**DoD Component: Air Force**  
**Appropriation: O&M (3400)**

**Real Property Maintenance Requirements**

(\$ in Thousands)

In FY96, the Air Force began using the Commanders' Facility Assessment (CFA) to determine the Backlog of Maintenance and Repair (BMAR) of Real Property Maintenance (RPM). CFA links facility condition to mission accomplishment and ensures resources for maintenance, repair, and minor construction are allocated to the most critical mission needs of field commanders. CFA requires field commanders to identify RPM requirements in two categories.

First is Preservation Maintenance Level (PML), or "must pay" which identifies resources necessary to accomplish day-to-day maintenance required to preclude further deterioration of the real property facilities and infrastructure.

Secondly, commanders identify and prioritize (three levels) their remaining facility requirements to accomplish their mission.

Normalized for inflation and base closures, current funding is at the lowest level in over 18 years and provides for only PML and a very limited number of facility projects, meaning that the BMAR will continue to grow. Additional reductions in funding will result in the deferral of the day-to-day recurring maintenance (PML), create frequent mission interruptions and a severely degraded quality of life at Air Force installations. Repair costs will increase significantly if this day-to-day maintenance is deferred or ignored.

	<b><u>FY97</u></b>	<b><u>FY98</u></b>	<b><u>FY99*</u></b>
<b>A. <u>BACKLOG - BEGINNING OF YEAR:</u></b>			
(Backlog Carried Forward from Prior Years)	2,813,562	2,667,055	3,098,851
(RDT&E Backlog Transfer to O&M)			286,780
(Inflation Adjustment)	61,898	40,006	54,170
<b>B. <u>REQUIREMENTS</u></b>			
(Recurring Maintenance & Repair)	1,164,535	1,177,613	1,253,778
(Major Repair Projects)			
(Backlog Deterioration)		558,000	465,000
<b>C. <u>TOTAL REQUIREMENTS (A + B)</u></b>	4,039,996	4,442,674	5,158,578
<b>D. <u>PROGRAM ADJUSTMENTS:</u></b>			
(Direct Program Funding)	1,265,057	1,198,823	1,255,397
(Fund Migration from Other Program Areas)	107,884	145,000	
(Net Other Adjustments)	1,372,941	1,343,823	
<b>E. <u>BACKLOG - END OF YEAR (C - D)</u> [Based on CFA]</b>	2,667,055	3,098,851	3,903,181
<b>F. <u>PERCENT BMAR CHANGE (E, A)</u></b>	-5%	+16%	+26%

\* Transfer of RDT&E RPM into 3400 O&M (effective FY99) moves RDT&E BMAR (\$287M) to RPM. Program was transferred with a significant backlog and limited funding.

REAL PROPERTY MAINTENANCE ACTIVITIES  
 FY 1999 PRESIDENT'S BUDGET  
 FY 1999 Major Repair/Major Repair With Concurrent Minor Construction Projects  
 (Costing more than \$500,000.00)

<u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	<u>Cost</u>
AK	EIELSON AIR FORCE BASE	REPAIR HVAC, CONTROL TOWER	600
	<p>Project repairs the unreliable, existing HVAC system in the control tower. This 20 year-old system has exceeded its expected usable life and requires constant maintenance to remain operational. If this project is not accomplished, the system will experience more frequent failures and potentially impact flying operations by jeopardizing environmental controls for Air Traffic Control equipment.</p>		
AK	ELMENDORF AIR FORCE BASE	REPAIR ROOFS, BASEWIDE	2,494
	<p>Project repairs the degraded and failing roof systems of several base facilities. Work includes replacement of roof surfaces and repair of structural members as needed. Extreme local temperatures and heavy annual snow loads make roof maintenance and repair a top priority. If this work is not completed, roofs may fail presenting a risk to personnel and Air Force property.</p>		
AZ	DAVIS MONTHAN AIR FORCE BASE	REPAIR WATER WELL CONTROLS	600
	<p>Project repairs base water well controls which are unreliable and maintenance intensive. A total of 11 wells are affected by these controls. If this project is not accomplished, base potable water supplies will be unreliable for fire protection and domestic use.</p>		
AZ	LUKE AIR FORCE BASE	REPAIR SANITARY SEWER	890
	<p>Project repairs failing sewage collection system. The force mains, feeder lines, and manholes will be replaced as needed to repair breaks and remove abandoned sections. Without this project, the sewer lines will continue to deteriorate causing potential contamination to water supply, shut down of many base facilities, and health and safety problems for base personnel.</p>		
CA	BEALE AIR FORCE BASE	REPLACE WATER MAIN	1,000

