 18 full-time equivalents in the following programs (FY2013 Base: \$0; 18 WY):</p>	
<p style="margin-left: 40px;">a.) Manpower Freeze Exceptions: As part of the Department of Defense reform agenda, adds \$1,045 Thousand and nine civilian full-time equivalents in order to maintain, with limited exceptions, civilian staffing at the FY 2010 level.</p>	

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2014 Budget Estimates
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Activity Group: Support to Other Nations
Subactivity Group: International Support

b.) Ministry of Defense: Increase of \$457 Thousand and nine full-time equivalents supports proper funding of foreign nationals at the United Kingdom (UK) Ministry of Defense. The foreign national payroll was previously reimbursed to the UK and this action aligns the foreign nationals as indirect hire civilians.

9. Program Decreases.....	\$ -1,013
a) One-Time FY 2013 Costs	\$ 0
b) Annualization of FY 2013 Program Decreases.....	\$ 0
c) Program Decreases in FY 2014.....	\$ -1,013
i) Management Support Contracts Reduction	\$ -528
<p>In compliance with Executive Orders #13576, Defining an Efficient, Effective, and Accountable Government, and #13589, Promoting Efficient Spending, the Air Force reduced funding for management and service support contracts . The Air Force will focus remaining resources on those management and service support contracts that provide the greatest value to the Department in the most cost-effective way. (FY 2013 Base: \$9,746)</p>	
ii) Executive Order Travel Reduction	\$ -485
<p>In compliance with the Executive Orders on Promoting Efficient Spending to support Agency Operations dated 9 November 2011 and 11 May 2012, the Air Force will reduce travel expenses by utilizing more video and phone teleconferencing. The Air Force will also carefully analyze the necessity for conferences and schools held off site in an effort to reduce the overall dependency on travel funding. (FY 2013 Base: \$17,005)</p>	
FY 2014 Budget Request.....	\$ 89,008
