# FY13 PB – Strategic & Fiscal Environment

## Defense Strategy

- Focus on Asia-Pacific and Middle East regions
- Evolve strategic posture in Europe
- Size force for one large scale combined campaign, plus deter/deny capacity
- Seek innovative partnerships
- Protect new capabilities and key investments
- Smaller, modernized, agile, ready, reversible force

## Fiscal Reality

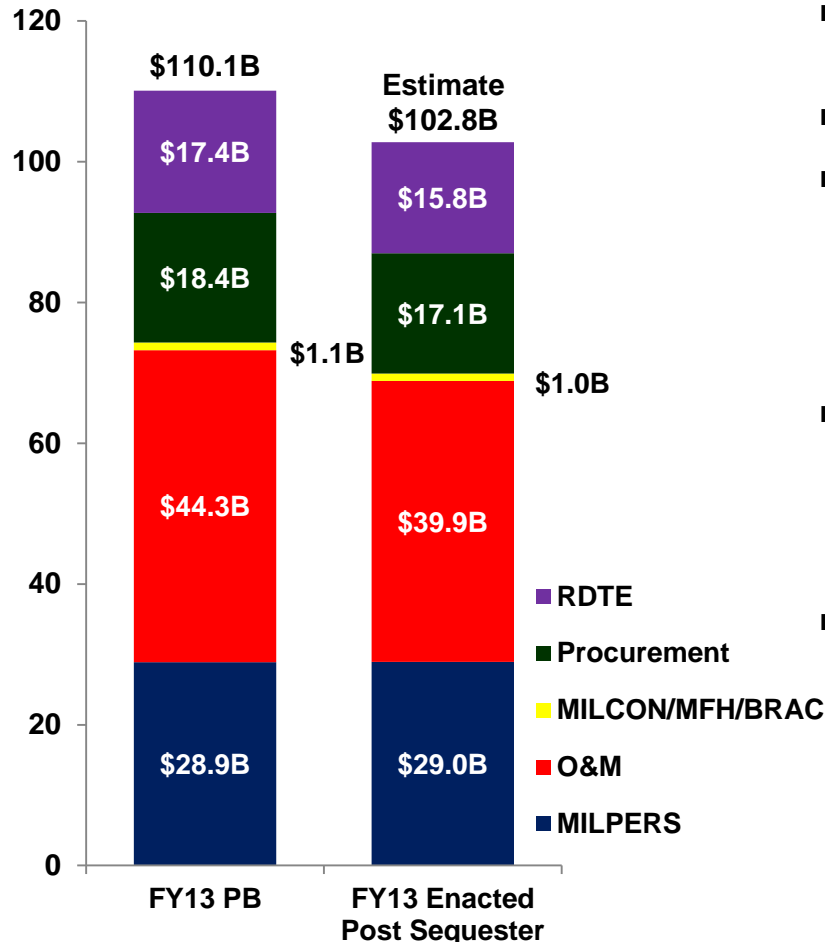

- Budget Control Act of 2011: DoD must trim \$487B over 10 years, \$259B over five years
- \$54B AF TOA in reductions across FYDP
  - AF TOA cut from FY12 enacted to FY13 PB
- Infrastructure – “over capacity”
- Avoid a hollow force
- Focus on key modernization programs

# FY13...What happened

U.S. AIR FORCE

## AF BLUE

### FY13 Actions

- Implemented ~\$40B in efficiencies for FY12 & FY13 across FYDP
- Smaller, but capable Air Force
- Force Structure Changes
  - Reduce 119 A/C (terminates C-27J) & 4.9K slots
  - F-35A reduced by 5 in FY13; 98 across FYDP

### FY13 Sequestration Impacts/Actions

- Limited available funds w/ 6 months left of fiscal year
  - MILPERS exempt
  - Upfront costs & must pay bills – civ payroll, utilities, & awarded contracts
- Flying Hours, weapon system sustainment (WSS), and civilian pay represents over 60% of the budget
  - Hours & sustainment are scalable programs
  - Furlough option
  - Will cause catastrophic impact to readiness w/ bow-wave of mission requirements into FY14

**Sequestration creates significant FY13 bow-wave into FY14**

# FY13 to FY14

## U.S. AIR FORCE

### FY13 Sequestration Actions

- ~203K flying hours reduction
- Cut WSS by ~18% of budget
- Reduced MAJCOM/COCOM O&M spending targets by over 10%
- Implemented civilian hiring restrictions - hiring freeze, & released temporary employees; planning for furloughs
- Deferred all non-emergency Facility Sustainment, Restoration and Modernization (FSRM)
- Sequestration cuts drive significant impacts to investments

### Bow-Wave Impacts to FY14

- 6 months to restore pilot proficiency – will create a potential bath tub effect
- ~70 deferred depot inductions - multiple years to recover
- Military education/training cycle backlog may affect promotions; increased risk on real-time communications for warfighter
- Impairs civilian retention & recruiting; creates bottleneck for hiring; increase workload for existing force
- Exacerbates facilities maintenance & restoration backlog – magnifies risk
- Investment reduction drives increased acquisition costs/delay critical capabilities
  - F-35A quantity reduction

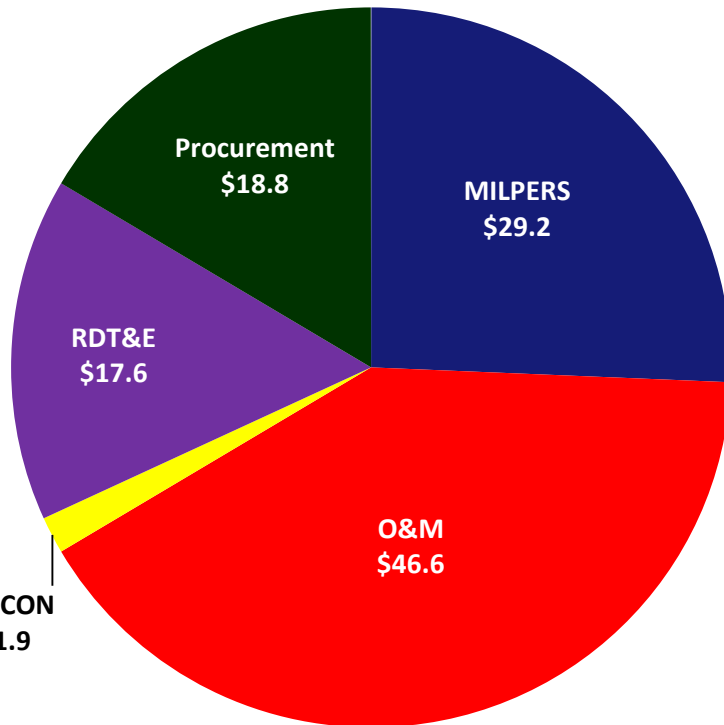

***FY13 sequestration jeopardizes FY14 Budget Request***