REAL PROPERTY MAINTENANCE ACTIVITIES  
 FY 1999 PRESIDENT'S BUDGET  
 FY 1999 Major Repair/Major Repair With Concurrent Minor Construction Projects  
 (Costing more than \$500,000.00)

<u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	<u>Cost</u>
	<p>Project replaces water mains, including valves, from booster pump station to a three million gallon storage tank. This system was originally installed in 1941 and is badly corroded. Continuous breaks are experienced when opening and closing hydrants. If this project is not accomplished, maintenance costs will increase and fire protection water supplies will be adversely affected due to system failures.</p>		
CA	EDWARDS AIR FORCE BASE	REPAIR AIRFIELD	500
	<p>Project repairs a taxiway transition to the runway and seals ramp and taxiway joints. Deteriorated joint seal and cracks create foreign object damage potential to aircraft. If this project is not accomplished, deterioration will continue requiring more extensive repairs in the future.</p>		
CA	EDWARDS AIR FORCE BASE	REPAIR ROAD	1,625
	<p>Project repairs 6.3 mile access road to the Phillips Lab, to include replacement of base course, culverts, pavements, and failed subgrade. Roadway has reached the end of its useful life and requires extensive maintenance. If this project is not accomplished, deterioration will continue requiring more extensive repairs in the future and increase potential for vehicle damage.</p>		
CA	LOS ANGELES AIR FORCE BASE	REPAIR FACILITY	700
	<p>Project includes complete interior demolition and repair; to replace interior finishes, life safety and seismic code upgrades and improvements to the management facility office spaces for use of systems furniture. Project is required to provide adequate systems for a proper working environment for assigned personnel.</p>		
CA	TRAVIS AIR FORCE BASE	REPAIR FITNESS CENTER	2,500

REAL PROPERTY MAINTENANCE ACTIVITIES  
 FY 1999 PRESIDENT'S BUDGET  
 FY 1999 Major Repair/Major Repair With Concurrent Minor Construction Projects  
 (Costing more than \$500,000.00)

<u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	<u>Cost</u>
	<p>Project renovates the base fitness center major building systems to include plumbing, HVAC, electrical, and fire protection systems, roof repair, and replacement of floor and wall coverings. If this project is not accomplished, maintenance costs will increase, and assigned personnel will be further discouraged from using the facility, which is vital to their health and morale.</p>		
CA	TRAVIS AIR FORCE BASE	REPAIR TEMPORARY LODGING FACILITY	1,800
	<p>Project repairs by replacement of flat roof with a pitched standing seam metal roofing system and updates living quarters. Existing roofing is failing and threatens to expose equipment and finishes to damaging water intrusion. If this project is not accomplished, the roof system will continue deteriorating, increasing repair and maintenance costs, and potentially damaging Air Force property.</p>		
CA	VANDENBERG AIR FORCE BASE	REPAIR ROAD	750
	<p>Project replaces failed road pavement, repairs deteriorated pavement, and corrects drainage problems. If this project is not accomplished, maintenance costs will increase and inadequate drainage of the roadway will continue to pose a safety hazard.</p>		
CO	USAF ACADEMY	REPAIR CADET FITNESS CENTER	2,900
	<p>Project repairs inadequate gymnasium lights, deteriorated diving tower, poor ventilation systems in four locker areas, and failing pool water circulation lines. If this project is not accomplished, the cadet athletic program will be unable to accomplish the requirements for cadet training.</p>		
CO	USAF ACADEMY	REPAIR COMMUNICATION CENTER	750

REAL PROPERTY MAINTENANCE ACTIVITIES  
 FY 1999 PRESIDENT'S BUDGET  
 FY 1999 Major Repair/Major Repair With Concurrent Minor Construction Projects  
 (Costing more than \$500,000.00)

<u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	<u>Cost</u>
	<p>Project repairs existing HVAC that cools the computer room, and corrects inefficiencies and replaces worn out wall and floor finishes. If this project is not completed, vital communication equipment will malfunction from excessive operating temperatures, adversely affecting unit mission accomplishment.</p>		
DC	BOLLING AIR FORCE BASE	REPAIR ELECTRICAL DISTRIBUTION	1,000
	<p>Project repairs the electrical distribution system to include the following components; switch gear, substations and transformers. The existing electrical system is over 30 years old, inefficient and requires increased maintenance due to its age. If this system is not repaired, the base will be subject to more frequent power fluctuations and outages impacting mission performance.</p>		
DC	BOLLING AIR FORCE BASE	REPAIR FIRE PROTECTION SYSTEMS	500
	<p>Project repairs fire protection systems basewide to meet National Fire Protection Code requirements. Existing system relies on mix of telephone and radio signals, causing duplication of receivers. Project will eliminate telephone connections and modernize equipment. If the project is not completed, base will experience higher risk of injuries and damage due to increased fire protection response times.</p>		
DE	DOVER AIR FORCE BASE	REPAIR CHAPEL	1,000
	<p>Projects repairs the building systems and interior and exterior finishes. This facility, built in 1956, has received minimum repairs and no major renovations over the past 40 years. All windows are single pane wood frame; HVAC and electrical systems are original and the interior finishes are vintage 1950s. If this project is not accomplished, the facility maintenance will increase and the facility will present an unsuitable climate for worship.</p>		
FL	CAPE CANAVERAL AIR STATION	REPAIR BUILDING	2,000

REAL PROPERTY MAINTENANCE ACTIVITIES  
 FY 1999 PRESIDENT'S BUDGET  
 FY 1999 Major Repair/Major Repair With Concurrent Minor Construction Projects  
 (Costing more than \$500,000.00)

<u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	<u>Cost</u>
		<p>Project replaces elevator controls and doors, replaces ramps near clean lab area, repairs openings in platforms and decks, and provides back-up HVAC systems. These repairs are necessary to ensure proper launch vehicle processing procedures are met in the facility. If this project is not accomplished, possible delays in processing launch vehicles could result.</p>	
FL	EGLIN AIR FORCE BASE	REPAIR AIRCRAFT RAMP	600
		<p>Project repairs joint seals and cracks on the ramp to prevent moisture from damaging the base course and pavement structure. If this project is not accomplished, deterioration will continue and more extensive repairs will be required in the future.</p>	
FL	EGLIN AIR FORCE BASE	REPAIR EDUCATION CENTER HVAC	1,110
		<p>Project repairs the education center HVAC system. Project includes replacement of HVAC system, electrical systems, asbestos abatement, and upgrades to the fire protection system. Existing system is unreliable and requires constant maintenance. If this project is not accomplished, failing HVAC systems will be unable to maintain facility environmental controls required for an adequate education mission.</p>	
FL	HURLBURT FIELD	REPAIR FIRE SPRINKLER SYSTEM	2,190
		<p>Project replaces existing fire suppression system in Eason Hangar with a fire retardant foam system in accordance with National Fire Protection Association guidelines. If this project is not accomplished, personnel will continue to work without an adequate fire suppression system.</p>	

REAL PROPERTY MAINTENANCE ACTIVITIES  
 FY 1999 PRESIDENT'S BUDGET  
 FY 1999 Major Repair/Major Repair With Concurrent Minor Construction Projects  
 (Costing more than \$500,000.00)

<u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	<u>Cost</u>
FL	HURLBURT FIELD	REPAIR FIRE SPRINKLER SYSTEM	997
	<p>Project installs a fire retardant foam suppression system in the maintenance dock. The facility currently does not have a fire suppression system. If this project is not accomplished, personnel will continue to work without a fire suppression system.</p>		
FL	PATRICK AIR FORCE BASE	REPLACE HANGAR DOORS	500
	<p>Project replaces west side hangar doors, tracks and associated hardware. The existing hangar doors are a safety hazard. Glass door panels are breaking and falling out when doors are moved. Wheels, tracks, and door crank mechanisms are corroded beyond in-house repair capabilities. If this project is not accomplished, deterioration will negatively impact the mission.</p>		
FL	TYNDALL AIR FORCE BASE	REPAIR DINING FACILITY HVAC	890
	<p>Project replaces the HVAC system in Tyndall AFB dining facility. There is inadequate ventilation and no HVAC in the kitchen area. The kitchen is excessively hot, commonly exceeding 100 degrees. This project also restores a dysfunctional energy recovery system. Without this project, kitchen personnel will continue to work in severe temperatures potentially impacting essential troop feeding.</p>		
FL	TYNDALL AIR FORCE BASE	REPAIR TAXIWAY D	1,850
	<p>Project repairs cracked slabs and seals joints on the taxiway. Joint material is deteriorated and must be replaced to keep water from entering joints and damaging the concrete. Damaged concrete greatly increases the potential for foreign object damage to aircraft engines. If this project is not accomplished, more extensive repairs will be required and transient flight operations may be curtailed.</p>		

REAL PROPERTY MAINTENANCE ACTIVITIES  
 FY 1999 PRESIDENT'S BUDGET  
 FY 1999 Major Repair/Major Repair With Concurrent Minor Construction Projects  
 (Costing more than \$500,000.00)

<u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	<u>Cost</u>
GA	ROBINS AIR FORCE BASE	REPAIR TAXIWAYS AND APRONS	1,000
	<p>Project repairs joint seals and patches cracks in taxiways and aprons. Where extensive cracks occur whole slabs will be replaced. If this project is not funded, the pavements will continue to deteriorate requiring more extensive repairs at a later date and aircraft will be subject to risk of foreign object damage.</p>		
GA	ROBINS AIR FORCE BASE	REPAIR ROOFS	500
	<p>Project repairs and replaces deteriorating built-up roofs on two Visiting Officer Quarters. The roofs have structural and architectural deficiencies and will be replaced with sloped standing metal seam systems. If this project is not accomplished, moisture problems and leaking conditions will accelerate leading to more expensive repairs.</p>		
GU	ANDERSEN AIR FORCE BASE	REPAIR TAXIWAY J	742
	<p>Project replaces broken concrete slabs and old joint sealing on the taxiway. The broken concrete slabs are badly spalled and create a potential for foreign object damage to aircraft engines. If this project is not accomplished, deterioration will continue requiring more extensive repairs in the future.</p>		
HI	HICKAM AIR FORCE BASE	REPAIR SEWER LIFT STATIONS	750
	<p>Project completes critical repairs to degraded and undersized sewer lift stations. Work includes replacement of lift station pumps and other failing components, as well as, shut down alarms to bring the system into compliance with environmental regulations. If the work is not completed, recurring system failures and overflows could result in significant environmental clean-up costs.</p>		

REAL PROPERTY MAINTENANCE ACTIVITIES  
 FY 1999 PRESIDENT'S BUDGET  
 FY 1999 Major Repair/Major Repair With Concurrent Minor Construction Projects  
 (Costing more than \$500,000.00)

<u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	<u>Cost</u>
ID	MOUNTAIN HOME AIR FORCE BASE	REPAIR A RAMP SLABS	2,000
	<p>Project replaces selected concrete slabs on Alpha ramp. Over 20% of slabs are broken in four or more places and 78% of slabs have severe cracks. If this project is not accomplished, deterioration will adversely affect flight operations and increase risk of foreign object damage to aircraft.</p>		
IL	SCOTT AIR FORCE BASE	REPAIR BASE WATER VALVES/PUMPS	500
	<p>Project replaces water valves, pumps, and meters in the valve pit. Existing valves and pumps have deteriorated and do not operate properly. The pumps cause surging and water hammering in the system. Pressure relief valves and the chlorine meter are inoperative. If this project is not accomplished, chlorine residuals will not be maintained in compliance with standards. Additionally, due to low water volume and pressure fire fighting capabilities will be jeopardized.</p>		
LA	BARKSDALE AIR FORCE BASE	REPAIR GAS DISTRIBUTION	833
	<p>Project replaces gas mains and service lines to the south end of main base. The project replaces most of the existing metal piping with plastic pipe to decrease system failures and reduce risk of gas leaks. If this project is not accomplished, system failures and gas leaks may occur posing a safety risk to base personnel and property.</p>		
LA	BARKSDALE AIR FORCE BASE	REPAIR BASE OPERATIONS	750
	<p>Project provides for the complete renovation of the building to include repair of plumbing, HVAC, electrical, fire protection systems, replacement of floor coverings, and painting. If this project is not accomplished, continued use of this substandard facility will result in decreased productivity.</p>		

REAL PROPERTY MAINTENANCE ACTIVITIES  
 FY 1999 PRESIDENT'S BUDGET  
 FY 1999 Major Repair/Major Repair With Concurrent Minor Construction Projects  
 (Costing more than \$500,000.00)

<u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	<u>Cost</u>
MA	NEW BOSTON AIR STATION	REPAIR ELECTRIC DISTRIBUTION	500
	<p>Project replaces overhead distribution, power poles, and pole mounted transformers with underground distribution. System is reaching end of economic life expectancy and is in need of constant maintenance. If this project is not accomplished, the existing overhead distribution system will continue to deteriorate causing more extensive future repairs.</p>		
MD	ANDREWS AIR FORCE BASE	REPLACE WEST APRON	3,000
	<p>Project replaces existing concrete and base course with new concrete and base course on the center 1/3 of the west apron. The existing concrete is 35-40 years old and deteriorating rapidly. This is the area where CSAF/CC and other VIP's park their aircraft and is near the Air Force One operational area. If this project is not accomplished, deterioration will continue causing more extensive future repairs and increase potential for foreign object damage.</p>		
MO	WHITEMAN AIR FORCE BASE	REPAIR NORTH APRON	700
	<p>Project replaces joint seal on the parking apron and repairs slabs as necessary. Joint seal is deteriorated from age and replacement is required to prevent water penetration and further deterioration from freeze/thaw action. If this project is not accomplished, further damage will occur to the pavement causing more extensive repairs in the future and increasing the potential for foreign object damage.</p>		
MT	MALMSTROM AIR FORCE BASE	REPAIR ROOF	580

REAL PROPERTY MAINTENANCE ACTIVITIES  
 FY 1999 PRESIDENT'S BUDGET  
 FY 1999 Major Repair/Major Repair With Concurrent Minor Construction Projects  
 (Costing more than \$500,000.00)

<u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	<u>Cost</u>
		Project replaces roof and flashing systems. Roofing system is seriously deteriorated. Failure to do this project will result in accelerated deterioration of the facility structure and increase potential for water damage to the interior finishes and equipment.	
NC	POPE AIR FORCE BASE	REPAIR 300 SERIES DORMS	2,800
		Project upgrades 300 series dorms. Repairs include HVAC, bathroom ventilation, interior and exterior lighting, and interior finishes. If this project is not accomplished, quality of life for our junior enlisted could be adversely impacted.	
NC	SEYMOUR JOHNSON AIR FORCE BASE	REPAIR ROOFS	700
		Project replaces existing leaking roofs on various facilities. Existing roofs are failing and threaten to expose building occupants and equipment to damage from water intrusion. If not repaired, moisture problems and leak conditions will accelerate and ultimately require more extensive repairs.	
ND	GRAND FORKS AIR FORCE BASE	REFINISH BUILDING EXTERIORS	800
		Project repairs exterior siding on several metal buildings. Foam insulation panels with integral finish plaster resin coating will be attached to existing metal siding. The existing metal siding is dented, and paint is peeling. The new finish will require less maintenance and be more architecturally compatible. If this work is not accomplished, existing exterior finishes will continue to corrode and eventually fail.	
ND	MINOT AIR FORCE BASE	REPAIR BOMBER BOULEVARD	500

REAL PROPERTY MAINTENANCE ACTIVITIES  
 FY 1999 PRESIDENT'S BUDGET  
 FY 1999 Major Repair/Major Repair With Concurrent Minor Construction Projects  
 (Costing more than \$500,000.00)

<u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	<u>Cost</u>
		Project replaces existing asphalt roadway, curbs and gutters. This road serves the flightline, aircraft maintenance, and industrial areas. Deterioration is beyond in-house maintenance capabilities. If this project is not accomplished, the road will continue to deteriorate and severely impact base traffic flow.	
NE	OFFUTT AIR FORCE BASE	REPAIR BOILERS, B304	1,200
		Project replaces existing energy inefficient boilers with high efficiency pulse type boilers at several buildings. Project includes installation of natural gas lines to all new boilers and removes old central plant and underground steam lines. If this project is not accomplished, energy consumption and maintenance costs will continue to increase.	
NJ	MCGUIRE AIR FORCE BASE	REPAIR HTHW SYSTEM	1,700
		Project replaces portions of the underground high-temperature hot water (HTHW) system that supply domestic hot water to various base facilities. The existing lines frequently leak and over 30% of the system valves are inoperable. If this project is not accomplished, major shut downs will become more frequent and more expensive to perform.	
NJ	MCGUIRE AIR FORCE BASE	UPGRADE MECHANICAL ROOMS	700
		Project repairs various mechanical rooms on base by removing asbestos, replacing HVAC systems, painting walls, improving ventilation, replacing doors and sump pumps. If this project is not accomplished, deterioration will continue causing more extensive repairs and a degraded work environment.	
NM	CANNON AIR FORCE BASE	REPAIR ASPHALT RUNWAY	1,125

REAL PROPERTY MAINTENANCE ACTIVITIES  
 FY 1999 PRESIDENT'S BUDGET  
 FY 1999 Major Repair/Major Repair With Concurrent Minor Construction Projects  
 (Costing more than \$500,000.00)

<u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	<u>Cost</u>
		Project replaces asphalt touchdown area with concrete. The current touchdown is concrete for only 300 feet, 700 feet short of Air Force requirements. Replacing the asphalt with concrete will reduce the foreign object damage hazard. If this project is not accomplished, deterioration will continue endangering safe flying operations.	
NM	KIRTLAND AIR FORCE BASE	REPAIR ELECTRIC FEEDER	500
		Project converts existing cross arm structure to a vertical structure and replaces deteriorating poles with new ones. Includes addition of vibration dampers and adjusting electrical line lengths between poles. Current system malfunctions due to lines contacting each excessive line sag. If this project is not accomplished, more frequent power fluctuations will occur and buildings will experience more power outages.	
NV	NELLIS AIR FORCE BASE	REPAIR RUNWAY	5,000
		Project replaces runway touchdown center sections. This asphalt runway requires frequent maintenance to reduce the potential of foreign object damage to aircraft. If this project is not accomplished, longer runway closures will be required for maintenance degrading the operational mission.	
NY	ROME LABORATORY	REPAIR LABORATORY	636

REAL PROPERTY MAINTENANCE ACTIVITIES  
 FY 1999 PRESIDENT'S BUDGET  
 FY 1999 Major Repair/Major Repair With Concurrent Minor Construction Projects  
 (Costing more than \$500,000.00)

<u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	<u>Cost</u>
		Project upgrades office and laboratory space from 1952 standards to current standards. Electrical and fire detection/protection systems will be upgraded to meet current code requirements. Interior finishes will be replaced and asbestos containing materials removed. If this project is not accomplished, continued use of this substandard facility will result in decreased productivity.	
NY	ROME LABORATORY	REPAIR ROOF	620
		Project replaces the existing failed built-up roofing system with a new modified bitumen roofing system. Without the replacement of this roof the frequency of roof leaks will increase causing structural damage to the building and further damage interior finishes.	
OH	WRIGHT-PATTERSON AIR FORCE BASE	REPLACE STEAM LINES IN AREA C	1,100
		Project replaces the steam and condensate lines with new HTHW lines in a shallow trench/direct buried. The existing lines are over 25 years old and beyond economical repair. Failure to replace these lines would mean loss of heat to our flightline operations facilities.	
OH	WRIGHT-PATTERSON AIR FORCE BASE	REPAIR ROADS	1,000
		Project repairs deteriorated roads basewide. Pavement conditions range from areas which have failed to those which are near failure. If this project is not accomplished, accelerated deterioration will continue causing more extensive future repairs and increased potential vehicle damage.	
OK	ALTUS AIR FORCE BASE	REPAIR HANGAR FIRE PROTECTION	1,727

REAL PROPERTY MAINTENANCE ACTIVITIES  
 FY 1999 PRESIDENT'S BUDGET  
 FY 1999 Major Repair/Major Repair With Concurrent Minor Construction Projects  
 (Costing more than \$500,000.00)

<u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	<u>Cost</u>
		Project repairs the fire suppression systems and expands the fire detection systems. The hangar provides space for simultaneous inspection of C-141 and C-5 aircraft. The primary fire suppression system is inoperative and the facility detection system is very limited. If this project is not accomplished, there is risk of extensive loss of real property and personnel injury.	
OK	TINKER AIR FORCE BASE	REPAIR CONDENSATE RETURN PIPING	785
		Project repairs existing condensate line in various facilities. The present piping system has reached the point of total deterioration. Pipe clamps and portions of pipe have been welded/strapped on to sections of the old piping network that have actually broken. If this project is not accomplished, system maintenance will increase and total system failure could occur.	
OK	VANCE AIR FORCE BASE	REPAIR RUNWAY	1,835
		Project replaces the existing 20 year old airfield pavements to support aircraft assigned to Specialized Undergraduate Pilot Training and transient aircraft. These pavements are brittle and cracking. If this work is not accomplished, the probability of foreign object damage to aircraft will increase and recurring maintenance costs will escalate.	
SC	CHARLESTON AIR FORCE BASE	REPAIR CHILD DEVELOPMENT CENTER	1,200
		Project replaces finishes, doors, toilet fixtures, and mechanical systems. Project also includes reconfiguration of non-load bearing walls and upgrades of utility systems. If work is not completed, facility will not meet current standards for child development centers.	
SC	CHARLESTON AIR FORCE BASE	REPAIR BASE SANITARY SEWER	600

REAL PROPERTY MAINTENANCE ACTIVITIES  
 FY 1999 PRESIDENT'S BUDGET  
 FY 1999 Major Repair/Major Repair With Concurrent Minor Construction Projects  
 (Costing more than \$500,000.00)

<u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	<u>Cost</u>
	<p>Project repairs major segments of a system installed in the 1950's. The current system is not adequate due to deterioration, settling, and collapse. These blockages result in excessive maintenance costs and could potentially endanger public health. If project is not accomplished, the system will continue to deteriorate and increase maintenance requirements.</p>		
SC	SHAW AIR FORCE BASE	REPAIR DINING FACILITY	750
	<p>Project repairs the existing dining hall which is located in a substandard facility built in 1958. Inadequate walk-in freezer/cooler space and antiquated kitchen amenities will be replaced to bring this facility up to current standards. If this project is not accomplished, airman will continue to dine in a substandard facility.</p>		
SD	ELLSWORTH AIR FORCE BASE	REPAIR SEWAGE SYSTEM	1,260
	<p>Project replaces aged and deteriorated base sewage lines and collection system which were installed in the 1940's. Existing sewage lines are leaking and leaching into the soil, and many pipe segments are out of alignment or open at the joints. If this project is not accomplished, the risk of potential environmental violations and possible penalties exists.</p>		
TN	ARNOLD AIR FORCE BASE	REPAIR SHOP	1,480
	<p>Project replaces HVAC system, updates lighting systems, and reconfigures office space to provide a flexible office environment. Existing HVAC system is in poor condition and have reached the end of their useful life. Existing office layout lighting is inefficient and does not meet current mission needs. If this project is not accomplished, the facility will continue to be inadequate for mission requirements.</p>		
TX	DYESS AIR FORCE BASE	REPAIR ELECTRICAL DISTRIBUTION	927

REAL PROPERTY MAINTENANCE ACTIVITIES  
 FY 1999 PRESIDENT'S BUDGET  
 FY 1999 Major Repair/Major Repair With Concurrent Minor Construction Projects  
 (Costing more than \$500,000.00)

<u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	<u>Cost</u>
		<p>Project replaces the overhead primary distribution in area D with an underground system. Poles, lines and pole top equipment have been in service over 40 years. The existing system is vulnerable to lightning strikes and phase shorting from high winds, resulting in power outages. If this project is not accomplished, the overhead distribution system will continue to be unsafe and subject to reduced system reliability, with frequent outages to replace failed components.</p>	
TX	LAUGHLIN AIR FORCE BASE	REPAIR PARKING APRON	1,333
		<p>Project replaces concrete slabs on aircraft parking apron. The parking apron is over 40 years old. The cracked pavement presents a safety hazard as it increases the potential for foreign object damage to aircraft engines and personnel. If this project is not accomplished, deterioration will continue causing more extensive repairs.</p>	
TX	LACKLAND AIR FORCE BASE	REPAIR TRAINING DORMITORY	600
		<p>This project will provide critical structural repairs to the largest capacity technical training student dormitory on base. Water infiltration has caused soil to swell under the facility, severely cracking one structural pier and cracking block walls at several locations. Failure to accomplish this project will result in further deterioration of the structure and potentially close the facility.</p>	
TX	RANDOLPH AIR FORCE BASE	REPAIR CASS SYSTEM	663
		<p>Project replaces the electrical lines to the centralized aircraft support system (CASS). The CASS system provides compressed air and electrical power to aircraft during initial aircraft start-up. The system experiences consistent and repeated electrical failures delaying flight training missions. Failure to accomplish this work will severely impede mission training and present a safety problem for maintenance personnel.</p>

 FY 1999 Major Repair/Major Repair With Concurrent Minor Construction Projects  
 (Costing more than \$500,000.00)

<u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	<u>Cost</u>
UT	HILL AIR FORCE BASE	REPAIR STEAM DISTRIBUTION MAINS	575
	<p>Project replaces existing steam and condensate lines. The existing lines are buried underground and beyond economical repair. Replacement lines will be installed in a shallow concrete trench system. Without this project, multiple support facilities will be without reliable environmental control.</p>		
UT	HILL AIR FORCE BASE	REPAIR MISSION SUPPORT HVAC	725
	<p>Project repairs the HVAC systems in various support facilities. Existing systems are in poor condition and have reached the end of their economical life. If this project is not accomplished, failing HVAC systems will be unable to maintain facility environments and support the Air Force activities housed in them.</p>		
VA	LANGLEY AIR FORCE BASE	REPAIR PAVEMENTS BASEWIDE	700
	<p>Project repairs base roads, parking lots, and sidewalks. Pavements range in condition from failure to near-failure due to potholes, spalls, and cracks. Several areas also require major drainage corrections. If this project is not accomplished, the potential for serious widespread vehicle damage will rise and future replacement costs will increase.</p>		
WA	FAIRCHILD AIR FORCE BASE	REPAIR TAXIWAY J	800
	<p>Project repairs existing asphalt shoulders. Asphalt shoulders are cracked, weathered, and deteriorated to the point where they need major repairs or seal coating to prevent foreign object damage. Weeds in the</p>

	cracks require extensive man-hours to control. If not corrected, maintenance costs and foreign object damage potential to aircraft will both increase.		
WA	MCCHORD AIR FORCE BASE	REPAIR STEAM LINES	700
	Project repairs by replacement existing overhead steam line system. Project will relocate steam and condensate lines currently located above grade to shallow trenches. If project is not accomplished, multiple facilities will be without reliable environmental control.		
WY	FRANCES E. WARREN AIR FORCE BASE	REPAIR DORMITORY	2,600
	Project repairs historic 1909 dormitory. Work includes configuring the floor plan to one-plus-one concept, correcting electrical code violations, installing fire sprinkler protection, and replacing leaking plumbing. If this project is not accomplished, Air Force dormitory quality of life standards will not be fully implemented and maintenance costs will increase.
